the noble savage earthly paradise the original condition of human beings cynicism christianity all of us men were born in the first man without vice and all of us lost the innocence of our nature by the sin of the same man thence our inherited mortality thence the manifold corruptions of body and mind thence ignorance distress useless cares illicit lusts sacrilegious errors empty fear harmful love unwarranted joys punishable counsels and a number of miseries no smaller than that of our crimes st prosper of aquitania quoted in primitivism and related ideas in the middle ages this volume of essays written by george boas in collaboration with arthur o lovejoy was originally intended to be the second in a series of four documenting the history of primitivism and related ideas about goodness in the world covering the middle ages these essays underscore the continuity between pagan and christian cultures with respect to concepts of primitivism and examine the latter period s modifications of a group of favorite classical themes they demonstrate the growth of primitivism and anti primitivism from the first through the thirteenth centuries and include a discussion of such subjects as the noble savage earthly paradise the original condition of human beings and cynicism and christianity they also as boas suggests in his preface drive the piles for a bridge between the renaissance and classical antiquity although the superstructure itself remains to be constructed

Old Age Income Assurance: The aged population and retirement income programs 1968

this popular text provides an in depth introduction to debates within post colonial theory and criticism the readings are drawn from a diverse selection of thinkers both historical and contemporary

Social Security, Medical Care for the Aged Amendments 1964

in 1970 social workers were in great demand and their numbers were growing at the same time questions were asked on both sides of the atlantic about the methods they employed their objectives and the effectiveness of their efforts previous studies undertaken in the united states to test the effectiveness of social casework had led to intense controversy between researchers and practitioners originally published in 1970 the field experiment described in this book was the first british attempt to assess the effectiveness of social work a team led by a social worker including a physician and a statistician assessed the social and medical conditions of 300 aged applicants to a local authority welfare department and determined their needs for help half of these old people were randomly selected to receive help from trained caseworkers the other half also randomly chosen remained with experienced local authority welfare officers without professional training the social and medical conditions of the surviving clients were reassessed after an interval both sets of social workers had achieved much in alleviating practical needs but the trained workers brought about more change in their clients activities feelings and attitudes the opinions of the old people about the services they received and the social workers who had carried them out added another dimension to this pioneer study which contributed to research methodology helped to clarify operational goals in social work made a beginning in measuring social work effort and enlarged our meagre knowledge of social work with old people at the time

Social Security, Medical Care for the Aged Amendments. Hearings ... 88-2 ... August 6, 7, 10, 11, 12, 13, 14, 1964 1964

recognition and understanding of the special nutrition problems of the aged is changing along with the growing number of the elderly in the general population in the eight years since the first edition of the handbook of nutrition in the aged was originally published both economic changes and health issues have contributed to the decreasing nutritional intake among the aged new treatments such hyperalimenation and renutrition are now accepted as ways to restore and maintain optimum immune functions intended for gerentologists nutritionists dieticians and

assisted living professionals the third edition of handbook of nutrition in the aged reviews some of the major nutritional problems occurring with significant frequency in elderly adults other topics discussed include the effects of the aging process changes in social status and financial conditions that significantly affect the approaches to treatment and study of nutritional and health problems of the aged

Handbook of Nutrition in the Aged 2010-12-12

gabriele zerbi 1445 1505 born in verona of an old patrician family was a remarkable medical man anatomists of his time he probably studied at the university at padua where he began to teach medicine in 1467 having obtained the doctorate at the age of 22 he then taught medicine logic at the university of bologna lived worked in rome finally returned to padua maximianus the etruscan as he calls himself lived in rome in the age of justinian the 6th century only a few biographical facts about him can be gleaned from his 6 poems chapters introduction to zerbi his works text of the gerontocomia on the care of the aged intro to maximianus s elegies on old age love the elegies bibliography
