a navigational aid to the apocalypse steve beard s six concepts for the end of the world mixes scientific research with experimental fiction to produce a manual for the apocalypse the author examines six disciplines technology sociology geography psychology theology and narratology and for each one creates a fictional scenario that both reflects and energizes the research all under the guiding light of the philosopher paul virilio s theories this approach allows beard to create one surprising idea after another hollywood viewed as a research and development lab for the end times a first person account of a ufo abduction a blog on the disappearance of the malaysian airlines flight 370 a voice over for an imaginary film by a doomsday cult member highly original in both form and content the book surprises and delights in its scope the approach is multidisciplinary and multidirectional and beard s exploration ranges over many areas and themes always bringing distinctive insights to bear six concepts for the end of the world is an expertly guided tour through the author s imagination and toward the end of the world dividing the sum total of human musical achievement from beethoven to the beatles busta rhymes to bach into just six fundamental forms levitin illuminates through songs of friendship joy comfort knowledge religion and love how music has been instrumental in the evolution of language thought and culture and how far from being a bit of a song and dance music is at the core of what it means to be human a one time record producer now a leading neuroscientist levitin has composed a catchy and startlingly ambitious narrative that weaves together darwin and dionne warwick memoir and biology anthropology and a jukebox of anecdote to create nothing less than the soundtrack of civilisation at the age of 67 henry holt struck off on a sailing adventure that would become a six year voyage unlike any other way of seeing the world the people he met and the challenges he faced along the way from bureaucratic headaches at ports to truly frightening weather events to isolation from his friends and family while relying on their help from afar only strengthened his commitment to the journey around the world in six years is an account of sailing lessons and life lessons in equal measure dramatic funny and heartfelt it is an account of an ordinary man on an extraordinary trip and will inspire the aspiring adventurer in every reader why do so many think the bible teaches that the universe is six thousand years old there are many good biblical and historical reasons to read genesis 1 nonliterally and there are many good scientific reasons to think the universe is much older out of this misconception some will lose faith while others won t
