atonement ecclesiology ecumenism art and theology christian ethics worship and spirituality while many scholars in shakespeare and religious studies assume a secularist viewpoint in their interpretation of shakespeare s works there are others that allow for a theologically coherent reading located within the turn to religion in shakespeare studies this book goes beyond the claim that shakespeare simply made artistic use of religious material in his drama it argues that his plays inhabit a complex and rich theological atmosphere individually by genre and as a body of work the book begins by acknowledging that a plot controlling god figure or even a consistent theological dogma is largely absent in the plays of shakespeare however it argues that this absence is not necessarily a sign of secularization but functions in a theologically generative manner it goes on to suggest that the plays reveal a consistent if variant attention to the theological possibility of a divine presence mediated through human wit both in gracious and malicious forms without any prejudice for divine intervention the plots actually gesture on many turns toward a hidden supernatural actor or god making bold claims about the artistic and theological of shakespeare s work this book will be of interest to scholars of theology and the arts shakespeare and literature more generally this is a comprehensive study of the philosophy of peter ramus 1515 1572 as it was used in the theology of the english puritan william perkins 1558 1602 the work shows that perkins use of ramist method was substantial and that nearly all his theological works were constructed along the lines of the ramist method the significance of this use of ramus by perkins is explored and the importance of ramism for english puritanism in general is then shown this book deals with many aspects of the land of israel in the first part the emphasis is on descriptions of the land in joshua and other books of the hebrew anf greek bible in the second part the focus shifts to the land in history and theology reception history of biblical texts dealing with the land archaeology of palestine and theological
