The POSCO Strategy

2001

the posco strategy brings to life one of the world's great industrial success stories expertly told by william t hogan an accomplished commentator on the global steel industry the work traces the meteoric rise of south korea's pohang iron and steel company and the incredible impact it has had on this small agrarian country in a mere quarter of a century posco has grown to become the largest steel company in the world and has dragged south korea into the industrial age the book not only provides a blueprint for the world's steel industry but offers an incredible case study to students of modern asian economic history seeking to understand how a non industrialized economy can be so dramatically modernized by the development of a single industry

Igniting Steel

1992-01-01

this title seeks to understand what a successful country like south korea does after it has attained development and economic maturity it looks at korea and asian regionalism korean business and innovation strategies in asia and asian migration and immigrants in korea

Developmental States and Business Activism

2014-08-12

the author tears into the false narrative of india s progress since independence and the mirage of a glorious future created by the political class and the bureaucracy with facts data and a touching narration he reveals the plight of the poor and the unemployed through the decades one of the most agonizing facts that he highlights is that since independence india has fallen 100 places behind other countries in gdp per capita and with bangladesh overtaking india on this parameter india is destined to remain the poorest large country in the world the book illustrates how indians have become hostage to a crippled system that is unable to deliver power brokers in the garb of politicians entrenched bureaucracy driven by self interest ineffective judiciary and elements of the fourth estate along with self seeking pseudo intellectuals have formed a powerful coalition to thwart any change in the system and policies which is essential for the transformation of india initiated from time to time by some progressive governments based on his diagnosis of why india continues to fall by the wayside as also his insights into strategies governance systems and best practices of countries like south korea china and others the author evolves a framework for the strategic transformation of india to catch up and leapfrog these countries

Developments in Steelmaking Capacity of Non-OECD Economies 2013

1997

economic analysis of the industrial experiences of the newly industrialized economies in asia is generally lacking in the literature this study attempts to fill that void by providing an in depth discussion on the economic impact of the industrial policies of singapore taiwan and south korea in the three and a half decades after 1960 throughout the study a broad perspective of macroeconomic development is maintained it is highly critical of the narrow minded objective of certain governments in maximizing the pace of industrialization at the expense of general economic well being a comparative analysis of the industrial experiences of the three economies also shows a diversity of constraints and processes singapore relied on multinational corporations taiwan on returned engineers and south korea on chaebols there appears to be no asian formula for industrialization in hong kong there is an ongoing debate on whether some form of industrial policy should be introduced in view of the perception that hong kong is lagging behind the other economies in terms of technology drawing on the experiences of the other economies the concluding chapter of the book provides an informed and balanced answer to this question contents singapore dominance of multinational corporations taiwan thriving high technology industries and sme south korea government led development and the dominance of giant corporations comparison among singapore taiwan and south korea strategic considerations in the hong kong context readership researchers policy makers and undergraduates in economics and east asian studies
