the first world war comes to harrowing life through the intertwined lives of the soldier poets in michael korda s epic muse of fire michael korda the best selling author of hero and alone tells the story of the first world war not in any conventional way but through the intertwined lives of the soldier poets who came to describe it best and indeed to symbolize the war s tragic arc and lethal fury his epic narrative begins with rupert brooke the handsomest young man in england and perhaps its most famous young poet in the halcyon days of the edwardian age and ends five years later with wilfred owen killed in action at twenty five only one week before the armistice with bitter irony owen s mother received the telegram informing her of his death on november 11 just as church bells tolled to celebrate the war s end korda s dramatic account which includes anecdotes from his own family history not only brings to life the soldier poets but paints an unforgettable picture of life and death in the trenches and the sacrifice of an entire generation his cast of characters includes the young american poet alan seeger who was killed in action as a private in the french foreign legion isaac rosenberg whose parents had fled czarist anti semitic persecution and who was killed in action at the age of twenty eight before his fame as a poet and a painter was recognized robert graves and siegfried sassoon whose friendship and friendly rivalry endured through long complicated private lives and finally owen whose fame came only posthumously and whose poetry remains some of the most savage and heartbreaking to emerge from the cataclysmic war as korda demonstrates the poets of the first world war were soldiers heroes martyrs victims their lives and loves endlessly fascinating that of rupert brooke alone reads like a novel with his journey to polynesia in pursuit of a life like gauguin s and some of his finest poetry written only a year before his tragic death muse of fire is at once a portrait of their lives and a narrative of a civilization destroying itself among the rubble shadows and the unresolved problems of which we still live from the revival of brutal trench warfare in ukraine and in the middle east

as children we searched for four leaf clovers and carried a keychain with a rabbit s foot because we were told they were good luck we were told not to cut the pole or step on a crack on the sidewalk we put our teeth under our pillow so the tooth fairy would leave money we collected easter eggs from the easter bunny we tried to stay awake in hopes of getting a glimpse of santa claus we blew out candles and made a wish without questioning who we were making a wish to or who answers wishes instead of being told we were created in god s image just below the angels and were given dominion over the earth we were told after we die we could be reincarnated and return as one of the very things we were given dominion over these tales and exaggerations seem harmless because we mature and grow out of but i want to address the deliberate and calculated lies and fallacies that are detrimental to our well being and eternal soul the pandemic is a word people are familiar with but not its biblical synonym pestilence in addition when god sends a famine man will call it a food shortage so you must learn to discern and observe with your insight and not your eyesight so you can walk by faith and not by sight god sent plagues pestilence for judgment warning and correction as a result of sin in biblical days the leader would hold a solemn assembly of fasting and praying where they would repent and ask god for forgiveness many can t wait to get back to a normal that was spiritually abnormal to god we live in a world where people are more interested in man s concepts than god s precepts in predictions than prophecy religion than a relationship luck than blessings staying a victim than becoming a victor more concerned about the unvaccinated than the unsaved religious tenets than god s commandments in seminars than sermons and rather warn us that santa claus is coming to town than jesus is returning talk about global warming than how cold we are to one another and climate change than changing the climate of racial tension and discord people think when we die that s it but there is what people call life after death which i call life after flesh don t just plan for a future that s not promised but for your eternity that is hopefully my spiritual journey and insight covered in this book as well as my book the bible will be my textbook will help you discover the truth seek and you shall find and be set free i hope in reading you will experience a spiritual growth spurt as i have poetically yours raven m brown

have you ever wondered what happens to your beloved pet when he or she dies will you ever be able to see him or her again in heaven or have you been plagued by the disturbing thought that animals are only here on earth for our enjoyment in this life but when they die that is it for them and they are gone forever this haunted me for decades until i finally got up enough courage to seek out the truth for myself i went to the word of god to conduct my own research this book is the result of my quest to find the truth about how god really sees animals and his plan for them i was astounded by the wealth of information that god shares in the holy bible regarding animals the answers are there hidden in his word all anyone needs to do is look

footprints in chinese history the author combines the precision of a scientist the refined taste of a

 viticultural terms the author has selected grapes from an excellent vineyard and transformed them into
 mellow wine for your appreciation yau shun chiu emeritus director of research the french national

 individual not a team and yet comprehensive in its selection chan hong mo has done it by treating poetry
 with not only inspired translation but also a sense of history that would transport modern day readers
 back into the original context of each poem this bridge brings together too the poetic traditions of east
 and west in sentiments as well as musical patterns e s p almberg ng professor formerly of the department
 of translation in the chinese university of hong kong this book is a gem what a novel idea to view
 chinese history through the eyes of its most famous poets the poems are well chosen and expertly
 translated i thoroughly enjoyed and learnt much from this articulate and artistic book written with
 scholarship and devotion sir david todd emeritus professor university of hong kong we meet across this
 great span of time the real people who make history come alive the soldier returning home as an old man
 to find his village deserted the young man tempted away from work by a girl with spring time in her heart
 and many others we could not get better proof that human emotions were the same centuries ago as they are
 now dr chan s fluent translations enable us to appreciate the beauty of the poems janet morgan district
 councillor the vale of white horse oxford the book gave me the opportunity to learn about the country its
 people history and culture it manages to be both condensed in contents and easy to read being written in
 a style accessible even to readers like me whose mother tongue is not english the most striking feature
 is that in reading these poems you make discoveries about life in your own country which shares similar
 worries and joys jose bordes chaired professor catedratico in theoretical physics at the university of

after having the question of what are you posed to him as a kid by a curious child tyson began a lifelong journey of biracial enlightenment in search of the ultimate answer to that question after teetering on both sides of the threshold of lower and middle class life with his white mother and her family in a world where the caucasian race was supreme and saw no equal tyson was sent on a turbulent quest of self discovery to live with the previously unknown black parents of his permanently incarcerated father and was abruptly thrust into the antithesis of his previous life whereas previously white reigned supreme now black power was almighty after adjusting to his new identity he was ripped from comfort and thrown into the tumultuous environment of the foster care system where he experienced a racial roller coaster ride from ashy to classy below the poverty line to the lap of luxury and back again to the median of the two the plight of the other race offers an eye opening perspective on black white and multi racial america as well as thought provoking insight into the experience of a biracial individual in current day america
