Proceedings of the 2nd International Conference on Education, Language and Art (ICELA 2022) Smart Computing and Communication Genetic and Evolutionary Computing Cyberspace Safety and Security Proceedings of the 2022 3rd International Conference on Big Data and Social Sciences (ICBDSS 2022) Advances in Creativity, Innovation, Entrepreneurship and Communication of Design The Making of a Neo-Propaganda State Smart Service Systems, Operations Management, and Analytics China in the Era of Social Media HCI International 2023 - Late Breaking Papers Proceedings of the 2022 4th International Conference on Economic Management and Cultural Industry (ICEMCI 2022) Engineering Management and Industrial Engineering Metro Newspaper Journalists in China Wireless Algorithms, Systems, and Applications Tenth International Conference on Applications and Techniques in Cyber Intelligence (ICATCI 2022) Theory, Methodology, Tools and Applications for Modeling and Simulation of Complex Systems Information and Communication Technologies in Tourism 2019 Smart Health Information Science and Electronic Engineering Information Technology and Intelligent Transportation Systems China's Political System Artificial Intelligence in China Chinese for Business and Professionals in the Workplace Innovative Computing Artificial Intelligence and Security Service-Oriented Computing - ICSOC 2018 Workshops Computer and Computing Technologies in Agriculture VIII CALL and complexity - short papers from EUROCALL 2019 Design, User Experience, and Usability: Design for Emotion, Well-being and Health, Learning, and Culture The Language of Color in China Proceedings of the 9th International Conference on Computer Engineering and Networks Cross-Cultural Design Digital Forensics and Watermarking HCI International 2022 - Late Breaking Papers: HCI for Health, Well-being, Universal Access and Healthy Aging Proceedings of the 2022 International Conference on Science Education and Art Appreciation (SEAA 2022) International Conference on Applications and Techniques in Cyber Intelligence ATCI 2019 Economic and Business Management CALL communities and culture - short papers from EUROCALL 2016 Human Aspects of IT for the Aged Population Silencing Chinese Media

# **Proceedings of the 2nd International Conference on Education, Language and Art (ICELA 2022)**

2023-03-02

this is an open access book the 2nd international conference on education language and art icela 2022 was held in sanya china on nov 25 27 2022 the aim of icela 2022 is to bring together innovative academics and industrial experts in the field of education language and other research areas the primary goal of the conference is to promote scientific information interchange between researchers developers students and practitioners working all around the world the conference will be held every year to make it an ideal platform for people to share views and experiences we warmly invite you to participate in icela 2022 and look forward to seeing you in sanya china

## ***Smart Computing and Communication***

2019-11-04

this book constitutes the refereed proceedings of the 4th international conference on smart computing and communications smartcom 2019 held in birmingham uk in october 2019 the 40 papers presented in this volume were carefully reviewed and selected from 286 submissions they focus on both smart computing and communications fields and aimed to collect recent academic work to improve the research and practical application in the field

## ***Genetic and Evolutionary Computing***

2022-01-04

this book contains selected papers presented at icgec 2021 the 14th international conference on genetic and evolutionary computing held from october 21 23 2021 in jilin city china the conference was technically co sponsored by springer northeast electric power university fujian university of technology shandong university of science and technology and western norway university of applied sciences it is intended as an international forum for the researchers and professionals in all areas of genetic and evolutionary computing and the readers may learn the up to date techniques of the mentioned topics including swarm intelligence artificial intelligence information hiding and data mining techniques which can help them to bring new ideas or apply the designed approaches from the collected papers to their professional jobs

## ***Cyberspace Safety and Security***

2017-10-20

this book constitutes the proceedings of the 9th international symposium on cyberspace safety and security css 2017 held in xi an china in october 2017 the 31 full papers and 10 short papers presented in this volume were carefully reviewed and selected from 120 submissions the papers focus on cyberspace safety and security such as authentication access control availability integrity privacy confidentiality dependability and sustainability issues of cyberspace

## **Proceedings of the 2022 3rd International Conference on Big Data and Social Sciences (ICBDSS 2022)**

2023-02-11

this is an open access book as a leading role in the global megatrend of scientific innovation china has been creating a more and more open environment for scientific innovation increasing the depth and breadth of academic cooperation and building a community of innovation that benefits all such endeavors are making new contributions to the globalization and creating a community of shared future the 3rd international conference on big data and social sciences icbdss 2022 was held on august 19 21 2022 in hulunbuir china with the support of experts and professors the icbdss 2022 conference successfully held its first conference last year in order to allow more scholars to have the opportunity to participate in the conference to share and exchange experience this conference mainly focused on big data social science and other research fields to discuss at present my country has entered the era of big data cloud migration that is the era of big data the internet of things cloud computing and mobile internet the market demand for big data talents is also increasing day by day the purpose of the conference is to provide a way for experts scholars engineering technicians and technical r d personnel engaged in big data and social science research to share scientific research results and cutting edge technologies understand academic development trends broaden research ideas strengthen academic research and discussion and promote the academic achievement industry platform for chemical cooperation the conference sincerely invites experts scholars from domestic and foreign universities scientific research institutions business people and other relevant personnel to participate in the conference

## **Advances in Creativity, Innovation, Entrepreneurship and Communication of Design**

2021-07-01

this book brings together experts from different areas to show how creativity drives design and innovation in different kind of businesses it presents theories and best practices demonstrating how creativity generates technological invention and how this combined with entrepreneurship leads to business innovation it also discusses strategies to teach entrepreneurial competencies and support business developments including aspects such as corporate social responsibility and sustainability moreover the book discusses the role of human factors in understanding communicating with and engaging users reporting on innovative approaches for product design development and branding it also discusses applications in education and well being based on the ahfe 2021 conferences on creativity innovation and entrepreneurship and human factors in communication of design held virtually on july 25 29 july 2021 from usa the book addresses a broad audience of business innovators entrepreneurs designers and marketing and communication experts alike

## **The Making of a Neo-Propaganda State**

2022-06-08

this book thoroughly examines how china under xi jinping has conceptualized and enforced its digital propaganda strategy on social media which has enabled the ruling chinese communist party ccp regime to manipulate online information and shape public opinion

## **Smart Service Systems, Operations Management, and Analytics**

2019-11-25

this volume offers state of the art research in service science and its related research education and practice areas it showcases recent developments in smart service systems operations management and analytics and their impact in complex service systems the papers included in this volume highlight emerging technology and applications in fields including healthcare energy finance information technology transportation sports logistics and public services regardless of size and service a service organization is a service system because of the socio technical nature of a service system a systems approach must be adopted to design develop and deliver services aimed at meeting end users both utilitarian and socio psychological needs effective understanding of service and service systems often requires combining multiple methods to consider how interactions of people technology organizations and information create value under various conditions the papers in this volume present methods to approach such technical challenges in service science and are based on top papers from the 2019 informs international conference on service science

## **China in the Era of Social Media**

2020-06-22

china in the era of social media discusses how social media is changing the world in an unprecedented way through speed scope and depth in the last decade or so social media in china has witnessed the most explosive growth in the world being the most populous nation in the world it has the most social media users in the world as well this book examines the current situation and unique characteristics of chinese social media the significance of social media in the country s social transformation and particularly its influences on political change in the nation the main goal of this book is to explore how social media has been affecting and thus changing china s political system the ruling communist ideology and the state run media as well as its public discourse and public opinions scholars of asian studies political science and communications will find this book particularly interesting

## **HCI International 2023 - Late Breaking Papers**

2023-12-01

this seven volume set lncs 14054 14060 constitutes the proceedings of the 25th international conference hci international 2023 in copenhagen denmark in july 2023 for the hccii 2023 proceedings a total of 1578 papers and 396 posters was carefully reviewed and selected from 7472 submissions additionally 267 papers and 133 posters are included in the volumes of the proceedings published after the conference as late breaking work these papers were organized in the following topical sections hci design and user experience cognitive engineering and augmented cognition cultural issues in design technologies for the aging population accessibility and design for all designing for health and wellbeing information design visualization decision making and collaboration social media creative industries and cultural digital experiences digital human modeling ergonomics and safety hci in automated vehicles and intelligent transportation sustainable green smart cities and smart industry extended reality interactions gaming and gamification experiences interacting with artificial intelligence security privacy trust and ethics learning technologies and learning experiences ecommerce digital marketing and efinance

## ***Proceedings of the 2022 4th International Conference on Economic Management and Cultural Industry (ICEMCI 2022)***

2023-01-13

this is an open access book 2022 4th international conference on economic management and cultural industry icemci 2022 to be held in chongqing

online on october 14 16 2022 as the leader of the global trend of scientific and technological innovation china is constantly creating a more open scientific and technological innovation environment expanding the depth and breadth of academic cooperation and building a shared innovation community these efforts are making new contributions to globalization and building a community with a shared future for mankind icemci aims to bring together innovative academics and industry experts in economic management and cultural industry into a common forum we will discuss and research on areas such as international economics and trade sustainable economic development economic statistics economic policy the impact of cultural industries on the economy etc icemci 2022 also aims to provide a platform for experts scholars engineers technicians and technology r d personnel to share scientific research results and cutting edge technologies understand academic development trends expand research ideas strengthen academic research and discussion and promote cooperation in the industrialization of academic achievements with the theme economic management and cultural industry icemci 2022 aspires to keeping up with advances and changes to a consistently morphing field leading researchers and industry experts from around the globe will be presenting the latest studies through papers keynote speeches and oral presentations we warmly invite you to participate in icemci 2022 and look forward to seeing you in chongqing

## **Engineering Management and Industrial Engineering**

2015-05-06

engineering management and industrial engineering endeavors to provide a comprehensive and in depth understanding of recent advances in management industrial engineering the book is divided in the sections below modeling simulation and engineering application manufacturing systems and industrial design information processing and engineering

## **Metro Newspaper Journalists in China**

2016-08-25

this book explores how journalists at local metro papers in a south western china metropolis give meaning to their work and how these meanings are shaped by the specific social environment within which these journalists operate these metro papers provide the bulk of daily news to the general public in china yet are often understudied compared to the country s party news outlets informed by fieldwork in four metro newspapers the book puts forward a grounded theory for exploring journalists occupational culture the aspiration frustration reconciliation framework

## **Wireless Algorithms, Systems, and Applications**

2015-07-31

this book constitutes the proceedings of the 10th international conference on wireless algorithms systems and applications wasa 2015 held in qufu shandong china in august 2015 the 36 revised full papers presented together with 5 revised short papers and 42 invited papers were carefully reviewed and selected from 133 initial submissions the papers present current trends challenges and state of the art solutions related to various issues in wireless networks topics of interests include effective and efficient state of the art algorithm design and analysis reliable and secure system development and implementations experimental study and testbed validation and new application exploration in wireless networks

## ***Tenth International Conference on Applications and Techniques in Cyber Intelligence (ICATCI 2022)***

2023-04-07

this book presents innovative ideas cutting edge findings and novel techniques methods and applications in a broad range of cybersecurity and cyberthreat intelligence areas as our society becomes smarter there is a corresponding need to secure our cyberfuture the book describes approaches and findings that are of interest to business professionals and governments seeking to secure our data and underpin infrastructures as well as to individual users

## **Theory, Methodology, Tools and Applications for Modeling and Simulation of Complex Systems**

2016-09-21

this four volume set ccis 643 644 645 646 constitutes the refereed proceedings of the 16th asia simulation conference and the first autumn simulation multi conference asiasim scs autumnsim 2016 held in beijing china in october 2016 the 265 revised full papers presented were carefully reviewed and selected from 651 submissions the papers in this fourth volume of the set are organized in topical sections on modeling and simulation applications simulation software social simulations verification validation and accreditation

## **Information and Communication Technologies in Tourism 2019**

2018-12-14

this book provides an extensive up to date overview of the ways in which information and communication technologies can be used to develop tourism and hospitality the coverage encompasses a wide variety of topics within the field including virtual reality sharing economy and peer to peer accommodation social media use hotel technology big data robotics and recommendation systems to name but a few the content is based on the 2019 enter etourism conference organized in nicosia cyprus by the international federation for information technologies and travel tourism ifitt the leading independent global community for the discussion exchange and development of knowledge on the use and impact of new icts in the travel and tourism industry the book offers a global perspective and rich source of information on important innovations and novel ideas though it will prove especially valuable for academics working in the etourism field it will also be of considerable interest to practitioners and students

## **Smart Health**

2019-11-20

this book constitutes the thoroughly refereed conference proceedings of the international conference for smart health icsh 2019 held in shenzhen china in july 2019 the 34 full papers and 1 short papers presented were carefully reviewed and selected from 43 submissions in this book a lively exchange and collaborations between the growing international smart health research scholars and communities has been introduced and to advance our understanding about the technical practical economic behavioral and social issues center on smart health the selected papers are organized into the following topics precision medicine and telehealth social psychosocial and behavioral determinants of health data science analytics clinical and business intelligence clinical informatics and clinician engagement

## **Information Science and Electronic Engineering**

2016-12-08

information science and electronic engineering is a collection of contributions drawn from the international conference of electronic engineering and information science iceeis 2016 held january 4 5 2016 in harbin china the papers in this proceedings volume cover various topics including electronic engineering information science and information technologies computational mathematics and data mining image processing and computer vision communication and signal processing control and automation of mechatronics methods devices and systems for measurement and monitoring engineering of weapon systems mechanical engineering and material science technologies of processing the content of this proceedings volume will

be of interest to professionals and academics in the fields of electronic engineering computer science and mechanical engineering

## **Information Technology and Intelligent Transportation Systems**

2019-01-16

intelligent transportation systems its are the model for integrating advanced information technology data communication transmission technology electronic sensing technology control technology and computer technology into a comprehensive ground traffic management system they are the direction of development for future transportation systems this book presents the proceedings of the 3rd international conference on information technology and intelligent transportation systems itits 2018 held in xi an china on 15 16 september 2018 the conference provides a platform for professionals and researchers from industry and academia to present and discuss recent advances in the field of information technology and intelligent transportation systems intelligent transport systems vary in the technologies they apply from basic management systems to more application based systems information technology including wireless communication computational technologies floating car data floating cellular data sensor technologies and video vehicle detection is also intrinsic to intelligent transportation systems all papers were reviewed by 3 4 referees and the program chairs of the conference committee made their selections based on the score of each paper this year itits 2018 received more than 168 papers from 4 countries of which 41 papers were accepted offering a state of the art overview of the theoretical and applied topics related to its this book will be of interest to all those working in the field

## **China's Political System**

2020-09-30

this book includes collective research by the institute of political science of the chinese academy of social sciences which is an important research institution of political science and a think tank in china the book was completed by the expert team of china s political system headed by director fang ning for several years and after several changes in their manuscripts this book covers the core political systems of china such as the leadership system of the communist party of china the decision making system of the party and government in chinese politics the system of the people s congress the relationship between the central and local authorities the system of officials training and selection the system of discipline inspection and supervision the system of consultative democracy and the system of community level self governance etc this book aims to build a new paradigm of empirical research and introduction of the contemporary chinese political system by using the description and research method of materialization and dynamics of the political system

## ***Artificial Intelligence in China***

2021-02-08

this book brings together papers presented at the 2nd international conference on artificial intelligence in china chinaai 2020 which provides a venue to disseminate the latest developments and to discuss the interactions and links between these multidisciplinary fields spanning topics covering all topics in artificial intelligence with new development in china this book is aimed at undergraduate and graduate students in electrical engineering computer science and mathematics researchers and engineers from academia and industry as well as government employees such as nsf dod and doe

## ***Chinese for Business and Professionals in the Workplace***

2022-09-05

this volume presents a series of the most up to date studies on chinese for specific purposes csp an area that has been underrepresented in language for specific purposes lsp drawing from the insights and trends in mainstream theoretical and methodological lsp research chapters in this volume explore novelties that csp has developed to prepare chinese for professional learners for the global economy these encompass needs analysis of less surveyed high school business chinese or csp academic writing classes developments on internationally oriented engineering and internship programs in china innovations in chinese for business or legal materials development and review on textbook pragmatics studies on language arts and chinese language use in specific or business settings technology driven project based learning or discipline specific curriculum design robustly supported by studies and analysis on the global scale this volume comprises contributions by professionals from universities across asia and the united states each with decades of expertise in lsp these chapters offer critical insights necessary to help lsp researchers and educators rethink curricula and develop new initiatives for lsp they may also serve as transferable operations that enhance the practice of lsp as a crucial component of second language education

## **Innovative Computing**

2022-10-14

this book comprises select proceedings of the 5th international conference on innovative computing ic 2022 focusing on cutting edge research carried out in the areas of information technology science and engineering some of the themes covered in this book are cloud communications and networking high performance computing architecture for secure and interactive iot satellite communication wearable network and system infrastructure management etc the essays are written by leading international experts making it a valuable resource for researchers and practicing

engineers alike

## **Artificial Intelligence and Security**

2019-07-18

the 4 volume set lncs 11632 until lncs 11635 constitutes the refereed proceedings of the 5th international conference on artificial intelligence and security icaais 2019 which was held in new york usa in july 2019 the conference was formerly called international conference on cloud computing and security with the acronym icccs the total of 230 full papers presented in this 4 volume proceedings was carefully reviewed and selected from 1529 submissions the papers were organized in topical sections as follows part i cloud computing part ii artificial intelligence big data and cloud computing and security part iii cloud computing and security information hiding iot security multimedia forensics and encryption and cybersecurity part iv encryption and cybersecurity

## ***Service-Oriented Computing - ICSOC 2018 Workshops***

2019-04-09

this book constitutes the revised selected papers of the scientific satellite events that were held in conjunction with the 16th international conference on service oriented computing icsoc 2018 held in hangzhou china in november 2018 the icsoc 2018 workshop track consisted of six workshops on a wide range of topics that fall into the general area of service computing a special focus this year was on internet of things data analytics and smart services first international workshop on data driven business services ddbbs first international workshop on networked learning systems for secured iot services and its applications nls4iot 8th international workshop on context aware and iot services ciots third international workshop on adaptive service oriented and cloud applications asoca2018 third international workshop on iot systems for context aware computing isycc first international workshop on ai and data mining for services adms

## ***Computer and Computing Technologies in Agriculture VIII***

2015-09-29

this book constitutes the refereed post conference proceedings of the 8th ifip wg 5 14 international conference on computer and computing technologies in agriculture ccta 2014 held in beijing china in september 2014 the 81 revised papers included in this volume were carefully selected from 216 submissions they cover a wide range of interesting theories and applications of information technology in agriculture including intelligent

sensing monitoring and automatic control technology key technology and models of the internet of things intelligent technology for agricultural equipment computer vision computer graphics and virtual reality computer simulation optimization and modeling cloud computing and agricultural applications agricultural big data decision support systems and expert systems 3s technology and precision agriculture quality and safety of agricultural products detection and tracing technology and agricultural electronic commerce technology

## **CALL and complexity - short papers from EUROCALL 2019**

2019-12-09

the theme selected for the 2019 eurocall conference held in louvain la neuve was call and complexity as languages are known to be intrinsically and linguistically complex as are the many determinants of learning additional languages complexity is viewed as a challenge to be embraced collectively the 2019 conference allowed us to pay tribute to providers of call solutions and to recognize the complexity of their task we hope you will enjoy reading this volume as it offers a rich glimpse into the numerous debates that took place during eurocall 2019 we look forward to continuing those debates and discussions with you at the next eurocall conferences

## **Design, User Experience, and Usability: Design for Emotion, Well-being and Health, Learning, and Culture**

2022-06-16

this book constitutes the refereed proceedings of the 11th international conference on design user experience and usability duxu 2022 held as part of the 23rd international conference hci international 2022 which was held virtually in june july 2022 the total of 1271 papers and 275 posters included in the hcii 2022 proceedings was carefully reviewed and selected from 5487 submissions the duxu 2022 proceedings comprise three volumes they were organized in the following topical sections part i processes methods and tools for ux design and evaluation user requirements preferences and ux influential factors usability acceptance and user experience assessment part ii emotion motivation and persuasion design design for well being and health learning experience design globalization localization and culture issues part iii design thinking and philosophy duxu case studies design and user experience in emerging technologies

## **The Language of Color in China**

2019-01-17

this is the first book to explore color history in asia color is a natural phenomenon and a fundamental element of the universe and offers a medium to communicate with others globally it is a language of signals such as traffic lights signs or symbols and an essential part of society color attracts people s attention and transmits important information as such color language denotes all of the activities of human history and has been associated with changes in society economic development and dynasties replacing the old with the new the book brings together many elements of chinese history with reference to the topic of color and has evolved from the authors respective interests in art and design teaching and research consultancy and publishing the topic will be of increasing importance in the future as a consequence of china s increasing influence in the sphere of global culture for practitioners of art and design the book will be a valuable resource for the general public interested in the development of chinese aesthetics over the centuries it will provide a new perspective complimentary to existing studies about art design and the history of the region

## **Proceedings of the 9th International Conference on Computer Engineering and Networks**

2020-07-01

this book gathers papers presented at the 9th international conference on computer engineering and networks cenet2019 held in changsha china on october 18 20 2019 it examines innovations in the fields of computer engineering and networking and explores important state of the art developments in areas such as information security information hiding and cryptography cyber security and intelligent computing and applications the book also covers emerging topics in computer engineering and networking along with their applications discusses how to improve productivity by using the latest advanced technologies and examines innovation in the fields of computer engineering and networking particularly in intelligent computing and security

## **Cross-Cultural Design**

2017-06-28

this book constitutes the proceedings of the 9th international conference on cross cultural design ccd 2017 held as part of the 19th international conference on human computer interaction hcii 2017 held in vancouver canada in july 2017 hcii 2017 received a total of 4340 submissions of which 1228 papers were accepted for publication after a careful reviewing process the papers thoroughly cover the entire field of human computer interaction addressing major advances in knowledge and effective use of computers in a variety of application areas the 60 papers presented in the ccd 2017 proceedings are organized in topical sections cultural foundations of design cross cultural product and service design cross cultural communication design for social development cross cultural design for learning

## **Digital Forensics and Watermarking**

2022-01-20

this volume constitutes the proceedings of the 20th international workshop on digital forensics and watermarking iwdw 2021 held in beijing china in november 2021 the 18 full papers in this volume were carefully reviewed and selected from 32 submissions the are categorized in the following topical headings forensics and security analysis watermarking and steganology

## **HCI International 2022 - Late Breaking Papers: HCI for Health, Well-being, Universal Access and Healthy Aging**

2022-10-15

this proceedings lncs 13521 constitutes the refereed proceedings of the 24th international conference on human computer interaction hci 2022 which was held virtually as part of the 24th international conference hci 2022 in june 26 to july 1 2022 hci 2022 received a total of 5583 submissions from academia research institutes industry and governmental agencies from 88 countries submitted contributions and 1276 papers and 275 posters were included in the proceedings that were published just before the start of the conference additionally 296 papers and 181 posters are included in the volumes of the proceedings published after the conference as late breaking work papers and posters the contributions thoroughly cover the entire field of human computer interaction addressing major advances in knowledge and effective use of computers in a variety of application areas

## **Proceedings of the 2022 International Conference on Science Education and Art Appreciation (SEAA 2022)**

2022-12-28

this is an open access book 2022 international conference on science education and art appreciation seaa 2022 was held on june 24 26 2022 in chengdu china it aims to encourage exchange of information on research frontiers in different fields connect the most advanced academic resources in china and abroad turn research results into industrial solutions bring together talents technologies and capital to boost development the purpose of the conference is to provide an international platform for experts scholars engineers and technicians and technical r d personnel engaged in related fields such as science education and art appreciation to share scientific research results broaden research ideas collide with new ideas and strengthen academic research and to explore the key challenges and research directions faced by the development of this field and promote the industrialization

cooperation of academic achievements experts scholars business people and other relevant personnel from universities and research institutions at home and abroad are cordially invited to attend and exchange

## **International Conference on Applications and Techniques in Cyber Intelligence ATCI 2019**

2019-07-31

this book presents innovative ideas cutting edge findings and novel techniques methods and applications in a broad range of cybersecurity and cyberthreat intelligence areas as our society becomes smarter there is a corresponding need to be able to secure our cyberfuture the approaches and findings described in this book are of interest to businesses and governments seeking to secure our data and underpin infrastructures as well as to individual users

## **Economic and Business Management**

2022-03-22

with the rapid development and drastic change of the world economy digital finance internet finance science and technology finance have become new hotspots which also represent the future trend of economy development in the era of big data enterprises are facing more uncertainty opportunities coexist with challenges there are more possibilities for economic development and enterprise management to accelerate the integration of cutting edge research results to deepen hot topics discussion and to promote opinion exchanges among academic and business circles the sixth international conference on economic and business management febm2021 was successfully held online on october 16 17 2021 and aimed to provide a platform for researchers engineers academics as well as industry professionals from all over the world to present their latest research findings and development activities in economic and business management these proceedings include 51 accepted articles selected from 94 submissions

## ***CALL communities and culture - short papers from EUROCALL 2016***

2016-12-18

the 23rd eurocall conference was organised by the cyprus university of technology language centre the theme of the conference was call communities and culture between the 24th and 27th august 2016 over 135 presentations were delivered and 27 posters were presented 84 of these presentations appear in this volume of selected peer reviewed short papers

## **Human Aspects of IT for the Aged Population**

2023-07-08

this two volume set of itap 2023 constitutes the refereed proceedings of the 9th international conference on human aspects of it for the aged population itap 2023 held as part of the 24th international conference hci international 2023 which took place in july 2023 in copenhagen denmark the total of 1578 papers and 396 posters included in the hcii 2023 proceedings volumes was carefully reviewed and selected from 7472 submissions the papers of itap 2023 part i are organized in topical sections named designing and assessing the older users experience aging and social media voice assistants and chatbots games and exergames for older people

## **Silencing Chinese Media**

2020-06-22

chinese media in the reform era walk a fine line between commercialized diversification and party state control nowhere have these two trends been in more open conflict than at southern weekly nanfang zhouno a guangzhou based newspaper known for reliably pushing the envelope on media controls soon after a new group of political leaders rose to power in early 2013 these tensions boiled over with censors making draconian cuts to the paper s new year s edition fiery debates raged inside the paper about how to push back against ever tightening constraints on reporting while daring public protests outside the paper s headquarters demanded freedom of speech as the protests came to an end the party state s hold on media had only tightened silencing chinese media a gripping insider s account of these events highlights the tensions inherent within the program of reform and opening and foreshadows the challenges facing chinese media and civil society in this new era
