this book examines the development of sport sponsorship and its impact on global public health it argues that sport governing bodies should not continue to treat fans solely as consumers and that a more ethical approach should be taken to sport sponsorship drawing on research from sport studies marketing and public health the book presents a brief history of advertising and marketing in sport including the importance of tobacco in the development of sport sponsorship before exploring key aspects of the contemporary relationship between sport and corporate sponsors including mega events digital technologies and brand engagement it offers an in depth case study of sponsorship in the english premier league one of the world s most successful sporting properties before considering how sport might be better regulated now and in the future to better protect the interests of fans and other stakeholders from a health perspective the book features a number of insightful images showcasing sport sponsorship in connection with tobacco mega events alcohol junk food and drink and gambling over the years addressing a topical and hugely important issue this is important reading for students researchers practitioners and policy makers with an interest in sport business and management the ethics of sport physical activity and health event studies marketing or public health

Guida essenziale ai vini d'Italia 2018. Ediz. italiana e inglese

2019-08-20

the world of wine encompasses endless variety consumers want to understand what makes one bottle of wine different from another vintners need to know how to communicate what makes their product distinctive drawing on a decade of fieldwork in italy and france as well as interviews with critics and analysis of market data giacomo negro michael t hannan and susan olzak provide an unprecedented sociological account of the dynamics of wine markets they demonstrate how the concepts of genre and collective identity illuminate producers choices whether they are selling traditional or nonconventional wines winemakers face a fundamental choice produce an existing style and develop an identity as a proponent of tradition or embrace foreign new or emerging categories and be seen as an innovator to explain this dilemma negro hannan and olzak develop the notion of wine genres or shared understandings among producers and the public genres emerge through the social structure of production including factors such as group solidarity social cohesion and collective action and become key reference points for critics and consumers wine markets features case studies of the creation of a modern wine genre and a countermovement against modernism in piedmont the failure of producers of brunello di montalcino in tuscan to define a clear collective identity and the emergence of the biodynamic wine movement in alsace this book not only offers keen sociological insight into the wine world but also sheds new light on the logic of markets and organizations more broadly

Chinese for Specific and Professional Purposes

2017-11-28

this book examines contemporary food systems in italy paying particular attention to the landscape innovative local practices and local cultural history it illustrates the utility of the value chain concept in navigating the complexities of comparative advantage in an advanced market setting it establishes the connection between the landscape and individual food practices and how they have responded to the commodification of the agri food system maintaining a distinctive local character while ensuring development and a healthy diet it explores how community gardens are now a consolidated part of italian urban experience as well as the multiple policy frameworks which govern these activities the book then explores a wider range of food procurement channels from food cooperatives to buying groups and institutional partnerships including the strategies employed by large retail groups to respond to the growing environmental sensitivity of their customers multifunctional implications of antimafia

activities involving social agriculture are also explored finally the book ends with a survey of european and domestic italian policies aiming to protect and promote healthy food practices while preserving the integrity of the landscape this is fascinating reading for anyone interested in quality food and the territory as well as academic readers from such disparate disciplines as sociology urban studies anthropology and italian studies

Rick Steves Italy 2018

2017-12-07

the delight of bacchus wine has ever been man s solace and joy growing out of the poorest soil the wild grape was tamed and blended over millennia to produce a royal beverage but the nineteenth century brought a near revolution in the production of wine and democracy in its consumption technology made wine an industry while improved living standards put it on the people s dinner table the vintners of france and italy frantically bought land and planted grapes in their attempt to profit from the golden age of wine but the very technology which made possible swift transportation with all its benefits to winemen brought utter devastation from america the phylloxera aphids and only when france and italy had replanted their entire vineyards on american stock did they again supply the thirsty cities and discriminating elite in an exhaustive examination professor loubère follows the wine production process from practices recommended long ago by the greeks and romans through the technical changes that occurred in the nineteenth century he shows how technology interacted with economic social and political phenomena to produce a new viticultural world but one distinct in different regions winemen espoused a wide range of politics and economics depending on where they lived the grapes they grew and the markets they sought while a place remained for carefully hand raised wine the industry had by the end of the century turned to mass production though it was capable of great quality control and consistency from year to year the author uses a wide range of sources including archives and contemporary accounts the volume contains extensive figures tables graphs and maps

A History of Italian Wine

2019-01-01

niccolò ridolfi 1501-50 was a florentine cardinal nephew and cousin to the medici popes leo x and clement vii and he owed his status and wealth to their patronage he remained actively engaged in florentine politics above all during the years of crisis that saw the florentine state change from republic to duchy a widely respected patron and scholar throughout his life his sudden death during the conclave of 1549-50 led to allegations of poison that an autopsy appears to confirm this book examines cardinal ridolfi and his court in order to understand the extent to which cardinalate courts played a key part in rome's resurgence and acted as hubs of knowledge located on the fault lines of politics and reform in church and state hospitable spaces that can be analysed in the context of entanglements in florentine and roman cultural and political patronage and intersections between the princely court and a more professional and complex knowledge and practice of household management in the consumer and service economy of early modern rome based on an array of archival sources and on three treatises whose authors were closely linked to ridolfi's court this monograph explores these multidisciplinary intersections to allow the more traditional fields of church and political history to be approached from different angles niccolò ridolfi and the cardinal's court will appeal to all those interested in the organisation of these elite establishments and their place in sixteenth century roman society the life and patronage of niccolò ridolfi in the context of the florentine exiles who desired a return to republicanism and the history of the roman catholic church
