Ebook free Inside the jihad my life with al qaeda omar nasiri (2023)

from europe's burgeoning terrorist underground to the training camps of afghanistan to the radical mosques of london this is a unique and chilling insider's story of the rise of al qaeda and the intelligence services that struggle to contain it between 1994 and 2000 omar nasiri worked as a secret agent for europe s top foreign intelligence services including france s dose direction gérale de la séritéxtéeure and britain s mi5 and mi6 from the netherworld of islamist cells in belgium to the training camps of afghanistan to the radical mosques of london he risked his life to defeat the emerging global network that the west would come to know as all gaeda now for the first time nasiri shares the story of his life a life balanced precariously between the world of islamic jihadists and the spies who pursue them as an arab and a muslim he was able to infiltrate the rigidly controlled afghan training camps where he encountered men who would later be known as the most wanted terrorists on earth going so far as to form a sleeper cell in europe with all gaeda's top recruiter in pakistan and london's radical cleric abu gatada a detailed portrait of a complex man who fought on both sides inside the jihad is a terrifying suspenseful look at an organization that continues to be a global threat between 1994 and 2000 omar nasiri not his given name and only one of many names he has used worked as a secret agent for europe's top foreign intelligence services for britain's secret intelligence service for france's dose and for germany's byf from the islamist cells of belgium to the madrasas of pakistan to afghanistan's terrorist training camps and to londonistan nasiri risked his life to counter the emerging global network that the west would come to know as all gaeda now nasiri shares his unique story of a life in the balance poised precariously between islamist jihadists and the spies who pursue them a gripping and provocative insider s account of both islamist terror networks and the intelligence services which spy on them maps por dentro do jihad é um relato envolvente e provocativo que oferece uma perspectiva intejramente original da batalha que se desenvolve contra a al gaeda pelo olhar de guem se infiltrou nessas redes terroristas pela primeira vez omar nasiri gue trabalhou entre 1994 e 2000 como agente secreto para os principais servicos de inteligência da europa compartilha a história de sua vida entre o mundo dos jihadistas islâmicos e o dos espiões que os perseguem como árabe e muculmano ele pôde se infiltrar nos rigidamente controlados campos de treinamento afegãos onde encontrou homens que mais tarde se tornariam os terroristas mais procurados do mundo enviado de volta à europa nasiri tornou se um intermediário de mensagens trocadas entre o recrutador chefe da al gaeda no paguistão e o clérigo radical de londres abu gatada between 1994 and 2000 omar nasiri worked as a secret agent for europe s top foreign intelligence services including france s dgse direction générale de la sécurité extérieure and britain s mi5 and mi6 from the netherworld of islamist cells in belgium to the training camps of afghanistan to the radical mosques of london he risked his life to defeat the emerging global network that the west would come to know as all gaeda now for the first time nasiri shares the story of his life a life balanced precariously between the world of islamic jihadists and the spies who pursue them as an arab and a muslim he was able to infiltrate the rigidly controlled afghan training camps where he encountered men who would later be known as the most wanted terrorists on earth ibn al sheikh al libi abu zubayda and abu khabab al masri sent back to europe with instructions to form a sleeper cell nasiri became a conduit for messages going back and forth between al gaeda's top recruiter in pakistan and london s radical cleric abu gatada by consulting the work of well known and obscure al gaeda theoreticians michael w s ryan finds jihadist terrorism strategy has more in common with the principles of maoist guerrilla warfare than mainstream islam encouraging strategists and researchers to devote greater attention to jihadi ideas rather than jihadist military operations ryan builds an effective framework for analyzing al gaeda's plans against america and constructs a compelling counternarrative to the west s supposed war on islam ryan examines the salafist roots of all gaeda ideology and the contributions of its most famous founders osama bin laden and ayman all zawahiri in a political military context he also reads the arabic language works of lesser known theoreticians who have played an instrumental role in framing all gaeda's so called war of the oppressed these authors readily cite the guerrilla strategies of mao che guevara and the mastermind of the vietnam war general giap they also incorporate the arguments of american theorists writing on fourth generation warfare through these texts readers experience events as insiders see them and by concentrating on the activities and pronouncements of all gaeda's thought leaders especially in vemen they discern the direct link between all gaeda's tactics and trends in anti u's terrorism ryan shows al qaeda s political military strategy to be a revolutionary and largely secular departure from the classic muslim conception of jihad adding invaluable dimensions to the operational psychological and informational strategies already deployed by america's military in the region fought between 1979 and 1989 the soviet afghan war provided vital combat experience for osama bin laden and his senior lieutenants in al gaeda allowing them to hone their newly acquired skills in guerrilla warfare to later support islamist insurgencies worldwide yet the ruthless al gaeda chief's success depended on the soviet leadership's reluctant prolonging of its military occupation out of fear of leaving afghanistan in hostile hands as relative latecomers to the ferocious afghan frontlines the inexperienced arab fighters benefitted militarily from the combat training unwittingly provided by their soviet foes after skillfully obtaining this command and battle experience by working within the wartime atmosphere bin laden channeled al gaeda's efforts in a global jihadi campaign targeting a second superpower and its allies while allegations of u's support for the arab jihadis have contributed to a popular image of bin laden and all gaeda as c i a creations the historical facts appear to demonstrate that the combat opportunities provided by the soviet occupation forces played a far larger role in transforming them into seasoned querrilla fighters in this second edition reagan fancher updates and expands his monograph

in an afterword elaborating on the contemporary u s u k perceptions of bin laden s wartime actions and their results as he applied his battle honed guerrilla tactics judo skills and recruitment capabilities in tactically helping vemen s anti communist salafi guerrillas to emerge victoriously in their country s 1994 civil war before concluding with an assessment of the founding all gaeda leader s impact on history it offers an opportunity for today s decision makers to learn from history and avoid creating new generations of osama bin ladens on 9 11 the u s had effectively no counterterrorism doctrine fast forward ten years osama bin laden is dead al gaeda is organizationally ruined and pinned in the tribal areas of pakistan and afghanistan there has been no major attack on american soil and while there has been at least one instance of a massive planned attack it was crushed by the greatest international collaboration of intelligence services seen since the end of the cold war it s been a remarkable transformation aki peritz and eric rosenbach have experienced first hand the monumental strategy changes in our country's counterterrorism strategy within the intelligence defense and political communities in this book they show how america learned to be very good at taking on the terrorists often one at a time in ever more lethally incisive operations they offer new details behind some headlines from the last decade they are frank about the mistakes that have been made and they explain how a concept coined by general grant during the civil war has been reinvented in the age of satellite technology to manage a globally distributed foe allowing the u s to find fix and finish its enemies cutting the fuse offers a wealth of new knowledge about the origins of suicide terrorism and strategies to stop it robert a pape and james k feldman have examined every suicide terrorist attack worldwide from 1980 to 2009 and the insights they have gleaned from that data fundamentally challenge how we understand the root causes of terrorist campaigns today and reveal why the war on terror has been ultimately counterproductive through a close analysis of suicide campaigns by all gaeda and other terrorist organizations in irag afghanistan pakistan lebanon israel chechnya and sri lanka the authors provide powerful new evidence that contrary to popular and dangerously mistaken belief only a tiny minority of these attacks are motivated solely by religion instead the root cause is foreign military occupation which triggers secular and religious people alike to carry out suicide attacks cutting the fuse calls for new effective solutions that america and its allies can sustain for decades relying less on ground troops in muslim countries and more on offshore over the horizon military forces along with political and economic strategies that empower local communities to stop terrorists in their midst in britain alone several thousand young muslims are thought to be part of violent extremist networks how did they become involved what are the mechanisms and dynamics through which european muslims join all gaeda and groups inspired by all gaeda this paper explains the processes whereby european muslims are recruited into the islamist militant movement it reveals that although overt recruitment has been driven underground prisons and other places of vulnerability are increasingly important alternatives it explores the recruitment roles of radical imams gateway organisations and activists and highlights the kinds of message that facilitate the recruitment process it also shows how the internet has come to play an increasingly significant role neumann argues that there is little evidence of systematic top down ijhadist recruitment in europe rather the activist leaders of cells increasingly drive the process the paper explores possible options for european governments wishing to disrupt violent extremist networks recognising that it will also be necessary to address some of the underlying risk factors that fuel jihadist recruitment ultimately the major challenge for european states lies in constructing more inclusive societies in which the narratives of exclusion and grievance will not resonate to the benefit of recruiters to the extremist cause war 2 0 irregular warfare in the information age argues that two intimately connected grassroots trends the rise of insurgencies and the rise of the web are putting modern armies under huge pressure to adapt new forms of counterinsurgency to new forms of social war after the u s military transformed into a lean lethal computerized force faltered in irag after 2003 a robust insurgency arose counterinsurgency became a social form of war indeed the u s army calls it armed social work in which the local population was the center of gravity and public opinion at home the critical vulnerability war 2 0 traces the contrasting ways in which insurgents and counterinsurgents have adapted irregular conflict to novel media platforms it examines the public affairs policies of the u.s. land forces the british army and the israel defense forces then it compares the media related counterinsurgency methods of these conventional armies with the methods devised by their irregular adversaries showing how such organizations as all gaeda the taliban and hezbollah use the web not merely to advertise their political agenda and influence public opinion but to mobilize a following and put violent ideas into action 9 11 almost instantaneously remade american politics and foreign policy the wars in iraq and afghanistan the patriot act water boarding and quantanamo are examples of its profound and far reaching effects but despite its monumental impact and a deluge of books about al gaeda and islamist terrorism no one has written a serious assessment of the man who planned it osama bin laden available biographies depict bin laden as an historical figure the mastermind behind 9 11 but no longer relevant to the world it created these accounts michael scheuer strongly believes have contributed to a widespread and dangerous denial of his continuing significance and power in this book scheuer provides a much needed corrective a hard headed closely reasoned portrait of bin laden showing him to be a figure of remarkable leadership skills strategic genius and considerable rhetorical abilities the first head of the cia's bin laden unit where he led the effort to track down bin laden scheuer draws from a wealth of information about bin laden and his evolution from peaceful saudi dissident to america s most wanted shedding light on his development as a theologian media manipulator and paramilitary commander scheuer makes use of all the speeches and interviews bin laden has given as well as lengthy interviews testimony and previously untranslated documents written by those who grew up with bin laden in saudi arabia served as his bodyguards and drivers and fought alongside him against the soviets the bin laden who emerges from these accounts is devout talented patient and ruthless in other words a truly formidable and implacable enemy of the west acclaim for imperial hubris why the west is losing the

war on terrorism pulls few punches a fascinating window on america s war with all gaeda michiko kakutani new york times no serious observer of the war on terrorism can ignore this scathing critique peter bergen author of holy war inc a powerful persuasive analysis of the terrorist threat and the bush administration s failed efforts to fight it richard a clarke washington post book world a fire breathing denunciation of u s counterterrorism policy julian borger the quardian presents overwhelmingly persuasive evidence to buttress a host of significant and controversial arguments benjamin schwarz atlantic monthly destined to become a classic in the field of counterterrorism analysis bruce hoffman author of inside terrorism ten years have passed since the shocking attacks on the world trade center and after seven years of conflict the last u s combat troops left iraq only to move into afghanistan where the ten year old fight continues the war on terror rages with no clear end in sight in the longest war peter bergen offers a comprehensive history of this war and its evolution from the strategies devised in the wake of the 9 11 attacks to the fighting in afghanistan pakistan and beyond unlike any other book on this subject here bergen tells the story of this shifting war's failures and successes from the perspectives of both the united states and all gaeda and its allies he goes into the homes of all gaeda members rooting into the source of their devotion to terrorist causes and spends time in the offices of the major players shaping the u s strategic efforts in the region at a time when many are frustrated or fatigued with what has become an enduring multigenerational conflict this book will provide an illuminating narrative that not only traces the arc of the fight but projects its likely future weaving together internal documents from all gaeda and the us offices of counterterrorism first person interviews with top level jihadists and senior washington officials along with his own experiences on the ground in the middle east bergen balances the accounts of each side revealing how all gaeda has evolved since 9 11 and the specific ways the u s government has responded in the ongoing fight bergen also uncovers the strategic errors committed on both sides the way that all gaeda's bold attack on the united states on 9 11 actually undermined its objective and caused the collapse of the taliban and the destruction of the organization s safe haven in afghanistan and how all gaeda is actually losing the war of ideas in the muslim world the book also shows how the united states undermined its moral position in this war with its actions at quantánamo and coercive interrogations including the extraordinary rendition of abu omar who was kidnapped by the cia in milan in 2003 and was tortured for four years in egyptian prisons his case represents the first and only time that cia officials have been charged and convicted of the crime of kidnapping in examining other strategic blunders the united states has committed bergen offers a scathing critique of the clinton and bush administrations inability to accurately assess and counter the al gaeda threat bush s deeply misguided reasons for invading iraq including the story of how the invasion was launched based in part on the views of an obscure academic who put forth theories about iraq s involvement with al gaeda and the obama administration s efforts in afghanistan at a critical moment in world history the longest war provides the definitive account of the ongoing battle against terror there is a widespread belief that the taliban and all gaeda are in many respects synonymous that their ideology and objectives are closely intertwined and that they have made common cause against the west for decades such opinions have been stridently supported by politicians media pundits and senior military figures yet they have hardly ever been scrutinised this is all the more surprising given that the west's present entanglement in afghanistan is commonly predicated on the need to defeat the taliban in order to forestall further terrorist attacks worldwide the relationship between the two groups and the individuals who established them is undeniably complex and has remained so for many years links between the taliban and all gaeda were retained in the face of a shared enemy following the invasion of afghanistan after the september 11 attacks an adversary that was selected by all gaeda rather than by the taliban and which led the latter to become entangled in a war that was not of its choosing this book is the first to examine in detail the relationship from the taliban's perspective based on arabic dari and pashtu sources drawing on the authors many years experience in southern afghanistan the taliban's heartland they also interviewed taliban decision makers field commanders and ordinary fighters while immersing themselves in kandahar's society van linschoten and kuehn's forensic examination of the evolution of the two groups allows the background and historical context that informed their respective ideologies to come to the fore the story of those individuals who were to become their key decision makers and the relationships among all those involved from the mid 1990s onwards reveal how complex the interactions were between the taliban and all gaeda and how they frequently diverged rather than converged an enemy we created concludes that there is room to engage the taliban on the issues of renouncing algaeda and guaranteeing that afghanistan will deny sanctuary to international terrorists yet the insurgency is changing and it could soon be too late to find a political solution the authors contend that certain aspects of the campaign especially night raids and attempts to fragment and decapitate the taliban are transforming the resistance creating more opportunities for all gaeda and helping it to attain its goals the basic and applied toxicology of cyanides and cyanogens has widespread commercial occupational environmental clinical forensic military and public health implications this book provides a detailed and updated reference describing the properties uses general and human toxicology clinical recognition diagnosis and medical management and countermeasures is therefore required in academic medical occupational environmental medico legal regulatory emergency response and military arenas edited by a world renowned team of experts from academia defense and industry this book will be an invaluable reference for professionals researchers and students in cyanide and cyanogens bruce hoffman's inside terrorism has remained the seminal work for understanding the historical evolution of terrorism and the terrorist mind set in this revised third edition of his classic text hoffman analyzes the latest developments in global terrorism offering insight into new adversaries motivations strategies and tactics he focuses on the rise of isis and the resilience of al gaeda terrorist exploitation of the internet and embrace of social media radicalization of foreign fighters and potential future trends including the repercussions of a post caliphate is is hoffman examines the demographics of contemporary

terrorist leaders and recruits the continued use of suicide bombers and the likelihood of a chemical biological radiological or nuclear terrorist strike he also considers the resurgence of violent antigovernment militants including white supremacists and opponents of abortion he argues that the war on terrorism did not end with osama bin laden's death and that ongoing instability and strife in syria iraq afghanistan libya and vemen among other places will both sustain terrorist movements and have broad implications for domestic and international security around the globe this timely book synthesizes the perspectives of osama bin laden and his fellow salafi jihadists on how to wage war on their many enemies a team of experts from the institute for defense analyses working on the terrorist perspectives project undertook the study in order to help us military and civilian policymakers planners and educators better understand terrorists in assembling strategic and operational perspectives of all gaida and associated movements agam they focused on the salafi jihadists intellectual leadership and a sampling of their followers who together comprise the vanguard of the global jihad and share a common enemy the united states this project is sponsored by the united states joint forces command examines not only the role of the state but INCIDENTIAL An exploration of the ways in which ancient theories of empire can inform our understanding of present day international relations enduring empire engages in a serious discussion of empire as it relates to american foreign policy and global politics the imperial power dynamics of ancient athens and rome provided fertile ground for the deliberations of many classical thinkers who wrote on the nature of empire contemplating political sovereignty autonomy and citizenship as well as war peace and civilization in a world where political boundaries were strained and contested the contributors to this collection prompt similar questions with their essays and promote a serious contemporary consideration of empire in light of the predominance of the united states and of the doctrine of liberal democracy featuring essays from some of the leading thinkers in the fields of political science philosophy history and classics enduring empire illustrates how lessons gleaned from the athenian and roman empires can help us to understand the imperial trajectory of global politics today a spanish journalist offers a minute by minute account of the 2007 murders at virginia tech examines the killer's state of mind as revealed in his writings and photographs and discusses gun control violence and american society throughout the twentieth century especially during wartime and the cold war intelligence agents routinely used the media to publish and broadcast material that would deceive external enemies thwart domestic subversion or simply to change the way readers thought about fascism or communism today stories are changled to journalists in order to promote a news agenda deemed favourable to mi5 mi6 or to the cia or to spin the coverage of key issues investigative reporters often have a more adversarial relationship with the security services seeing them as over mighty agents of the state who should be subjected to forensic scrutiny of what they get up too allegedly for the public good the furore over rendition of terrorist suspects by the cia and the complicity of british agencies in this process is but one example of journalists uncovering practices that the intelligence community would rather have kept secret the contributors to this book drawn from former intelligence officers the media and academia explore this intriguing and often fraught contest shedding light on many hitherto unknown aspects of the intriguing and symbiotic relationship between the second oldest profession and the print and broadcast media speaking from the perspective of the journalist are chapman pincher and gordon corera security editor bbc whose essays trace the evolving relationship between news media outlets and the government especially with regards to advances in technology reporting from the perspective of the political institution are sir david omand nick wilkinson michael goodman and anthony campbell who explain governmental oversight of intelligence agencies the operation of clandestine information units and the laws that govern the control of information richard aldrich investigates the exploitation of the globalized media by intelligence agencies scott lucas and steve hewitt tackle the cia's use of open sources for intelligence purposes and wyn bowen examines the real world use of open source intelligence in rolling back libva's nuclear program robert dover and pierre lethier explore the depiction of intelligence in popular culture a practice that helped create rendition and facilitate torture and condition our responses to both in the final essay patrick porter focuses on cultural representations of the war on terror in europe s ghost michael radu reveals that europe s identity crisis does not lie in past or present racism or in a variety of largely invented or anachronistic crimes but in the self inflicted renunciation of national traditions in favor of multiculturalism in fact most european elites see jihadism as nothing but a peculiar form of criminality due to the social and economic problems inside europe rather than what it is a peculiar form of warfare rooted in cultural developments imported from the muslim world the truth radu offers is that most muslims in most european countries see themselves as visitors rather than as citizens of europe thus the british media s outcry over the phenomenon of british born muslim terrorists murdering fellow britons is dangerously misplaced transnational terrorism organized and inspired by all gaeda is a scourge of the early 21st century it is essential that the international community should work together to eliminate it the framework with which the u s government under president george w bush chose to confront it in the aftermath of the atrocities in new york and washington d c on september 11 2001 was the global war on terror or gwot this was an unfortunate choice as it directed the united states and other leading democratic countries to try to wage war against terrorism a method not an opponent this put the united states and its allies on a mission that could not be accomplished because method cannot be defeated in a war in the sense that an identifiable enemy can 1588 \\ \partial \pa ANDRONDERDADO DE ANTIDADO DE ARTOLO DE COMO DE from the back cover greenhaven press s at issue series provides a wide range of opinions on individual Inside the Jihad 2007-03-09 from europe s burgeoning terrorist underground to the training camps of afghanistan to the radical mosques of london this is a unique and chilling insider s story of the rise of al qaeda and the intelligence services that struggle to contain it between 1994 and 2000 omar nasiri worked as a secret agent for europe s top foreign intelligence services including france s dgse direction gérale de la séritéxtéeure and britain s mi5 and mi6 from the netherworld of islamist cells in belgium to the training camps of afghanistan to the radical mosques of london he risked his life to defeat the emerging global network that the west would come to know as al qaeda now for the first time nasiri shares the story of his life a life balanced precariously between the world of islamic jihadists and the spies who pursue them as an arab and a muslim he was able to infiltrate the rigidly controlled afghan training camps where he encountered men who would later be known as the most wanted terrorists on earth going so far as to form a sleeper cell in europe with al qaeda s top recruiter in pakistan and london s radical cleric abu qatada a detailed portrait of a complex man who fought on both sides inside the jihad is a terrifying suspenseful look at an organization that continues to be a global threat

Inside the Global Jihad 2008-12 between 1994 and 2000 omar nasiri not his given name and only one of many names he has used worked as a secret agent for europe s top foreign intelligence services for britain s secret intelligence service for france s dgse and for germany s byf from the islamist cells of belgium to the madrasas of pakistan to afghanistan s terrorist training camps and to londonistan nasiri risked his life to counter the emerging global network that the west would come to know as al qaeda now nasiri shares his unique story of a life in the balance poised precariously between islamist jihadists and the spies who pursue them a gripping and provocative insider s account of both islamist terror net

Inside the Global Jihad 2006 por dentro do jihad é um relato envolvente e provocativo que oferece uma perspectiva inteiramente original da batalha que se desenvolve contra a al qaeda pelo olhar de quem se infiltrou nessas redes terroristas pela primeira vez omar nasiri que trabalhou entre 1994 e 2000 como agente secreto para os principais serviços de inteligência da europa compartilha a história de sua vida entre o mundo dos jihadistas islâmicos e o dos espiões que os perseguem como árabe e muçulmano ele pôde se infiltrar nos rigidamente controlados campos de treinamento afegãos onde encontrou homens que mais tarde se tornariam os terroristas mais procurados do mundo enviado de volta à europa nasiri tornou se um intermediário de mensagens trocadas entre o recrutador chefe da al qaeda no paquistão e o clérigo radical de londres abu qatada

POR DENTRO DO JIHAD 2007-11-08 between 1994 and 2000 omar nasiri worked as a secret agent for europe s top foreign intelligence services including france s dgse direction générale de la sécurité extérieure and britain s mi5 and mi6 from the netherworld of islamist cells in belgium to the training camps of afghanistan to the radical mosques of london he risked his life to defeat the emerging global network that the west would come to know as al qaeda now for the first time nasiri shares the story of his life a life balanced precariously between the world of islamic jihadists and the spies who pursue them as an arab and a muslim he was able to infiltrate the rigidly controlled afghan training camps where he encountered men who would later be known as the most wanted terrorists on earth ibn al sheikh al libi abu zubayda and abu khabab al masri sent back to europe with instructions to form a sleeper cell nasiri became a conduit for messages going back and forth between al qaeda s top recruiter in pakistan and london s radical cleric abu gatada

Inside The Jihad 2006 by consulting the work of well known and obscure al qaeda theoreticians michael w s ryan finds jihadist terrorism strategy has more in common with the principles of maoist guerrilla warfare than mainstream islam encouraging strategists and researchers to devote greater attention to jihadi ideas rather than jihadist military operations ryan builds an effective framework for analyzing al qaeda s plans against america and constructs a compelling counternarrative to the west s supposed war on islam ryan examines the salafist roots of al qaeda ideology and the contributions of its most famous founders osama bin laden and ayman al zawahiri in a political military context he also reads the arabic language works of lesser known theoreticians who have played an instrumental role in framing al qaeda s ocalled war of the oppressed these authors readily cite the guerrilla strategies of mao che guevara and the mastermind of the vietnam war general giap they also incorporate the arguments of american theorists writing on fourth generation warfare through these texts readers experience events as insiders see them and by concentrating on the activities and pronouncements of al qaeda s thought leaders especially in yemen they discern the direct link between al qaeda s tactics and trends in anti u s terrorism ryan shows al qaeda s political military strategy to be a revolutionary and largely secular departure from the classic muslim conception of jihad adding invaluable dimensions to the operational psychological and informational strategies already deployed by america s military in the region

Inside the Jihad 2007-03-09 fought between 1979 and 1989 the soviet afghan war provided vital combat experience for osama bin laden and his senior lieutenants in al qaeda allowing them to hone their newly acquired skills in guerrilla warfare to later support islamist insurgencies worldwide yet the ruthless al qaeda chief's success depended on the soviet leadership's reluctant prolonging of its military occupation out of fear of leaving afghanistan in hostile hands as relative latecomers to the ferocious afghan frontlines the inexperienced arab fighters benefitted militarily from the combat training unwittingly provided by their soviet foes after skillfully obtaining this command and battle experience by working within the wartime atmosphere bin laden channeled al qaeda s efforts in a global jihadi campaign targeting a second superpower and its allies while allegations of us support for the arab jihadis have contributed to a popular image of bin laden and al qaeda as c i a creations the historical facts appear to demonstrate that the combat opportunities provided by the soviet occupation forces played a far larger role in transforming them into seasoned guerrilla

fighters in this second edition reagan fancher updates and expands his monograph in an afterword elaborating on the contemporary u s u k perceptions of bin laden s wartime actions and their results as he applied his battle honed guerrilla tactics judo skills and recruitment capabilities in tactically helping yemen s anti communist salafi guerrillas to emerge victoriously in their country s 1994 civil war before concluding with an assessment of the founding al qaeda leader s impact on history it offers an opportunity for today s decision makers to learn from history and avoid creating new generations of osama bin ladens

Decoding Al-Qaeda's Strategy 2013-08-13 on 9 11 the u s had effectively no counterterrorism doctrine fast forward ten years osama bin laden is dead al qaeda is organizationally ruined and pinned in the tribal areas of pakistan and afghanistan there has been no major attack on american soil and while there has been at least one instance of a massive planned attack it was crushed by the greatest international collaboration of intelligence services seen since the end of the cold war it s been a remarkable transformation aki peritz and eric rosenbach have experienced first hand the monumental strategy changes in our country s counterterrorism strategy within the intelligence defense and political communities in this book they show how america learned to be very good at taking on the terrorists often one at a time in ever more lethally incisive operations they offer new details behind some headlines from the last decade they are frank about the mistakes that have been made and they explain how a concept coined by general grant during the civil war has been reinvented in the age of satellite technology to manage a globally distributed foe allowing the u s to find fix and finish its enemies

The Holy Warrior: Osama Bin Laden and His Jihadi Journey in the Soviet-Afghan War 2023-10-10 cutting the fuse offers a wealth of new knowledge about the origins of suicide terrorism and strategies to stop it robert a pape and james k feldman have examined every suicide terrorist attack worldwide from 1980 to 2009 and the insights they have gleaned from that data fundamentally challenge how we understand the root causes of terrorist campaigns today and reveal why the war on terror has been ultimately counterproductive through a close analysis of suicide campaigns by al qaeda and other terrorist organizations in iraq afghanistan pakistan lebanon israel chechnya and sri lanka the authors provide powerful new evidence that contrary to popular and dangerously mistaken belief only a tiny minority of these attacks are motivated solely by religion instead the root cause is foreign military occupation which triggers secular and religious people alike to carry out suicide attacks cutting the fuse calls for new effective solutions that america and its allies can sustain for decades relying less on ground troops in muslim countries and more on offshore over the horizon military forces along with political and economic strategies that empower local communities to stop terrorists in their midst

Find, Fix, Finish 2012-03-13 in britain alone several thousand young muslims are thought to be part of violent extremist networks how did they become involved what are the mechanisms and dynamics through which european muslims join al qaeda and groups inspired by al qaeda this paper explains the processes whereby european muslims are recruited into the islamist militant movement it reveals that although overt recruitment has been driven underground prisons and other places of vulnerability are increasingly important alternatives it explores the recruitment roles of radical imams gateway organisations and activists and highlights the kinds of message that facilitate the recruitment process it also shows how the internet has come to play an increasingly significant role neumann argues that there is little evidence of systematic top down jihadist recruitment in europe rather the activist leaders of cells increasingly drive the process the paper explores possible options for european governments wishing to disrupt violent extremist networks recognising that it will also be necessary to address some of the underlying risk factors that fuel jihadist recruitment ultimately the major challenge for european states lies in constructing more inclusive societies in which the narratives of exclusion and grievance will not resonate to the benefit of recruiters to the extremist cause

A False Narrative Endangers the Homeland 2014 war 2 0 irregular warfare in the information age argues that two intimately connected grassroots trends the rise of insurgencies and the rise of the web are putting modern armies under huge pressure to adapt new forms of counterinsurgency to new forms of social war after the u s military transformed into a lean lethal computerized force faltered in iraq after 2003 a robust insurgency arose counterinsurgency became a social form of war indeed the u s army calls it armed social work in which the local population was the center of gravity and public opinion at home the critical vulnerability war 2 0 traces the contrasting ways in which insurgents and counterinsurgents have adapted irregular conflict to novel media platforms it examines the public affairs policies of the u s land forces the british army and the israel defense forces then it compares the media related counterinsurgency methods of these conventional armies with the methods devised by their irregular adversaries showing how such organizations as all qaeda the taliban and hezbollah use the web not merely to advertise their political agenda and influence public opinion but to mobilize a following and put violent ideas into action

Cutting the Fuse 2010-10-07 9 11 almost instantaneously remade american politics and foreign policy the wars in iraq and afghanistan the patriot act water boarding and guantanamo are examples of its profound and far reaching effects but despite its monumental impact and a deluge of books about al qaeda and islamist terrorism no one has written a serious assessment of the man who planned it osama bin laden available biographies depict bin laden as an historical figure the mastermind behind 9 11 but no longer relevant to the world it created these accounts michael scheuer strongly believes have contributed to a widespread and dangerous denial of his continuing significance and power in this book scheuer provides a much needed corrective a hard headed closely reasoned portrait of bin laden showing him to be a figure of remarkable leadership skills strategic genius and considerable rhetorical abilities the first head of the cia s bin laden unit where he led the effort to track down bin laden

scheuer draws from a wealth of information about bin laden and his evolution from peaceful saudi dissident to america s most wanted shedding light on his development as a theologian media manipulator and paramilitary commander scheuer makes use of all the speeches and interviews bin laden has given as well as lengthy interviews testimony and previously untranslated documents written by those who grew up with bin laden in saudi arabia served as his bodyguards and drivers and fought alongside him against the soviets the bin laden who emerges from these accounts is devout talented patient and ruthless in other words a truly formidable and implacable enemy of the west acclaim for imperial hubris why the west is losing the war on terrorism pulls few punches a fascinating window on america s war with al qaeda michiko kakutani new york times no serious observer of the war on terrorism can ignore this scathing critique peter bergen author of holy war inc a powerful persuasive analysis of the terrorist threat and the bush administration s failed efforts to fight it richard a clarke washington post book world a fire breathing denunciation of u s counterterrorism policy julian borger the guardian presents overwhelmingly persuasive evidence to buttress a host of significant and controversial arguments benjamin schwarz atlantic monthly destined to become a classic in the field of counterterrorism analysis bruce hoffman author of inside terrorism

Ioining al-Oaeda 2012-12-06 ten years have passed since the shocking attacks on the world trade center and after seven years of conflict the last u s combat troops left iraq only to move into afghanistan where the ten year old fight continues the war on terror rages with no clear end in sight in the longest war peter bergen offers a comprehensive history of this war and its evolution from the strategies devised in the wake of the 9.11 attacks to the fighting in afghanistan pakistan and beyond unlike any other book on this subject here bergen tells the story of this shifting war s failures and successes from the perspectives of both the united states and al gaeda and its allies he goes into the homes of all gaeda members rooting into the source of their devotion to terrorist causes and spends time in the offices of the major players shaping the u s strategic efforts in the region at a time when many are frustrated or fatigued with what has become an enduring multigenerational conflict this book will provide an illuminating narrative that not only traces the arc of the fight but projects its likely future weaving together internal documents from all gaeda and the u s offices of counterterrorism first person interviews with top level jihadists and senior washington officials along with his own experiences on the ground in the middle east bergen balances the accounts of each side revealing how all gaeda has evolved since 9 11 and the specific ways the u s government has responded in the ongoing fight bergen also uncovers the strategic errors committed on both sides the way that all gaeda's bold attack on the united states on 9 11 actually undermined its objective and caused the collapse of the taliban and the destruction of the organization s safe haven in afghanistan and how all gaeda is actually losing the war of ideas in the muslim world the book also shows how the united states undermined its moral position in this war with its actions at quantánamo and coercive interrogations including the extraordinary rendition of abu omar who was kidnapped by the cia in milan in 2003 and was tortured for four years in egyptian prisons his case represents the first and only time that cia officials have been charged and convicted of the crime of kidnapping in examining other strategic blunders the united states has committed bergen offers a scathing critique of the clinton and bush administrations inability to accurately assess and counter the algaeda threat bush s deeply misguided reasons for invading irag including the story of how the invasion was launched based in part on the views of an obscure academic who put forth theories about irag s involvement with al gaeda and the obama administration s efforts in afghanistan at a critical moment in world history the longest war provides the definitive account of the ongoing battle against terror War 2.0 2009-05-14 there is a widespread belief that the taliban and all gaeda are in many respects synonymous that their ideology and objectives are closely intertwined and that they have made common cause against the west for decades such opinions have been stridently supported by politicians media pundits and senior military figures yet they have hardly ever been scrutinised this is all the more surprising given that the west s present entanglement in afghanistan is commonly predicated on the need to defeat the taliban in order to forestall further terrorist attacks worldwide the relationship between the two groups and the individuals who established them is undeniably complex and has remained so for many years links between the taliban and all gaeda were retained in the face of a shared enemy following the invasion of afghanistan after the september 11 attacks an adversary that was selected by all gaeda rather than by the taliban and which led the latter to become entangled in a war that was not of its choosing this book is the first to examine in detail the relationship from the taliban's perspective based on arabic dari and pashtu sources drawing on the authors many years experience in southern afghanistan the taliban's heartland they also interviewed taliban decision makers field commanders and ordinary fighters while immersing themselves in kandahar's society van linschoten and kuehn's forensic examination of the evolution of the two groups allows the background and historical context that informed their respective ideologies to come to the fore the story of those individuals who were to become their key decision makers and the relationships among all those involved from the mid 1990s onwards reveal how complex the interactions were between the taliban and algaeda and how they frequently diverged rather than converged an enemy we created concludes that there is room to engage the taliban on the issues of renouncing all gaeda and guaranteeing that afghanistan will deny sanctuary to international terrorists yet the insurgency is changing and it could soon be too late to find a political solution the authors contend that certain aspects of the campaign especially night raids and attempts to fragment and decapitate the taliban are transforming the resistance creating more opportunities for all gaeda and helping it to attain its goals

Osama Bin Laden 2011-02-01 the basic and applied toxicology of cyanides and cyanogens has widespread commercial occupational environmental clinical forensic military and public health implications this book provides a detailed and updated reference describing the properties uses general and human toxicology clinical recognition

diagnosis and medical management and countermeasures is therefore required in academic medical occupational environmental medico legal regulatory emergency response and military arenas edited by a world renowned team of experts from academia defense and industry this book will be an invaluable reference for professionals researchers and students in cyanide and cyanogens

The Longest War 2011-01-11 bruce hoffman s inside terrorism has remained the seminal work for understanding the historical evolution of terrorism and the terrorist mind set in this revised third edition of his classic text hoffman analyzes the latest developments in global terrorism offering insight into new adversaries motivations strategies and tactics he focuses on the rise of isis and the resilience of al qaeda terrorist exploitation of the internet and embrace of social media radicalization of foreign fighters and potential future trends including the repercussions of a post caliphate isis hoffman examines the demographics of contemporary terrorist leaders and recruits the continued use of suicide bombers and the likelihood of a chemical biological radiological or nuclear terrorist strike he also considers the resurgence of violent antigovernment militants including white supremacists and opponents of abortion he argues that the war on terrorism did not end with osama bin laden s death and that ongoing instability and strife in syria iraq afghanistan libya and yemen among other places will both sustain terrorist movements and have broad implications for domestic and international security around the globe

An Enemy We Created 2012 this timely book synthesizes the perspectives of osama bin laden and his fellow salafi jihadists on how to wage war on their many enemies a team of experts from the institute for defense analyses working on the terrorist perspectives project undertook the study in order to help u s military and civilian policymakers planners and educators better understand terrorists in assembling strategic and operational perspectives of al qaida and associated movements agam they focused on the salafi jihadists intellectual leadership and a sampling of their followers who together comprise the vanguard of the global jihad and share a common enemy the united states this project is sponsored by the united states joint forces command

Foreign Affairs 2007 an exploration of the ways in which ancient theories of empire can inform our understanding of present day international relations enduring empire engages in a serious discussion of empire as it relates to american foreign policy and global politics the imperial power dynamics of ancient athens and rome provided fertile ground for the deliberations of many classical thinkers who wrote on the nature of empire contemplating political sovereignty autonomy and citizenship as well as war peace and civilization in a world where political boundaries were strained and contested the contributors to this collection prompt similar questions with their essays and promote a serious contemporary consideration of empire in light of the predominance of the united states and of the doctrine of liberal democracy featuring essays from some of the leading thinkers in the fields of political science philosophy history and classics enduring empire illustrates how lessons gleaned from the athenian and roman empires can help us to understand the imperial trajectory of global politics today

New Zealand International Review 2007 a spanish journalist offers a minute by minute account of the 2007 murders at virginia tech examines the killer s state of mind as revealed in his writings and photographs and discusses gun control violence and american society

The Tribune 2008 throughout the twentieth century especially during wartime and the cold war intelligence agents routinely used the media to publish and broadcast material that would deceive external enemies thwart domestic subversion or simply to change the way readers thought about fascism or communism today stories are chanelled to journalists in order to promote a news agenda deemed favourable to mi5 mi6 or to the cia or to spin the coverage of key issues investigative reporters often have a more adversarial relationship with the security services seeing them as over mighty agents of the state who should be subjected to forensic scrutiny of what they get up too allegedly for the public good the furore over rendition of terrorist suspects by the cia and the complicity of british agencies in this process is but one example of journalists uncovering practices that the intelligence community would rather have kept secret the contributors to this book drawn from former intelligence officers the media and academia explore this intriguing and often fraught contest shedding light on many hitherto unknown aspects of the intriguing and symbiotic relationship between the second oldest profession and the print and broadcast media speaking from the perspective of the journalist are chapman pincher and gordon corera security editor bbc whose essays trace the evolving relationship between news media outlets and the government especially with regards to advances in technology reporting from the perspective of the political institution are sir david omand nick wilkinson michael goodman and anthony campbell who explain governmental oversight of intelligence agencies the operation of clandestine information units and the laws that govern the control of information richard aldrich investigates the exploitation of the globalized media by intelligence agencies scott lucas and steve hewitt tackle the cia's use of open sources for intelligence purposes and wyn bowen examines the real world use of open source intelligence in rolling back libya's nuclear program robert dover and pierre lethier explore the depiction of intelligence in popular culture a practice that helped create rendition and facilitate torture and condition our responses to both in the final essay patrick porter focuses on cultural representations of the war on terror The Atlantic Monthly 2008 in europe s ghost michael radu reveals that europe s identity crisis does not lie in past or present racism or in a variety of largely invented or anachronistic crimes but in the self inflicted renunciation of national traditions in favor of multiculturalism in fact most european elites see jihadism as nothing but a

peculiar form of criminality due to the social and economic problems inside europe rather than what it is a peculiar form of warfare rooted in cultural developments imported from the muslim world the truth radu offers is that most muslims in most european countries see themselves as visitors rather than as citizens of europe thus the british media s outcry over the phenomenon of british born muslim terrorists murdering fellow britons is dangerously misplaced

The Terrorist Perspectives Project 2008 transnational terrorism organized and inspired by all gaeda is a scourge of the early 21st century it is essential that the international community should work together to eliminate it the framework with which the u s government under president george w bush chose to confront it in the aftermath of the atrocities in new york and washington d c on september 11 2001 was the global war on terror or gwot this was an unfortunate choice as it directed the united states and other leading democratic countries to try to wage war against terrorism a method not an opponent this put the united states and its allies on a mission that could not be accomplished because method cannot be defeated in a war in the sense that an identifiable enemy can

Ten Years Later 2012 from the back cover greenhaven press s at issue series provides a wide range of opinions on individual social issues each volume focuses on a specific issue and offers a variety of perspectives eyewitness accounts governmental views scientific analysis newspaper and magazine accounts and many more to illuminate the issue extensive bibliographies and annotated lists of relevant organizations point to sources for further research enhancing critical thinking skills each at issue volume is an excellent research tool to help readers understand current social issues and prepare reports
