Framing the Fight against Human Trafficking

2019-06-04

nongovernmental organizations ngos in the anti human trafficking movement have proliferated over the past few decades many of these ngos have joined coalitions to pool resources and expertise how do changes in the external political environment or the internal coalition structure impact ngo framing strategy framing the fight against human trafficking movement coalitions and tactical diffusion uses a unique dataset to analyze the discursive processes of fifteen u s anti trafficking ngos involved in the alliance to end slavery and trafficking atest from 2008 2014 this analysis shows that atest has targeted the state contentious politics and private industry private politics to advance its agenda sex trafficking has normally been met with tactics from the contentious politics model due to its historical legal connection with prostitution labor trafficking conversely has been approached via the private politics model due to its connection with business however the coalition s formal organizational structure has enabled members to learn from each other and apply these models in innovative ways this study builds theory by showing how learning in social movement coalitions can diffuse tactics and provide new action repertoires for members

Capacity Building in the Fight Against Terrorism

2013-09-18

Review of the Fight Against Tuberculosis in Wisconsin and Elsewhere, 1898-1946

1946

the fight against impunity is an increasingly central concept in eu law making and adjudication what is the meaning and the scope of impunity as a legal concept in the eu legal order how does the fight against impunity influence policy and adjudication this timely book is the first comprehensive research to address these largely unexplored questions which involve structural institutional and substantive dilemmas underpinning the most recent developments of the european integration process over the last years the fight against impunity has amounted to a pressing concern for the european institutions it has shaped several eu policies and has become a recurring argument in the case law of the court of justice the book sheds light on this elusive notion providing a much needed conceptual appraisal the first section examines the scope of the notion of impunity and its role in the eu decision making process and in the development of eu competences subsequent sections discuss the implications of impunity and of the fight against it in a variety of complementary domains namely the allocation of criminal jurisdiction mutual recognition instruments the rise of new surveillance technologies and the external dimension of the area of freedom security and justice this book is an original and timely contribution to scholarship which is of interest to academics researchers and policy makers alike

The Irreconcilables

1973-01-01

our cities and communities face an uncertain and daunting future diverse challenges including an increasingly warmer and erratic climate losses of biodiversity disparities in economic equality and state and federal hostility to local action test the survival of many communities paralleling these challenges is an explosion of development that will rival post world war ii land use expansion yet most development codes are decades old and not prepared to confront today s changes and many local governments do not have the time or resources to research and address the myriad of changes and uncertainty they face the sustainability development code sdc project provides concrete ways for communities to amend development codes and adapt to new challenges as they occur the sdc aims to help all local governments regardless of size and budget build more resilient environmentally conscious economically secure and socially equitable communities in tandem with the sdc project this book arms local governments with a diversity of approaches to meet the climate change challenge focusing on actions that are traditionally within local governments land use and development authority
