## ***agilent poroshell 120 ec C18 threaded column Mar 20 2024***

agilent poroshell 120 ec C18 is a superficially porous microparticulate column packing superficially porous silica particles such as poroshell have a solid silica core and a porous silica outer layer an ec C18 bonded phase is applied to the totally porous outer layer for this column

## **agilent infinitylab poroshell 120 columns family agilent Feb 19 2024**

master your polar molecules with new infinitylab poroshell 120 aq C18 columns they deliver enhanced polar compound retention and are compatible with 100 aqueous mobile phases without phase collapse or dewetting so you can confidently develop separations that retain polar and nonpolar compounds together
