Python 3 Data Visualization Using ChatGPT / GPT-4

2023-12-12

this book is designed to show readers the concepts of python 3 programming and the art of data visualization it also explores cutting edge techniques using chatgpt gpt 4 in harmony with python for generating visuals that tell more compelling data stories chapter 1 introduces the essentials of python covering a vast array of topics from basic data types loops and functions to more advanced constructs like dictionaries sets and matrices in chapter 2 the focus shifts to numpy and its powerful array operations leading into data visualization using prominent libraries such as matplotlib chapter 6 includes seaborn s rich visualization tools offering insights into datasets like iris and titanic further the book covers other visualization tools and techniques including svg graphics d3 for dynamic visualizations and more chapter 7 covers information about the main features of chatgpt and gpt 4 as well as some of their competitors chapter 8 contains examples of using chatgpt in order to perform data visualization such as charts and graphs that are based on datasets e g the titanic dataset companion files with code datasets and figures are available for downloading from foundational python concepts to the intricacies of data visualization this book is ideal for python practitioners data scientists and anyone in the field of data analytics looking to enhance their storytelling with data through visuals it s also perfect for educators seeking material for teaching advanced data visualization techniques

features explores cutting edge techniques using chatgpt gpt 4 in harmony with python for generating visuals that tell more compelling data stories contains detailed tutorials that guide you through the creation of complex visuals tackles actual data scenarios and builds your expertise as you apply learned concepts to real datasets features data manipulation and cleaning with pandas to prepare flawless datasets ready for visualization includes companion files with source code data sets and figures
