religious traditions emphasizes their openness and reintegrates essential elements of both perspectives advancing with curiosity and caution all the contributors take seriously the diversity of historical religious traditions while nevertheless searching for a fresh language that may connect these traditions and provide a common ground of understanding is time a creation of god how can god be considered eternal if he is responsible for the existence of time is god temporal or is he timeless the relationship between god and time has been an object of inquiry in philosophical and theological traditions around the world for centuries this volume takes up these and other questions presenting a range of answers not only as brought forth in european philosophical traditions and in early christianity judaism and islam but also positions taken by mediaeval indian theologians and in the influential traditions of early buddhism traditionally discussions have focused on questions such as whether time is a necessary concomitant of god s existence or whether time should be identified with god but there is a further question did these traditions develop their own unrelated and independent view of god and time or are there similarities in their reflections this volume with contributions of scholars from various relevant fields offers a novel approach to these inquiries when taken as a whole it provides new momentum to contemplation on an age old enigma is there a new need and place for god talk in europe the present volume both confirms this and opens up new questions for discussion it shows how different traditions

of naming and thinking god in europe draw on various theoretical and philosophical foundations that are in competition with one another in many ways due to socio cultural historical and political divides between eastern and western europe these theological traditions often suffer from isolation and mutual misunderstanding can the inherent tensions and conflicts be understood more adequately while exploring a variety of approaches in europe on the topic several authors also ask how can god be named and thought in europe which finds itself in the midst of complex crosscultural and interreligious processes particularly as immigration increases and peoples of non christian faith traditions name and think god in ways that differ from and sometimes conflict with europe s dominant religion s and secular culture what function and impact will traditional god talk have in a globalizing europe as religions such as islam hinduism and buddhism move into the foreground this volume not only reveals the broad spectrum of its topic but also documents the vivid seeking undertaken by a new generation of european theologians and scholars of religion who openly engage the question of how to live and believe in europe today facing complex global challenges this handbook brings together a distinguished team of scholars from philosophy theology and religious studies to provide the first in depth discussion of vedanta and the many different systems of thought that make up this tradition of indian philosophy emphasizing the historical development of vedantic thought it includes chapters on numerous classical vedantic philosophies and

well as the modern vedantic views of sri ramakrishna sri aurobindo and remain rolland the volume offers careful hermeneutic analyses of how vedantic texts have been interpreted and it addresses key issues and debates in vedanta including religious diversity the nature of god and the possibility of embodied liberation venturing into cross philosophical and cross cultural territory it also brings vedanta into dialogue with saiva nondualism as well as contemporary western analytic philosophy highlighting current scholarly controversies and charting new paths of inquiry this is an indispensable research guide for anyone interested in the past present and future of vedanta and indian philosophy originally published as the continuum companion to hindu studies this companion offers the definitive guide to hinduism and study in this area now available in paperback the bloomsbury companion to hindu studies covers all the most pressing and important themes and categories in the field areas that have continued to attract interest historically as well as topics that have emerged more recently as active areas of research specially commissioned essays from an international team of experts reveal where important work continues to be done in the field and valuably how the various topics intersect through detailed reading paths featuring a series of indispensable research tools including a detailed list of resources chronology and diagrams summarizing content this is the essential tool for anyone working in hindu studies the volume presents seventeen papers by different scholars that examine from an interdisciplinary
