which was planned over the summer of 1993 attracted 32 submissions and was attended by 55 people. It was the largest workshop at ECAI 94 and the clear enthusiasm on behalf of the community made the decision to hold another AI workshop simple. The AI 94 proceedings were formally published in January 1995 under the title *Intelligent Agents* and included an extensive review article, a glossary, a list of key agent systems and unusually for the proceedings of an academic workshop, a full subject index. The high scientific and production values embodied by the AI 94 proceedings appear to have been recognized by the community and resulted in AI 94 proceedings being the most successful sequence of books published in Springer Verlag's *Lecture Notes in Artificial Intelligence* series.
