hyper socialised explores the challenges of late capitalist times for education systems schools and teachers it looks at how trends of accountability teaching to the test using pupil voice and reliance on network technologies are all connected to powerful social and economic forces shaping the curriculum as it is taught in classrooms such forces threaten to overwhelm teachers but in the right hands they can also be harnessed to create influence and teach a truly powerful curriculum for their students presenting a historical view of curriculum change the book examines how society curriculum and teachers are linked using geography as an illustrative subject the chapters investigate what influences teachers to what extent they are in control of the curriculum and what else is shaping it divided into two parts it offers an in depth exploration of the relationship between society teachers and the curriculum including that what and how to teach remain wide open to debate evidence based research into the significance and implications of hyper socialised curriculum enactment for teachers and teacher education four case study portraits of geography departments and personal curriculum stories of each head of department insights into the nature of teaching as a profession and how a crisis of teacher recruitment and retention may be addressed written in clear and accessible terms this book is an essential resource for teacher educators subject teachers headteachers and educational researchers who want to understand how and why schools and teaching are changing and what this means for them

## ***21st Century Geography***

2012-01-02

within the european context of innovation for growth public and corporate actors are faced with pressing questions concerning innovation policy and the return on public and private investment in innovation at the regional level to help them answer these questions researchers in the field of geography of innovation propose interesting developments and new perspectives for the analysis of localized innovation processes interactions between science technology and industry and their impact on regional growth and competitiveness offering new foundations for designing and evaluating public policies the aim of this book is firstly to highlight major recent methodological advances in the geography of innovation particularly concerning the measurement of spatial knowledge externalities and their impact on agglomeration effects strategic approaches using microeconomic data have also contributed to showing how firms strategies may interact with the local environment and impact upon agglomeration dynamics interesting new results emerge from the application of these new methodologies to the analysis of innovation dynamics in european regions and this book shows how they can help revisit some of the main tenets of received wisdom concerning the

rationale and impact of public policies on the geography of innovation  
this book was previously published as a special issue of regional  
studies

## **Hyper-Socialised: How Teachers Enact the Geography Curriculum in Late Capitalism**

2017-10-02

there are many books about teaching in geography but this is the first  
dealing specifically with pedagogic research its methods and practices  
pedagogy research concerns the processes of learning and the  
development of learners it is a learner centred activity that aims to  
evaluate and improve the ways that students learn and learn to manage  
control and comprehend their own learning processes first as  
geographers in higher education but equally as future educated  
citizens this book collects together some key research papers from the  
journal of geography in higher education they concern original  
research and critical perspectives on how geographers learn critical  
evaluations of both new and traditional frameworks and methods used  
for pedagogic research in geography and some case studies on the  
promotion of self authorship learner autonomy in key geography higher  
education contexts such as fieldwork and undergraduate project work

this book is a compilation of articles from various issues of the journal of geography in higher education

## **Geography of Innovation**

2011-01-01

what makes certain cities more competitive than others why is it that countries often find talent concentrated more so in a few regions than evenly spread across the country what are the economic drivers that make cities more productive these are a few of the many questions that this volume aims to answer

## **Pedagogic Research in Geography Higher Education**

2013-01-17

social media such as microblogging services and social networking sites are changing the way people interact online and search for information and opinions this book investigates linguistic patterns in electronic discourse looking at online evaluative language internet

slang memes and ambient affiliation using a large twitter corpus over 100 million tweets alongside specialized case studies the author argues that we are currently witnessing a cultural movement from online conversation to what can be termed searchable talk online talk where people affiliate by making their discourse findable for example via metadata such as twitter hashtags by others holding similar interests this cutting edge text will be of interest to all scholars and students dealing with electronically mediated discourse

## ***Geography of Growth***

2012-10-12

this collection of papers from tourism geographies emphasizes new and emerging research paradigms in the geographic study of tourism the papers included in this collection follow one of two threads explicitly supporting specific research frameworks or implicitly presenting new and emerging theoretical perspectives through empirical research on the geographical topics these begin with three overview papers from themes that emerged from recent annual meetings of the association of american geographers including evolutionary economic geography eeg political ecology and community resilience each of these theoretical and conceptual frameworks is leading to new explorations

and insights in a wide variety of geographical and social science research including tourism studies these are followed by a series of papers that extend our knowledge and thinking on a range of key geographical topics including development and underdevelopment by saarinen rogeron sustainable tourism planning by torres delgado saarinen encounters with the natural environment by hill and the geography of place names by light as well as economic geography and new technologies and their applications to spatial behavior research the papers in this special issue are especially relevant to tourism scholars and very much represent the types of perspectives that tourism geographies seek to promote this book was published as a special issue of tourism geographies

## **Discourse of Twitter and Social Media**

2012-12-13

wine has been described as a window into places cultures and times geographers have studied wine since the time of the early greeks and romans when viticulturalists realized that the same grape grown in different geographic regions produced wine with differing olfactory and taste characteristics this book based on research presented to the wine specialty group of the association of american geographers shows

just how far the relationship has come since the time of bacchus and dionysus geographers have technical input into the wine industry with exciting new research tackling subjects such as the impact of climate change on grape production to the use of remote sensing and geographical information systems for improving the quality of crops this book explores the interdisciplinary connections and science behind world viticulture chapters cover a wide range of topics from the way in which landforms and soil affect wine production to the climatic aberration of the niagara wine industry to the social and structural challenges in reshaping the south african wine industry after the fall of apartheid the fundamentals are detailed too with a comparative analysis of bordeaux and burgundy and chapters on the geography of wine and the meaning of the term terroir

## **New Research Paradigms in Tourism Geography**

2015-01-29

economic geographers increasingly consider the significance of history in shaping the contemporary socio economic landscape and increasingly believe that experiences and competencies acquired over time by individuals and entities in particular localities to a large degree determine present configurations as well as future regional

trajectories attempts to trace understand and investigate the pathways from past to present have given rise to the thriving and exciting sub field of evolutionary economic geography eeg eeg highlights the important factors that initiate inhibit or consolidate the contextual settings and relationships in which regions and their respective agents which comprise and shape economic activity and social reproduction change over time it has at its core the production and destruction of novelty in space and the links between innovation and regional economic fortunes the creation of knowledge its movement and recombination within different regional ensembles of economic agents and institutions plays a critical role in the evolution of the space economy eeg provides a framework to disentangle the complexity of technological change and regional economic development based on a variety of theoretical and methodological approaches in only a short time eeg has established itself as a promising and rapidly evolving research framework with its focus on the driving forces of regional development across various scales and its attempt to translate findings into public policy this book advances the theoretical foundations of eeg and demonstrates how eeg utilises and operationalises conceptual frameworks both established and new contributions also point to future research avenues and extensions of eeg attempting to build stronger ties between theory empirical evidence and relevance to policy this book was originally published as a special issue of regional studies

## **The Geography of Wine**

2018

why is british columbia unique within canada what forces have shaped its landscape and its people to answer these questions brett mcgillivray adopts primarily a thematic approach he begins by giving a regional overview and introduction to geographic concepts and the physical processes that produced a spectacularly diverse landscape he then tackles different themes tracing the province s historical geography offering detailed accounts of its economic geography and discussing contemporary issues such as urbanization economic development and resource management this fully revised edition is enhanced by updated figures maps and graphs and by new discussions of how globalization climate change and recession are influencing the province and its people

## ***Evolutionary Economic Geography***

2017-09-07

turbulence characterises the current global scene this book uses complementary theoretical approaches to understand and help prescribe

[2021breastfeeding.mombaby.com.tw](http://2021breastfeeding.mombaby.com.tw)

policies to re frame the regional development problem in turbulent times these approaches are evolutionary complexity evolutionary economic geography emergence theory and resilience theory from below they address the four major crises creating a perfect storm for societies and economics involving the climate change crisis the energy crisis the banking and financial crisis and the global economic crisis this book analyses and proposes ways in which regional economies in particular are having to be reframed to address these crises first many must evolve in new ways possibly moving back from the service economy towards a new greener form of manufacturing of goods as well as services accordingly regional economies are innovating in new ways amongst these are the quest for relatedness within their own regional orbits and promoting modularity as a mode of analysis and a policy stance to stimulate innovation across industry and geographical borders finally regional economies and societies are discovering that from a resilience perspective they must find answers to the higher levels of governance with which they increasingly struggle in this respect regional economies are in transition and regional processes are emergent the transition seeks to address the four crises involving re balancing re directing and re framing future policy and practice this book describes many of the novel framings involved in understanding the new ways in which this major task is being addressed in theory policy and everyday practice

## Geography of British Columbia, Third Edition

2009-11-18

the turbulence of the current times has dramatically transformed the world's economic geographies the scale and scope of such changes require urgent attention with intellectual roots dating to the nineteenth century economic geography has traditionally sought to examine the spatial distributions of economic activity and the principles that account for them more recently the field has turned its attention to a range of questions relating to globalization and its impact on different peoples and places economic inequalities at different geographic scales the development of the knowledge based economy and the relationship between economy and environment now more than ever the changing fortunes of peoples and places demands our attention economic geography provides a stimulating and innovative introduction to economic geography by establishing the substantive concerns of economic geographers the methods deployed to study them the key concepts and theories that animate the field and the major issues generating debate this book is the first to address the diverse approaches to economic geography as well as the constantly shifting economic geographies on the ground it encompasses traditional approaches albeit from a critical perspective while providing a

thorough accessible and engaging examination of the concerns methods and approaches of the new economic geography this unique introductory text covers the breadth of economic geography while engaging with a range of contemporary debates at the cutting edge of the field written in an accessible and lucid style this book offers a thorough and systematic introductory survey it is enhanced by pedagogical features throughout including case studies dealing with topics ranging from the head office locations of the fortune 500 mexico s maquiladoras to china s investments in southern africa this book also contains exercises based on the key concepts and annotated further reading and websites

## **Re-framing Regional Development**

2020-02-29

the book aims to present traditional features of regional science as geographical concepts and institutions as well as relatively new topics such as innovation and agglomeration economies in particular it demonstrates that contrary to what has been argued by recent economics literature both geography and institutions or culture are relevant for local development in fact these phenomena along with the movement of goods and workers are among the main reasons for persisting

development differentials these intriguing relationships are at the heart of the analysis presented in this book and form the conceptual basis for a promising institutional approach to economic geography

## ***Economic Geography***

historical and policy contexts in order to deepen our understanding of significant debates in geography education key debates include geography s identity as an academic discipline what constitutes knowledge in geography places and regional geography what it means to think geographically constructing the curriculum how we link assessment to making progress in geography the contribution of fieldwork and outdoor experiences technology and the use of geographical information school geography and employability understanding the gap between school and university geography evidence based practice and research in geography education the comprehensive rigorous coverage of these key issues together with carefully annotated selected further reading will help support and shape further research and writing debates in geography education is a key resource that is essential reading for all teachers and researches who wish to extend their grasp of the place of geography in education mark jones is senior lecturer in education at the university of the west of england bristol uk david lambert is professor of geography education at ucl institute of education london uk

## **The New Oxford Handbook of Economic Geography**

2019-08-22

exploring the dynamic growth change and complexity of qualitative research in human geography the sage handbook of qualitative geography brings together leading scholars in the field to examine its history assess the current state of the art and project future directions in its comprehensive coverage accessible text and range of illustrative studies past and present the handbook has established an impressive new standard in presenting qualitative methods to geographers david ley university of british columbia moving beyond textbook rehearsals of standard issues the handbook shows how empirical details of qualitative research can be linked to the broader social theoretical political and policy concerns of qualitative geographers and the communities within which they work the book is organized into three sections part i openings engages the history of qualitative geography and details the ways that research and the researcher s place within it are conceptualized within broader academic political and social currents part ii encounters and collaborations describes the different strategies of inquiry that qualitative geographers use and the tools and techniques that address the challenges that arise in the research process part iii making sense explores the issues and processes of interpretation and the ways researchers communicate their results retrospective as well as prospective in its approach this is geography s first peer to peer engagement with qualitative research detailing how to conceive carry out and communicate qualitative research in the twenty first century suitable for postgraduate students academics and

practitioners alike this is the methods resource for researchers in human geography

## Debates in Geography Education

2014-07-17

this book illustrates how literature history and geographical analysis complement and enrich each other s disciplinary endeavors the hun lenox globe constructed in 1510 contains the latin phrase hic sunt dracones here be dragons warning sailors of the dangers of drifting into uncharted waters nearly half a millennium earlier the practice of earth writing geographia emerged from the cloisters of the great library of alexandria as a discipline blending the twin pursuits of strabo s poetic impression of places and herodotus chronicles of events and cultures eratosthenes a librarian at alexandria and the mathematician ptolemy employed geometry as another language with which to pursue earth writing from this ancient east mediterranean fount the streams of literary perception historical record and geographical analysis phenomenological and euclidean found confluence the aim of this collection is to recover such means and seek the fount of such rich waters by exploring relations between historical geography geographic information science gis geoscience and textual analysis the

book discusses and illustrates current case studies trends and discourses in european american and asian spheres where historical geography is practiced in concert with human and physical applications of gis and the broader geosciences and the analysis of text broadly conceived as archival literary historical cultural climatic scientific digital cinematic and media time as a multi scaled concept again broadly conceived is the pivot around which the interdisciplinary contributions to this volume revolve in the landscape of time 2002 the historian john lewis gaddis posits what if we were to think of history as a kind of mapping he links the ancient practice of mapmaking with the three part conception of time past present and future gaddis presents the practices of cartography and historical narrative as attempts to manage infinitely complex subjects by imposing abstract grids to frame the phenomena being examined longitude and latitude to frame landscapes and occidental and oriental temporal scales to frame timescapes gaddis contends that if the past is a landscape and history is the way we represent it then it follows that pattern recognition constitutes a primary form of human perception one that can be parsed empirically statistically and phenomenologically in turn this volume reasons that literary historical cartographical scientific mathematical and counterfactual narratives create their own spatio temporal frames of reference confluences between the poetic and the positivistic the empirical and the impressionistic the epic and the episodic and the chronologic and the chorologic can be identified and

studied by integrating practices in historical geography giscience geoscience and textual analysis as a result new perceptions and insights facilitating further avenues of scholarship into uncharted waters emerge the various ways in which geographical historical and textual perspectives are hermeneutically woven together in this volume illuminates the different methods with which to explore terrae incognitae of knowledge beyond the shores of their own separate disciplinary islands

## **The SAGE Handbook of Qualitative Geography**

2017-10-02

the wiley blackwell companion to political geography aims to account for the intellectual and worldly developments that have taken place in and around political geography in the last 10 years bringing together established names in the field as well as new scholars it highlights provocative theoretical and conceptual debates on political geography from a range of global perspectives discusses the latest developments and places increased emphasis on modes of thinking contested key concepts and on geopolitics climate change and terrorism explores the influence of the practice based methods in geography and concepts including postcolonialism feminist geographies the notion of the

anthropocene and new understandings of the role of non human actors in networks of power offers an accessible introduction to political geography for those in allied fields including political science international relations and sociology
