~~work to address refugee issues worldwide addressing the~~
psychological health human rights political public policy law
economic social and personal aspects of this universal problem
refugees worldwide also includes examples of first person refugee
stories from around the world eye opening information not
available in any other work drawing on the expertise of myriad
international researchers theoreticians and practitioners from
representative nations around the world this four volume set
effectively speaks to a number of refugee issues from a truly
global perspective this volume evaluates the theory and practice
of new and existing models in psychotherapy it includes the
topics individualism spirituality mainstream theories empirically
validated treatments multiculturalism and managed care is stress
ruining your life are you losing the enthusiasm you once exuded
and have you completely forgotten the meaning of happiness
from braille without borders and unite for sight to geekcorps and
peaceworks humanitarian groups are working worldwide largely in
undeveloped countries to better the lives of the residents whether
they are empowering people with schools for the blind prosthetic
limbs the devices to understand and use technology or the
information to work for civil peace the men and women of these
agencies offer tremendous talent to their causes great dedication
and sometimes even risk their lives to complete their missions
working in war or civil war zones humanitarians with nonprofits
non governmental agencies and university connected centers and
foundations have been injured kidnapped or killed now terrorist
events and war crimes are more and more often bringing these
self sacrificing workers into the national spotlight by media
headlines their work is doubtless remarkable and so too are the
stories of how they developed including the defining moments
when their founders felt they could no longer stand by and do
nothing in this set of books founders and top officials from
humanitarian organizations established in the last 50 years
spotlight how and why they began their organizations what their
greatest victories and challenges have been and how they run the
organizations down to where they get their funding and how they
spend it to grow the group and its efforts led by christie stout

Critical Issues in Psychotherapy 2001-02-28

prevention of mental illness and mental health promotion have
often been ignored in the past both in undergraduate and
postgraduate curricula recently however there has been a clear
shift towards public mental health as a result of increasing
scientific evidence that both these actions have a serious
potential to reduce the onset of illness and subsequent burden as
a result of mental illness and related social economic and political
costs a clear distinction between prevention of mental illness and
mental health promotion is critical selective prevention both at
societal and individual level is an important way forward the
oxford textbook of public mental health brings together the
increasing interest in public mental health and the growing
emphasis on the prevention of mental ill health and promotion of
well being into a single comprehensive textbook comprising
international experiences of mental health promotion and mental
well being chapters are supplemented with practical examples
and illustrations to provide the most relevant information
succinctly this book will serve as an essential resource for mental
and public health professionals as well as for commissioners of
services nurses and community health visitors
