Coordinated Portfolio Investment Survey Guide (Third Edition) 2018-09-21

this third edition of the coordinated portfolio investment survey guide has been prepared to assist economies that participate or are preparing to participate in the coordinated portfolio investment survey cpis it builds on and updates the second edition of the cpis guide 2002 to reflect the adoption of the balance of payments and international investment position manual sixth edition bpm6 as the standard framework for compiling cross border position statistics

The Coordinated Direct Investment Survey Guide 2015 2015-10-08

this coordinated direct investment survey guide has been prepared to assist economies in participating in the coordinated direct investment survey cdis the cdis is being conducted under the auspices of the statistics department of the imf across a wide range of economies the survey is conducted simultaneously by all participating economies uses consistent definitions and encourages best practices in collecting compiling and disseminating data on direct investment positions the cdis is thus an important tool in capturing world totals and the geographic distribution of direct investment positions thereby contributing to important new understandings of the extent of globalization and improving the overall quality of direct investment data worldwide as of the writing of this updated guide more than 100 economies participate in the cdis

Role of Health Economic Data in Policy Making and Reimbursement of New Medical Technologies

2017-11-23

this research topic was focused on provision of novel medical technologies worldwide keeping in mind financial sustainability challenge an exemplary area certainly are oncology pharmaceuticals where prices have increased 10 fold in recent years leading to concerns on affordability the objective of this collection of studies was to reveal some of the hidden underlying causes of unequal access to the medicines another core issue is the growing proportion of out of pocket health spending in many world regions in line with the joint efforts of the editors and authors we received an exceptionally high response worldwide this e book attracted a total of 37 self standing research submissions out of which 32 ultimately passed external peer review and got published base affiliations of the authors spread across academia

pharmaceutical and medical device industry governmental authorities and clinical medicine their home institutions were situated in fifteen different countries inclusive of japan israel russia usa germany italy netherlands austria spain malta serbia poland bulgaria hungary and malaysia we frankly believe that authors succeeded to cover important literature gaps referring to these world regions we solicit global professional audience to put our efforts to the test and read this contribution to the health economics literature

OECD Economic Surveys: Austria 2019 *2019-11-13*

austrian citizens enjoy high living standards well being and social cohesion until the ongoing global slowdown robust employment growth in the private sector kept domestic demand and investment remarkably robust more people moved into work and inward migration has been strong at the same time new challenges related to social cohesion challenges have emerged as increased skill differences in the population and diverging productivity performance across firms have generated a higher range of outcomes for job quality and market wages than in the past myriad entrepreneurial firms across all regions should better adapt to new megatrends of ageing globalisation and digitalisation

Interim guidance for country validation of viral hepatitis elimination *2021-06-08*

in 2016 the world health assembly adopted the global health sector strategy ghss on viral hepatitis the ghss called for elimination of viral hepatitis b and c infection as a public health problem defined as a 90 reduction in incidence 95 for hbv and 80 for hcv and 65 reduction in mortality by 2030 compared with the 2015 baseline a broad range of countries have now developed national viral hepatitis plans and several countries also requested guidance from the world health organization who on the establishment of global criteria for measuring elimination of viral hepatitis and a standardized process for validation of elimination who has developed this interim guidance for countries and other stakeholders seeking validation of elimination of viral hepatitis as a public health problem with a specific focus on hepatitis b virus hbv and hepatitis c virus hcv it provides a global framework for the processes and standards for validation of elimination and overall proposes the use of absolute impact targets to validate elimination at the national level instead of although equivalent to the relative reduction targets originally defined in the 2016 ghss in combination with a set of programmatic targets

Librarian's Guide to Online Searching *2018-07-20*

understanding and navigating online databases is an essential skill for today s librarians but staying current in this changing landscape can be a challenge the fifth edition of this vital book ensures that you meet that challenge today s librarians not only need to know about existing databases and how to perform searches within them but must also be able to teach search capabilities and strategies to library users this practical guide introduces librarians to a broad spectrum of the fee based and freely available databases that are available some of which are new to this edition and explains their underlying information structures as well as updates to some standard databases in addition it covers search strategies provides criteria for evaluating databases and discusses how to teach others about databases as in the previous edition this book takes a real world approach covering everything from basic and advanced search tools to online subject databases each chapter includes a thorough discussion recap concrete examples exercises and points to consider making this an ideal text for courses in database searching as well as a trustworthy professional resource

Where Do We Go From Here? 2016-11-15

over one hundred presentations from the 35th annual charleston library conference held november 4 7 2015 are included in this annual proceedings volume major themes of the meeting included streaming video analysis and assessment demand driven acquisition the future of university presses and open access publishing while the charleston meeting remains a core one for acquisitions librarians in dialog with publishers and vendors the breadth of coverage of this volume reflects the fact that this conference is now one of the major venues for leaders in the publishing and library communities to shape strategy and prepare for the future almost 1 800 delegates attended the 2015 meeting ranging from the staff of small public library systems to the ceos of major corporations this fully indexed copyedited volume provides a rich source for the latest evidence based research and lessons from practice in a range of information science fields the contributors are leaders in the library publishing and vendor communities

OECD Economic Surveys: Switzerland 2022 2022-01-20

the swiss economy has shown resilience but the covid 19 pandemic continues to raise uncertainty and challenges effective government support has helped protect employment and buttress household incomes nevertheless some sectors and groups have been hit hard with a disproportionate impact on low middle skilled and low wage workers

Oxford Textbook of Cognitive Neurology and Dementia 2016

this volume covers the dramatic developments that have occurred in basic neuroscience and clinical research in cognitive neurology and dementia it is based on the clinical approach to the patient and provides essential knowledge that is fundamental to clinical practice

The National Origins of Policy Ideas 2014-04-27

in politics ideas matter they provide the foundation for economic policymaking which in turn shapes what is possible in domestic and international politics yet until now

little attention has been paid to how these ideas are produced and disseminated and how this process varies between countries the national origins of policy ideas provides the first comparative analysis of how knowledge regimes communities of policy research organizations like think tanks political party foundations ad hoc commissions and state research offices and the institutions that govern them generate ideas and communicate them to policymakers john campbell and ove pedersen examine how knowledge regimes are organized operate and have changed over the last thirty years in the united states france germany and denmark they show how there are persistent national differences in how policy ideas are produced some countries do so in contentious politically partisan ways while others are cooperative and consensus oriented they find that while knowledge regimes have adopted some common practices since the 1970s tendencies toward convergence have been limited and outcomes have been heavily shaped by national contexts drawing on extensive interviews with top officials at leading policy research organizations this book demonstrates why knowledge regimes are as important to capitalism as the state and the firm and sheds new light on debates about the effects of globalization the rise of neoliberalism and the orientation of comparative political economy in political science and sociology
