although the fields medal does not have the same public recognition as the nobel prizes they share a similar intellectual standing it is restricted to one field that of

mathematics and an age limit of 40 has become an accepted tradition mathematics has in the main been interpreted as pure mathematics and this is not so unreasonable since major contributions in some applied areas can be and have been recognized with nobel prizes a list of fields medallists and their contributions provides a bird's eye view of mathematics over the past 60 years it highlights the areas in which at various times greatest progress has been made this volume does not pretend to be comprehensive nor is it a historical document on the other hand it presents contributions from fields medallists and so provides a highly interesting and varied picture the second edition of fields medallists lectures features additional contributions from the following medallists kunihiro kodaira 1954 richard e borcherds 1998 william t gowers 1998 maxim kontsevich 1998 curtis t mcmullen 1998 and vladimir voevodsky 2002
