this study provides a general overview and a succinct analysis of the primary ways in which the old testament has been received interpreted and conveyed within eastern orthodox tradition filling a vacuum in scholarly literature on the history of biblical interpretation the book is divided into two parts reception and interpretation under reception issues such as unity and diversity of the christian bible text canon and tradition are considered the second part interpretation focuses on eastern orthodox modes of interpretation discursive and intuitive

among the discursive modes the patristic exegesis is chosen as a case study the intuitive modes representing the so called liturgical exegesis are subdivided into aural hymns psalms lectionaries and visual portable icons frescoes mosaics a special emphasis is placed on the hallmarks of eastern orthodox reception and interpretation of the old testament including the centrality of scripture within tradition a blend of flexibility and strictness at all levels of the faith community integrative function and holistic use of the sacred text a tensed unity of discursive and intuitive modes of interpretation and a dynamic synergy between formative and informative goals in the use of scripture
