past 15 years with highlighted importance on specialist multidisciplinary teams mdt including radiologists and cytopathologists to achieve high levels of diagnostic accuracy in this modern working environment special training and commitment to cytopathology are required in addition to histopathology cytopathology of the head and neck ultrasound guided fnac supports the learning of new skills expected of practicing pathologists by providing a comprehensive approach to cytopathology including performing fnac and on site interpretation new to this edition is coverage of ultrasound us guidance the use of which has emerged as an essential adjunct to either fine needle aspiration cytology fnac or needle core biopsy and is expected to increase us combined with us guided fnac is now recommended as the investigation method of first choice for hn lesions for evaluating regional metastases in hn patients for both those with and those without palpable lumps this second edition also includes companion website containing ultrasound case histories which detail imaging findings list differential diagnosis and suggest further investigations compiled by dr simon morley expanded coverage of clinical images of head and neck masses clear presentation of fnac diagnostic features with images clinical management algorithms examples of diagnostic of pitfalls and complications in fnac this timely book fills the training gap required for pathologists and offers a team approach to head and neck lesions with valuable input from radiologists ent ear nose and throat surgeons oncologists and medico legal experts this new edition reflects the emergent multidisciplinary approach to head and neck practice

The Kingdom and the Qur'an 2024-02-08

this book presents a detailed analysis of the translation of the qur an in saudi arabia the most important global actor in the promotion production and dissemination of qur an translations from the first attempts at translation in the mid twentieth century to more recent state driven efforts concerned with international impact the kingdom and the qur an adeptly elucidates the link between contemporary islamic theology and the advent of modern print culture it investigates this critical juncture in both middle eastern political history and the intellectual evolution of the muslim world interweaving literary socio historical and socio anthropological threads to depict the intricate backdrop of the saudi qur an translation movement mykhaylo yakubovych provides a comprehensive historical overview of the debates surrounding the translatability of the qur an as well as exploring the impact of the burgeoning translation and dissemination of the holy book upon wahhabi and salafi interpretations of islam backed by meticulous research and drawing on a wealth of sources this work illuminates an essential facet of global islamic culture and scholarly discourse

How Divine Images Became Art 2024-02-09

how divine images became art tells the story of the parallel discovery of russian medieval art and of the italian primitives at the beginning of the twentieth century while these two developments are well known they are usually studied in isolation tarasov s study has the great merit of showing the connection between the art world in russia and the west and its impact in the cultural history of the continent in the pre war period drawing on a profound familiarity with russian sources some of which are little known to western scholars and on equally expert knowledge of western

people who work in pastoralism their narratives highlight how local practices interact with regional and european communities and policies and they help us see a broader role for extensive grazing practices and sustainability a country of shepherds is timely reflecting the growing interest in ecological farming methods as well as the spanish government s recent work with unesco to recognise the seasonal movement of herd animals in the iberian peninsula as an intangible cultural heritage demonstrating the critical role of tradition cultural geographies and sustainability in the mediterranean this book will appeal to academicians but also to general readers who seek to understand in very human terms the impact of the world wide environmental crisis we are now experiencing

A Country of Shepherds 2024-03-05

what was it like growing up during the cold war what can childhood memories tell us about state socialism and its aftermath how can these intimate memories complicate history and redefine possible futures these questions are at the heart of the an archive childhood memory and the cold war this edited collection stems from a collaboration between academics and artists who came together to collectively remember their own experiences of growing up on both sides of the iron curtain looking beyond official historical archives the book gathers memories that have been erased or forgotten delegitimized or essentialized or at best reinterpreted nostalgically within the dominant frameworks of the east west divide and it reassembles and re stores these childhood memories in a form of an anarchive a site for merging mixing connecting but also juxtaposing personal experiences public memory political rhetoric places times and artifacts these acts and arts of collective remembering tell about possible futures and the past s futures what life during the cold war might have been but also what it has become an archive will be of particular interest to scholars in a variety of fields but particularly to artists educators
