on november 22 1963 a young victoria elizabeth adams stood behind a fourth floor window of the texas school book depository in dallas she watched as john kennedy was murdered in the streets below then with a co worker in tow she ran down the back stairs of the building in order to get outside and determine what had happened at that precise moment her life changed forever her actions posed serious problems for the warren commission already grappling with its agenda of naming lee harvey oswald as the lone assassin if miss adams was telling the truth then she had descended those stairs at the same time oswald would have been on them as he made his escape from the sixth floor sniper s nest yet miss adams saw no one and even though the stairs were old wooden and creaky under any weight she heard no one either when miss adams was called to testify before a commission attorney she was quickly discredited humiliated and eventually branded a liar behind closed doors she pleaded with the government to conduct time tests of her actions if she was felt to have been inaccurate she begged the government to question her co workers particularly the woman who had accompanied her down the stairs if she was not believed instead she was ignored and so knowing the truth of what she had done and now fearing for her life because of it she went into hiding and became willing to die with that secret knowledge intrigued by what little was available about miss adams the author went in search of her it took him 35 years to eventually find this elusive witness as his journey progressed many questions arose about the assassination while others were put to rest and in the end the truth of what miss adams did was finally discovered this is an important story unique in this mess that continues to surround kennedy s death it is a story that has been buried for decades it is an account the government did not want you to hear and actually fabricated evidence in order to keep you from hearing it now the truth can be told
