so you want to make a change patching configuration in Feb 05 2023 if we re making a pc game for steam circa 2010 we d make live changes pretty infrequently usually to a patch a critical bug b fix egregious imbalances or c release an expansion pack dlc while not particularly expedient it s clear how it is done on steam and it looks a lot like what we just did for release

here s on how to fix the update problem Jan 04 2023 you just have to click on the settings in the video to increase the resolution if it doesn t change itself when i go there its set at 1080p glad its working though i

think the devs gave up on the steam version a bit because the mobile version always gets updated
