The Truth, the Whole Truth and Nothing But the Truth

2000-03-01 in an era when the cult of personality has overtaken the task of preaching charles w fuller offers an engaging query into the necessary boundaries between the person of the preacher and the message preached by thoroughly evaluating phillips brooks s classic truth through personality de nition of preaching fuller brings to light a substantial error that remains in contemporary homiletics namely the tenuous correlation between christ s incarnation and christian preaching ultimately fuller asserts a sound evangelical framework for preaching on revelational ontological rhetorical and teleological grounds preachers who desire to construct pulpit practice upon a robust evangelical

foundation will benefit from fuller's contribution

□□□□□□ 2019-06-10 dishonesty inspires more euphemisms
than copulation or defecation this helps desensitize us to its
implications in the post truth era we don t just have truth and
lies but a third category of ambiguous statements that are not
exactly the truth but fall just short of a lie enhanced truth it
might be called neo truth soft truth faux truth truth lite

deception has become the modern way of life where once the boundary line between truth and lies was clear and distinct it is no longer so in the post truth era deceiving others has become a challenge a game a habit high profile dissemblers compete for news coverage from journalists like jayson blair and professors like joseph ellis to politicians of all stripes executives and creative accountants research suggests that the average american tells multiple lies on a daily basis often for no good reason not a finger wagging scolding the post truth era is a combination of ralph keyes s investigative journalism and solid science the result is a spirited exploration of why we lie about practically everything and the consequences such casual dishonesty has on society american society has become permeated from top to bottom by deception its consequences for the nature of public discourse media business literature academia and politics are profound with dry humor passionate fervor and deep understanding ralph keyes takes us on a tour of a world where truth and honesty are no longer absolutes but mutable

fluid concepts

Journalism and the Philosophy of Truth 2016-02-12 have you ever wonder what is truth does truth is reality this is an informative entertaining and emotional book that will help you to know more about the truth the in depth discussion between characters is reminiscent of plato s republic and the dialog encourages you to search the things you believe and consider the things you do not

The Truth 2013 the word truth would seem to convey a message which initially is common with most if not all who hear it some of the qualities that are associated with the concept of truth are honesty believable confidence justice authenticity and authority qualities with which people strive to associate at the same time it would be naive to believe that truth operates or functions in a clear regular and systematic order as london s big ben clock in announcing the different times day and night especially when it is functioning at its best the reasons being truth comes in different shapes and forms at different times and places it has no particular

respect for age ethnicity gender religion and status yet all the
aforementioned factors are capable of influencing and
manipulating truth each in its individual direction and for its
individual purposes and unlike accurate big ben we are left
with the dangling question in our minds as to what extent can
truth be regarded as whole and nothing but the whole truth
the fact that religion and philosophers have been highlighted
in this work would seem to have been no accident the
reasons being philosophers have always been ready to
challenge and religions will always claim and firmly believe
that the foundation of their teachings are founded upon the
truth the case in this book may have demonstrated that to
label a person the ultimate source or final authority of truth is
not only dangerous but hubris on the part of anyone in that
truth is not the sole preserve of any philosopher group of
philosophers theologian or group of theologians of any artist
or group of artists any politician or party politicians truth is
wide and varied in scope and form like the water of an ocean
it is found in the shallow sandy shores to the deepest depths

sometimes with its temperature and temperament consistent with its nature signifying that we can all reach and touch it should that be necessary and appropriate our participation with truth may be limited only by the distance to which we are able to swim and by the strength of our endurance
