Translanguaging in Higher Education 2016-12-09

this book examines translanguaging in higher education and provides clear examples of what translanguaging looks like in practice in particular contexts around the world while higher education has historically been seen as a monolingual space the case studies from the international contexts included in this collection show us that institutions of higher education are often translingual spaces that reflect the multilingual environments in which they exist chapters demonstrate how the use of translanguaging practices within the context of global higher education where english plays an increasingly important role allows students and professors to build on their linguistic repertoires to more efficiently and effectively learn content the documentation of such practices within the context of higher education will further legitimize translanguaging practices and may lead to their increased use not only in higher education but also in both primary and secondary schools

Indian Ethnobotany: Bibliography of 21st Century (2001-2015) 2016-06-01

ethnobotany deals with traditional and indigenous associations of people with plants the subject has been attracting more and more scholars in india and many other countries it s importance in search for new molecules from ethnomedicinal herbs and useful genes from wild relatives and land races of crops still in use among many native folk for genetic engineering has enhanced the importance of the discipline the number of books and research papers published each year has been rapidly increasing research workers need to know about the work done on their topic of study bibliographies reviews greatly help in this and save their valuable time about 2500 publications are listed in the present book to facilitate the search of reference on particular region ethnic groups or use categories indexes are given for providing clues to such search research guides can easily spot gaps in ethnobotanical studies in any ethnic society as also regions of the country biographers will find from one source the work done in single or joint authorship by the scientist on whom they are writing to facilitate this an index by surname of joint authors is also provided the book will be an essential reference work for research workers

Bilingual Education and Language Policy in the Global South 2013-07-18

this volume considers a range of ways in which bilingual programs can make a contribution to aspects of human and economic development in the global south the authors examine the consequences of different policies programs and pedagogies for learners and local communities through recent ethnographic research on these topics the revitalization of minority languages and local cultural practices management of linguistic and cultural diversity and promotion of equal opportunities both social and economic are all explored in this light

Studies on Kumaun Himalaya 1997

contributed articles on various aspects of kamuan india

Government Gazette 1913

this book explores the linguistic ecology of the kumaun region of uttarakhand india through the experiences and discourses of minority youth and their educators providing in depth examples of indian multilingualism this volume analyses how each language is valued in its own context how national level policies are appropriated and contested in local discourses and how language and culture influence educational opportunities and identity negotiation for kumauni young women in doing so the author examines how students and educators navigate a multilingual society with similarly diverse classroom practices she simultaneously critiques the language and education system in modern india and highlights alternative perspectives on empowerment

through the lens of a unique gandhian educational context this volume allows kumauni women and their educators to take centre stage and provides a thoughtful and nuanced insight into their minority language environment this unique book is sure to appeal to students and scholars of multilingualism sociolinguistics language policy and minority languages

The Ecology of Language in Multilingual India 2017-10-27

Kumaun 1993

issues in global security research and practice 2013 edition is a scholarly editions book that delivers timely authoritative and comprehensive information about disaster prevention and management the editors have built issues in global security research and practice 2013 edition on the vast information databases of scholarly news you can expect the information about disaster prevention and management in this book to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant the content of issues in global security research and practice 2013 edition has been produced by the world s

leading scientists engineers analysts research institutions and companies all of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at scholarlyeditions and available exclusively from us you now have a source you can cite with authority confidence and credibility more information is available at scholarlyeditions.com

Landslide Science and Practice 2013-08-15

in conventional views pastoralism was classified as a stage of civilization that needed to be abolished and transcended in order to reach a higher level of development in this context global approaches to modernize a rural society have been ubiquitous phenomena independent of ideological contexts the 20th century experienced a variety of concepts to settle mobile groups and to transfer their lifestyles to modern perceptions permanent settlements are the vivid expression of an ideology driven approach modernization theory captured all walks of life and tried to optimize breeding techniques pasture utilization transport and processing concepts new insights into other aspects of pastoralism such as its role as an adaptive strategy to use marginal resources in remote locations with difficult access could only be understood as a critique of capitalist and communist concepts of modernization in recent years a renaissance of modernization theory led development activities can be observed higher inputs from external funding fencing of pastures and settlement of pastoralists in new townships are the vivid expression of modern pastoralism in urban contexts the new modernization programme incorporates resettlement and transformation of lifestyles as to be justified by environmental pressure in order to reduce degradation in the age of climate change

Gendered Food Practices from Seed to Waste 2017

since world war ii a growing number of jurisdictions in both the developing and industrialized worlds have adopted progressive constitutions that guarantee social and economic rights ser in addition to political and civil rights parallel developments have occurred at transnational level with the adoption of treaties that commit signatory states to respect and fulfil ser for their peoples this book is a product of the international social and economic rights project iserp a global consortium of judges lawyers human rights advocates and legal academics who critically examine the effectiveness of ser law in promoting real change in people s lives the book addresses a range of practical political and legal questions under these headings with acute sensitivity to the racial cultural and gender implications of ser and the path breaking ser jurisprudence now emerging in the global south the book brings together internationally renowned experts in the field of social and economic rights to discuss a range of rights controversies from both theoretical and practical perspectives contributors of the book consider specific issues in the litigation and adjudication of ser cases from the differing standpoints of activists lawyers and adjudicators in order to identify and address the specific challenges facing the ser community this book will be of great use and interest to students and scholars of comparative constitutional law human rights public international law development studies and democratic political theory

Ethnomedicinal Plant Use and Practice in Traditional Medicine 2020-03-13

environmental history of india has developed as an important field of inquiry in the last twenty five years while providing major insights the existing scholarship has primarily focused on drawing sharp lines of distinction those between geographical spaces forest rivers farms people herders farmers townspeople eras colonial post colonial and so on the limitations of these sharp divides are brought to the forefront when there is a critical engagement with the region s contested environmental past shifting ground brings together an array of essays that pose critical questions regarding india s environmental past and the way it has been approached by scholars from debunking the idea of a primeval pristine forest cover to analysing the dynamics that shape human animal relations to examining the conflicts created by post independence projects of rural development and conservation this volume touches upon the various aspects of environmental studies and juxtaposes them with social history history of science and technology and history of trade and culture drawing on original case studies the book not only explores the past but also portrays how its traditions are often invoked to be deployed in contemporary conflicts those that are often aggravated by the pressures on natural assets created by the recent prosperity and the vaulting aspirations of a rapidly expanding

Golu Devata, the God of Justice of Kumaun Himalayas 1992

this volume analyzes ecological and socio economic risks due to climate change in the himalayan mountain ecosystems communities and proposes adaptation strategies and sustainability practices in order to better understand the potential actions required to improve natural resource conservation and the development of mountain people s livelihoods the authors discuss the current status of local knowledge system on various environmental aspects of conservation and sustainable use of mountain resources in the himalaya the book addresses the institutional capacities gaps and priority areas of capacity building to strengthen policies and governance in regard to climate change landuse management biodiversity conservation and sustainable management in the himalayan region the aim of this book is to enhance coordination building among policymakers planners mountain communities to foster collaboration between different stakeholders by understanding local perceptions of climate change as well as variability issues and establishing adaptation strategies to cope with these impacts the chapters incorporate theoretical and applied aspects and may serve as baseline information for the sustainability of mountain ecosystems through the contribution of multidisciplinary and interdisciplinary expertise from the himalayan region the book will be useful for students teachers and researchers working in different areas pertaining to mountain ecosystems as well as policymakers and planners working on issues related to the sustainability of the mountain ecosystem

Proverbs and Folklore of Kumaun and Garhwal 2003

soil is not only a fundamental source for all living organisms but also impacts non living factors water air minerals etc making it an invaluable and finite resource the importance of soil expands from agronomy through to industrialization thus it is crucial to understand the impact of human activity on soil quality to address several global issues related to pollution food security and health the united nations promotes the sustainable development goals sdgs with targets to save soil by minimizing nutrient loss and pollution load from the soil due to increasing anthropogenic pollution load many soil pollution control measures are failing therefore new technologies and eco friendly solutions are needed to balance and restore soil health soil crop interactions are essential considering the crop yield and productivity under different soil statuses these processes including nutrient release or soi detoxification are mediated by soil inhabiting microbes in fact the intrinsic role of soil parameters including the different classes of soil control soil microbiota which in turn modulate soil nutrient contents and makes these bioavailable different crops especially cereals are constantly interacting with these soil microbes thus the relationship between soil crops and microbes is complex

Ecology of the Mountain Waters 1991

the book is a study of the demand for a separate state of uttarakhand to be carved out of uttar pradesh without dustjacket in good condition

Man & Environment 2003

a short history of the chipko movement in india one of the world s most famous examples of a grassroots environmental protest movement this is a revised and expanded edition of a widely reviewed book originally published in 1990

Land Utilization in the Central Himalaya 1996

the book provides an overview of socially responsible consumption and marketing as well as a collection of teaching cases that discuss and emphasize how 21st century organizations both

for profit and non profit are addressing socially responsible consumers and meeting their changing needs while remaining profitable consumers governments academics and practitioners are becoming more interested in promoting positive social changes through consumption as a result this book aims to understand the practice of marketing in bringing about positive social change through real life case studies consumption by socially responsible consumers who care about the social good is unique not only because of its inter disciplinary and substantive subject matter but also because it presents challenges and pushes organizations to make significant changes in the ways they have been accomplishing organizational activities in the twenty first century from procurement to production to sales and services the book goes beyond individual consumers and their lifestyles to promote the scope of discussing marketing strategies it seeks to comprehend how people consume and how socially responsible consumption is conceived the case studies present and pursue integrated solutions for more sustainable consumption this is a must read for marketers who want to reach out to socially responsible consumers

Pastoral practices in High Asia 2012-03-26

pollutants are increasing day by day in the environment due to human interference thus it has become necessary to find solutions to clean up these hazardous pollutants to improve human animal and plant health microbial biotechnology in environmental monitoring and cleanup is a critical scholarly resource that examines the toxic hazardous substances and their impact on the environment featuring coverage on a broad range of topics such as pollution of microorganisms phytoremediation and bioremediation this book is geared towards academics professionals graduate students and practitioners interested in emerging techniques for environmental decontamination

Social and Economic Rights in Theory and Practice 2014-09-19

this book contains diverse topics relevant to earthquake engineering and technology the chapters are of interest to readers from various disciplines as the different chapters discuss popular topics on earthquake engineering and allied disciplines the chapters have adequate illustrations and tables for clarifying underlying concepts the reader can understand the fundamental concepts easily and the book is highly useful for practice in the field in addition to classroom learning

Shifting Ground 2014-11-06

this book will examine the various digital technologies such as the internet of things iot artificial intelligence ai and blockchain and their applications in the service sector to promote economic growth create new job opportunities and improve access to essential services such as education healthcare and financial services

Climate Change Adaptation, Risk Management and Sustainable Practices in the Himalaya 2023-03-10

ethnobotany of india volume 4 western and central himalayas is the 4th volume of the 5 volume set an informative book series on the ethnobotanical aspects of india the books cover different regions including volume 1 eastern ghats and deccan volume 2 western ghats and west coast of peninsular india volume 3 north east india and andaman and nicobar islands volume 4 western and central himalayas volume 5 the indo gangetic region each volume looks at the important ethnic plants of the specific region volume 4 covers the western and central himalayas the well known mountain range on the indian subcontinent the unique flora and fauna of the himalayas are varied affected by climate rainfall altitude and soils and are vulnerable to impacts from climate change the editors espouse that because indigenous non western societies form the vast majority of people now as well as in the past a study of their plant interrelationships is necessary and india is one of the most important regions of the old world for its ancient and culturally rich and diverse knowledge of ethnobotany with this in mind these volumes share a great deal of information that will be valuable to plant botanists and others working in and interested in ethnobotany this important volume covers the ethnobotanical aspects of many plants of the region it looks at ethnic diversity of people ethnic food plants and food preparation ethnomedical aspects of plants psychedelic plants and

their possible link to soma a vedic ritual drink whose plant origins are a mystery
ethnoveterinary medicinal plants ethno conservation practices biodiversity heritage sites the
volume includes the details of the plants used their scientific names the parts used and how
the plants are used providing the what how and why of plant usage the book is well illustrated
with 20 color and 67 b w illustrations together the five volumes in the ethnobotany of india
series presents the available ethnobotanical knowledge of india in one place india s ancient
and culturally rich and diverse information and use of ethnobotany will be valuable to those
in the fields of botany and plant sciences pharmacognosy and pharmacology nutraceuticals and
others the books also consider the threat to plant biodiversity imposed by environmental
degradation which impacts cultural diversity
