convey results graphically are provided there is a focus on graphic displays of results as these are a core strength of using r for statistical analysis many in the social sciences are transitioning away from using stata spss and sas to using r and this book uses statistical models which are relevant to the social sciences social science applications of regression for categorical outcomes using r will be useful for graduate students in the social sciences who are looking to expand their statistical knowledge and for quantitative social scientists due to its ability to act as a practitioners guide key features applied in the sense that we will provide code that others can easily adapt flexible r is basically just a fancy calculator our programs will enable users to derive quantities that they can use in their work timely many in the social sciences are currently transitioning to r or are learning it now our book will be a useful resource versatile we will write functions into an r package that can be applied to all of the regression models we will cover in the book aesthetically pleasing one advantage of r relative to other software packages is that graphs are fully customizable we will leverage this feature to yield high end graphical displays of results affordability r is free r packages are free there is no need to purchase site licenses or updates

Response of grass species to tree harvesting in singleleaf pinyon-Utah juniper stands

1985

in writing this book i increasingly became aware of the extent to which much of the finest social science research has been devoted to the issue of unemployment unemployment rightly is a key issue in the social sciences for search of social and political answers to the economic social and psychological distress caused by uncertainty and macroeconomic change i was glad to find my own worries shared by eminent and respected scholars george akerlof once confessed to pursue the study of unemployment ultimately because of his father's distress from fear of unemployment and wout ultee started research on unemployment from the consideration that parents talk about unemployment risks should not come to dominate marriage parties or other family occasions the problem of unemployment is thus hardly confined to actual loss of income but one where economic insecurity begins to undermine the very fabric of society in consequence to combat unemployment should indeed be a foremost issue in societies striving for freedom and justice for their
