traces the history of scandinavian countries emphasizing common features in their heritage

A History of Scandinavia

1979

how ecological design emerged in scandinavia during the 1960s and 1970s building on both scandinavia s design culture and its environmental movement scandinavia is famous for its design culture and for its pioneering efforts toward a sustainable future in ecological by design kjetil fallan shows how these two forces came together in the late 1960s and early 1970s when scandinavian designers began to question the endless cycle in which designed objects are produced consumed discarded and replaced in quick succession the emergence of ecological design in scandinavia at the height of the popular environmental movement fallan suggests illuminates a little known reciprocity between environmentalism and design not only did design play a role in the rise of modern environmentalism but ecological thinking influenced the transformation in design culture in scandinavia and beyond that began as the modernist faith in progress and prosperity waned fallan describes the efforts of scandinavian designers to forge an environmental ethics in a commercial design culture sustained by consumption shows by recounting a quest for sustainability through norwegian wood s that one of the main characteristics of ecological design is attention to both the local and the global and explores the emergence of a respectful and sustainable paradigm for international development case studies trace key connections to continental europe britain the us central america and east africa today ideas of sustainability permeate design discourse but the historical emergence of ecological design remains largely undiscussed with this trailblazing book fallan fills that gap

even those unmoved by its subject will thrill to scandinavian noir a beautifully crafted inquiry into fiction reality crime and place perhaps when it comes to fiction and reality what we need most are critics like lesser who can dissect the former with the tools of the latter kate tuttle the new york times book review an in depth and personal exploration of scandinavian crime fiction as a way into scandinavian culture at large for nearly four decades wendy lesser s primary source of information about three scandinavian countries sweden norway and denmark was mystery and crime novels and the murders committed and solved in their pages having never visited the region lesser constructed a fictional scandinavia of her own making something between a map a portrait and a cultural history of a place that both exists and does not exist lesser s scandinavia is disproportionately populated with police officers but also with the stuff of everyday life the likes of which are relayed in great detail in the novels she read a fully realized world complete with its own traditions customs and of course people over the course of many years lesser s fictional scandinavia grew more and more solidly visible to her yet she never had a strong desire to visit the real countries that corresponded to the made up ones until she writes between one day and the next that no longer seemed sufficient it was time to travel to scandinavia with vivid storytelling and an astonishing command of the literature wendy lesser s scandinavian noir in pursuit of a mystery illuminates the vast peculiar world of scandinavian noir first as it appears on the page then as it grows in her mind and finally in the summer of 2018 as it exists in reality guided by sharp criticism evocative travel writing and a whimsical need to discover the difference between existence and imagination reality and dream scandinavian noir is a thrilling and inventive literary adventure from a masterful writer and critic

Action Research for Democracy

2015-10-05

scandinavia is a region associated with modernity modern design modern living and a modern welfare state this new history of modernism in scandinavia offers a picture of the complex reality that lies behind the label a modernism made up of many different figures impulses and visions it places the individuals who have achieved international fame such as edvard munch and alvar aalto in a wider context and through a series of case studies provides a rich analysis of the art architecture and design history of the nordic region and of modernism as a concept and mode of practice modernism in scandinavia addresses the decades between 1890 and 1970 and presents an intertwined history of modernism across the region charlotte ashby gives a rationale for her focus on those countries which share an interrelated history and colonial past but also stresses influences from outside the region such as the english arts and crafts movement and the impact of emergent american modernism her richly illustrated account guides the reader through key historical periods and cultural movements with case studies illuminating key art works buildings designed products and exhibitions

Cousin-Hunting in Scandinavia (Classic Reprint)

2018-02-03

in this volume leading public anthropologists examine paths towards public engagement and discuss their experiences with engaged anthropology in arenas such as the media international organizations courtrooms and halls of government they discuss topics ranging from migration to cultural understanding justice development aid ethnic conflict war and climate change through these examples of hands on experience the book provides a unique account of challenges faced opportunities taken and lessons learned it illustrates the potential efficacy of an anthropology that engages with critical social and political issues

Scandinavian Design Beyond the Myth

2003

this study is among the first works in english to comprehensively address the scandinavian first world war experience in the larger international context of the war it surveys the complex relationship between the belligerent great powers and northern europe s neutral small states in times of crisis and war the book s overreaching rationale draws upon three underlying conceptual fields neutrality and international law hegemony and great power politics as well as diplomacy and policy making of small states in the international arena from a variety of angles it examines the question of how neutrality was understood and perceived negotiated and dealt with both among the scandinavian states and the belligerent major powers especially britain germany and russia for a long time the experience of neutral countries during the first world war was seen as marginal and was overshadowed by the experiences of occupation and collaboration brought about by the second world war in this book jonas demonstrates how this perception has changed with neutrality becoming an integral part of the multiple narratives of the first world war it is an important contribution to the international history of the first world war cultural historically influenced approaches to diplomatic history and the growing area of neutrality studies

Fodor's Essential Scandinavia

2009-04-21

introduction to nordic cultures is an innovative interdisciplinary introduction to nordic history cultures and societies from medieval times to today the textbook spans the whole nordic region covering historical periods from the viking age to modern society and engages with a range of subjects from runic inscriptions on iron rings and stone monuments via eighteenth century scientists ibsen s dramas and turn of the century travel to twentieth century health films and the welfare state nature ideology greenlandic literature nordic noir migration new scandinavians and stereotypes of the nordic the chapters provide fundamental knowledge and insights into the history and structures of nordic societies while constructing critical analyses around specific case studies that help build an informed picture of how societies grow and of the interplay between history politics culture geography and people introduction to nordic cultures is a tool for understanding issues related to the nordic region as a whole offering the reader engaging and stimulating ways of discovering a variety of cultural expressions historical developments and local preoccupations the textbook is a valuable resource for undergraduate students of scandinavian and nordic studies as well as students of european history culture literature and linguistics
