life to protect nature s great endangered mammals he has journeyed to the remote corners of the earth in search of wild things weathering treacherous terrain plane crashes and hostile governments life in the valley of death recounts his most ambitious and dangerous adventure yet the creation of the world's largest tiger preserve the tale is set in the lush hukaung valley of myanmar formerly known as burma an escape route for refugees fleeing the japanese army during world war ii this rugged stretch of land claimed the lives of thousands of children women and soldiers today it is home to one of the largest tiger populations outside of india a population threatened by rampant poaching and the recent encroachment of gold prospectors to save the remaining tigers rabinowitz must navigate not only an unforgiving landscape but the tangled web of politics in myanmar faced with a military dictatorship an insurgent army tribes once infamous for taking the heads of their enemies and villagers living on less than one us dollar per day the scientist and adventurer most comfortable with animals is thrust into a diplomatic minefield as he works to balance the interests of disparate factions and endangered wildlife his own life is threatened by an incurable disease the resulting story is one of destruction and loss but also renewal in forests reviled as the valley of death rabinowitz finds new life for himself for communities haunted by poverty and violence and for the tigers he vowed to protect named a best book of 2011 by the san francisco chronicle at the fights is a gritty and protect him then everything changed a tempted tiger a mission gone wrong brings him face to face with a woman who tempts his tiger from hiding he wants her with a fierce hunger that consumes him and shocks him with the possessive nature she awakens mine amia belongs nowhere not with the blane family of hunters she was born into and not with the dominant man who kidnaps her and turns her world upside down she runs she fights and when the time comes she pays the price running isn t an option and there s no fighting a man who turns her inside out with unquenchable lust maybe just maybe she s found where she belongs the cage is a tightly written and clear eyed narrative about one of the most disturbing human

dramas of recent years a riveting cautionary tale about the consequences of unchecked political power in a country at war a must read jon lee anderson new yorker staff writer and author of the fall of baghdad in the closing days of the thirty year sri lankan civil war tens of thousands of civilians were killed according to united nations estimates as government forces hemmed in the last remaining tamil tiger rebels on a tiny sand spit dubbed the cage gordon weiss a journalist and un spokesperson in sri lanka during the final years of the war pulls back the curtain of government misinformation to tell the full story for the first time tracing the role of foreign influence as it converged with a history of radical buddhism and ethnic conflict the cage is a harrowing portrait of an island paradise torn apart by war and the root causes and catastrophic consequences of a revolutionary uprising caught in the crossfire of international power jockeying gordon weiss has lived in new york and worked in numerous conflict and natural disaster zones including the congo uganda darfur bosnia afghanistan syria and haiti employed by the united nations for over two decades he continues to consult on war extremism peace building and human rights since he began to practice at the age of seven xie aoyu has been hit again and again his practice is the hardest and his family uses the most medicinal materials for him but others have cultivated guarrelling in one year what about him when germany s leading tank ace meets the steppe fox it s a fight to the death faced with overwhelming odds kampfgruppe von schroif needs a better tank and fast but the new tiger tank is still on the drawing board and von schroif must overcome bureaucracy espionage and relentless allied bombing to get the tiger into battle in time to meet the ultimate challenge based on a true story of combat on the russian front this powerful new novel is written by emmy award winning writer bob carruthers and newcomer sinclair mclay it tells the gripping saga of how the tiger tank was born and a legend forged in the heat of combat gritty intense and breath taking in its detail this sprawling epic captures the reality of the lives and deaths of the tank crews fighting for survival on the eastern front a remarkable novel worthy of comparison with das boot the historical record indicates that king surjuenthrathibodi died of drink within the record there is a tantalizing reference to the possibility of a civil war as luang prince sorasak the future king was able to fight openly but as king suriventhrathibodi his subjects were not permitted physical contact with their king he was famed for going to fights in disguise to meet and usually beat the best in the land the story takes us into the raw underbelly of london life in the early 1700 s where pugilism is making a comeback after centuries of neglect led by a young james figg the first recognized boxing champion the rivalry of these two men drives the story the second part of the book delves into the reigns of king narai the great and king phetracha and is heavily based and built around historical fact the idea for the book came from my narrative non fiction work the kings of ayutthaya due for publication by silkworm books in late 2017 the thought that king suriventhathibodi died from an excess of drink did not seem to match with the often cruel fighting king portrayed by history his flight to london brings a clash of both cultures and of fighting styles in a period of history where the fight to survive is an every day one in peoples lives the book is historical fiction with a difference the london of queen anne is rarely the subject of novels the regency period that follows offers more scope to the writer the history of siam is worthy of greater understanding hopefully this book apart from being a good read will introduce to historical periods and places that are different from the norm author travis paul originally born in linden guyana takes us into the sometimes dangerous world of street fighting this is a book of martial arts real life application the author has developed his own martial arts after 28 years of not being able to afford martial arts school but having to survive the gauntlet of street thugs of the 1980s and 90s new york city new jersey area it combines the spiritual principles of martial arts with the physical training the book takes us through all the strategies that were developed through the author's experience with fighting it leaves the reader with a deep insight into the many strategies the writer used to escape dangerous life threatening situations and to defeat many opponents kabadaro is the name of the martial art focused mainly on strikes and it was developed in the alley ways however it shows the originator s reverence for the spiritual side of martial arts which is all too often ignored the writing is based on the author's theory that no matter how big or small old or young weak or strong that one can defend themselves perfect for those who are looking to develop their striking strength and cope with grappling the writing also contains well laid out philosophy for day to day living and well being this is a journey that will take you through the battle with uterine cancer you will experience unknown steps emotions fears tears joy

the importance of family close friends faith and trust as the writer fights the tiger in her life for survival dick tiger was perhaps the greatest fighter to come out of the african continent emerging from an environment devoid of substantive traditions in boxing he would overcome a litany of obstacles before becoming a two time undisputed world middleweight titlist and an undisputed light heavyweight champion the life and times of a boxing immortal the first comprehensive biography of dick tiger puts the man in the context of his times a migrant fighter to liverpool the repository of west african born fighters who kept the british game alive during the industry wide recession of the 1950s tiger later moved to america where he established a marguee value seldom attained by non american fighters and where he played a prominent role as an in house fighter at the mecca of boxing new york city's madison square garden his life also personified the hopes aspirations and the tragedy of the igbo ethnic group an avowed apostle of biafran secession from nigeria tiger s support would cost him dearly here is dick tiger as never before explained the blue collar fighter ageless ringman commercial venturer nigerian patriot and biafran rebel from empty bottle trader to wealthy realtor from nigerian boxing booths to madison square garden from journeyman fighter to world championship fighter the life and times of a boxing immortal is a compelling study of human dignity in triumph and in tragedy women willing to fight is a collection of essays that explores the presence of the fighting woman in contemporary hollywood cinema drawn from a variety of genres the authors examine the changing role image and position of this figure in film over recent decades the increasing dominance of this character and her repositioning as a protagonist reinvigorates discussion concerning the dynamics of film narrative and spectacle each contribution takes as its focus a central character from the hollywood blockbuster era examining in detail the motivations and implications of the fighting female in doing so the collection raises significant questions about the place of the fighting woman in contemporary media and the relationships she forges on and off screen with a strong appreciation of the mixed messages inherent in images of fighting women women willing to fight seeks to draw attention to the embodied forms physical intellectual and emotional through which female fighters are represented the anthology places particular emphasis on the emergence of the physically empowered woman a character for whom the body has become a weapon and a target while early cinematic representations allowed women to voice their fury and frustration today s female fighters not only speak up but muscle up putting aside the supernatural powers of many action heroines this volume focuses on the kinds of fighting skills abilities and desires that are engendered in characterisations of mortal women to this end the volume implicitly addresses complex and cross cultural notions of extra ordinary power by examining the embodied arsenal that these characters possess and develop through training conditioning and life experience it considers the representation of motivation and metamorphoses into the fighting woman how a woman fights holds implicit meaning and inevitably urges us to consider why and what she is fighting for buku ini baru akan terbit pada 27 mei 2009 berapa banyak buku motivasi dan pengembangan diri yang sudah anda baca selama ini adakah pengaruhnya yang signifikan dalam peningkatan kualitas hidup anda atau justru hanya bagai secarik cerita pelipur lara mengapa kebanyakan orang begitu menginginkan kesuksesan dan tahu caranya namun belum mengambil satu langkah pun untuk mewujudkannya apa rahasia di balik fenomena sukses gagal dan motivasi diri tidak ada jalan pintas menuju sukses temukan jawaban jawaban praktis dan taktis di dalam buku ini

the historical record indicates that king suriventhrathibodi died of drink within the record there is a tantalizing reference to the possibility of a civil war as luang prince sorasak the future king was able to fight openly but as king suriventhrathibodi his subjects were not permitted physical contact with their king he was famed for

going to fights in disguise to meet and usually beat the best in the land the story takes us into the raw underbelly of london life in the early 1700 s where pugilism is making a comeback after centuries of neglect led by a young james figg the first recognized boxing champion the rivalry of these two men drives the story the second part of the book delves into the reigns of king narai the great and king phetracha and is heavily based and built around historical fact the idea for the book came from my narrative non fiction work the kings of ayuthaya due for publication by silkworm books in late 2017 the thought that king suriyenthathibodi died from an excess of drink did not seem to match with the often cruel fighting king portrayed by history his flight to london brings a clash of both cultures and of fighting styles in a period of history where the fight to survive is an every day one in peoples lives the book is historical fiction with a difference the london of queen anne is rarely the subject of novels the regency period that follows offers more scope to the writer the history of siam is worthy of greater understanding hopefully this book apart from being a good read will introduce to historical periods and places that are different from the norm
