about affected individuals and that
assumptions have consistently come to be
traded as facts re examination of the basis of
the pvs and the adoption of a more scientific
approach is long overdue and is owed to the
community at large which has generally been
provided by many medical practitioners with a
dumbed down account of the condition the book
will be of interest to philosophers medical
graduates and neuroscientists but is also
intended to remain accessible to the general
reader with an interest in the wider
implications of trends in medical thinking for
attitudes towards many classes of patient it
has an extensive bibliography and will be of
specific interest to bioethicists and lawyers
with professional interests in pvs
