*Freakonomics* 2011-09-20 the legendary bestseller that made millions look at the world in a radically different way returns in a new edition now including an exclusive discussion between the authors and bestselling professor of psychology angela duckworth which is more dangerous a gun or a swimming pool which should be feared more snakes or french fries why do sumo wrestlers cheat in this groundbreaking book leading economist steven levitt professor of economics at the university of chicago and winner of the american economic association s john bates clark medal for the economist under 40 who has made the greatest contribution to the discipline reveals that the answers joined by acclaimed author and podcast host stephen j dubner levitt presents a brilliant and brilliantly entertaining account of how incentives of the most hidden sort drive behavior in ways that turn conventional wisdom on its head

**Freakonomics Intl** 2006-01-01 these may not sound like typical questions for an economist to ask but steven d levitt is not a typical economist he studies the riddles of everyday life from cheating and crime to parenting and sports and reaches conclusions that turn conventional wisdom on its head freakonomics is a groundbreaking collaboration between levitt and stephen j dubner an award winning author and journalist they set out to explore the inner workings of a crack gang the truth about real estate agents the secrets of the ku klux klan and much more through forceful storytelling and wry insight they show that economics is at root the study of incentives how people get what they want or need especially when other people want or need the same thing book jacket

**SUMMARY - Freakonomics: A Rogue Economist Explores The Hidden Side Of Everything By Steven D. Levitt And Stephen J. Dubner** 2021-05-30 our summary is short simple and pragmatic it allows you to have the essential ideas of a big book in less than 30 minutes by reading this summary you will discover through concrete examples an innovative way of looking at the world why do dealers live with their parents how can information be used to dismantle a terrorist group by answering these unusual questions the authors of freakonomics bring to the forefront the little known workings of the economy you will also discover that incentives are at the root of many human behaviors popular wisdom is often mistaken behind great consequences are sometimes hidden distant causes information is exploited by experts for their own profit determining what needs to be measured to conduct a study is fundamental the authors of freakonomics steven levitt and stephen dubner are harvard economist and new york times magazine writer respectively they are the inventors of the eponymous science of exploring societal issues using the tools of economics you will learn how the tools of economics can be exploited to answer unusual and interesting questions buy now the summary of this book for the modest price of a cup of coffee

*Freakonomics* 2009-07-01 economics is not widely considered to be one of the sexier sciences the annual nobel prize winner in that field never receives as much publicity as his or her compatriots in peace literature or physics but if such slights are based on the notion that economics is dull or that economists are concerned only with finance itself steven d levitt will change some minds in freakonomics written with stephen j dubner levitt argues that many apparent mysteries of everyday life don t need to be so mysterious they could be illuminated and made even more fascinating by asking the right questions and drawing connections for example levitt traces the drop in violent crime rates to a drop in violent criminals and digging further to the roe v wade decision that preempted the existence of some people who would be born to poverty and hardship elsewhere by analyzing data gathered from inner city chicago drug dealing gangs levitt outlines a corporate structure much like mcdonald s where the top bosses make great money while scores of underlings make something below minimum wage and in a section that may alarm or relieve worried parents levitt argues that parenting methods don t really matter much and that a backyard swimming pool is much more dangerous than a gun these enlightening chapters are separated by effusive passages from dubner s 2003 profile of levitt in the new york times magazine which led to the book being written in a book filled with bold logic such back patting veers freakonomics however briefly away from what levitt actually has to say although maybe there s a good economic reason for that too and we re just not getting it yet

*Freakonomics* 2010 this summary is a separate companion to freakonomics a rogue economist explores the hidden side of everything by steven d levitt stephen j dubner economics is essentially a system of competing incentives how do individual people get what they want when everyone else is competing for the same thing learn how all behaviour is a result of incentives to change behaviour you must change the incentives learn how unscrupulous salespeople use the power of our fears to upsell us or make us buy things we don t actually need summary table of contents economic incentives social incentives moral incentives the most effective way to influence people s behaviour all changes in behaviour are the result of incentives people could react differently to the same incentives on different occasions finding the right incentives is complicated when events happen together people jump to conclusions about cause and effect the most persuasive fears are those which are easiest to visualize and most severe lack of control increases fear experts can exploit laypeople using their information advantage experts can exploit people using fear to upsell them do your research to avoid being taken advantage of when information is not given people assume the worst please note this is a separate companion summary of the most important ideas from the book not the original full length book

???????????????? 2001-06-01 literature suppressed on social grounds fourth edition discusses the many works that have been banned over the centuries because they offended or merely ignored official truths challenged widely held assumptions or contained ideas or language unacceptable to a state religious institution or private moral watchdog entries include the absolutely true diary of a part time indian sherman alexie adventures of huckleberry finn mark twain the adventures of sherlock holmes sir arthur conan doyle alice s adventures in wonderland lewis carroll anne frank the diary of a young girl anne frank as i lay dying william faulkner beloved toni morrison the color purple alice walker drama raina telgemeier fahrenheit 451 ray bradbury the great gatsby f scott fitzgerald howl and other poems allen ginsberg i know why the caged bird sings maya angelou the kite runner khaled hosseini one flew over the cuckoo s nest ken kesey of mice and men john steinbeck to kill a mockingbird harper lee and more

SAS???????????????? 2003-06 this is the ultimate guide to the world of the freak renegade thinkers and bestselling sensations levitt and dubner have carefully curated the very best of their blogs conversations wisecracks and advice from the last decade to reveal the outlandish truth about everything from lying to bankrobbing fast food to sex taxes we are all freakonomists now washington post a phenomenon their approach has won them a cult following observer lie back and let levitt and dubner s bouncy prose style carry you along from one peculiarity to the next sunday telegraph you are guaranteed a good time financial times

**Summary of Steven D. Levitt's Freakonomics by Milkyway Media** 2018-09-14 the mother of all booklists the 500 most recommended nonfiction reads for ages 3 to 103 is written for parents grandparents and teachers unfamiliar with the bewildering array of award and recommended reading lists this book is a long overdue composite of all the major booklists it brings together over 100 of the most influential book awards and reading lists from leading magazines newspapers reference books schools libraries parenting organizations and professional groups from across the country the mother of all booklists is to reading books what the website rotten tomatoes is to watching movies the ultimate one stop synthesizing resource for finding out what is best mother is not the opinion of one book critic but the aggregate opinion of an army of critics organized into five age group lists each with one hundred books preschoolers ages 3 5 early readers ages 5 9 middle readers ages 9 13 young adults ages 13 17 and adults ages 18 the mother of all booklists amalgamates the knowledge of the best english language booklists in the united states including a few from canada and great britain each of the 500 books is annotated describing the contents of the book and suggesting why the book is unique and important each includes a picture of the book cover

**Microeconomics** 2016 criminology theory research and policy third edition uses an interdisciplinary approach to examine and explain how and why crime occurs comprehensive coverage of a variety of crimes and leading criminological theories is provided and supported by new relevant case studies by making the connection between theory research and policy this revised and updated third edition demonstrates the relevancy of criminological theory in the public attempt to control crime while providing justice the emphasis on these three elements with pertinent discussions and examples is what sets this text apart from other criminology titles new material added the revised and updated third edition new cybercrime chapter provides cutting edge information on the illegal use of computers and the internet new chapter dedicated to terrorism includes discussion of elder abuse crimes and human trafficking provides new information on white collar crime updated case studies to reflect relevant crime typologies additional features theory in action boxes throughout the text provide notes that relate theoretical premises to real world cases and events each chapter contains objectives key terms and a detailed summary of important points instructor resources powerpoint slides test bank instructor manual with learning objectives

**Literature Suppressed on Social Grounds, Fourth Edition** 2019-08-01 are the impoverished victims of circumstance or are they contributing to their situations through their own actions and principles this perplexing question does not have a simple answer generational poverty an economic look at the culture of the poor examines both sides of the coin written by an economist the book provides a unique perspective into the study of this emotionally charged issue it shows that economic analysis can shed light on some of the roots of persistent poverty and may point to its potential solution generational poverty covers the author s eye opening experiences with a young man named jermaine and his family initiated through the big brothers big sisters bbbs program as someone who cares for jermaine and his family it was nothing short of a surprise to see first hand some of the obstacles jermaine s family are creating for themselves while at the same time battling many of today s social constructs in the course of the program the author learned a great deal about jermaine s life culture and the obstacles he faces this work identifies impediments that jermaine has experienced as well as common challenges faced in his community in the words of the author most of my research for this book is devoted to pinpointing these cultural issues and gathering varying opinions for each one while i do detail each unique perspective my goal is to align each argument to an economic fundamental this creates a more consistent diagnosis that does not depend on a personal set of values my hope is that future economists will continue to study this suffering portion of our population to determine the most effective way to remedy the continually increasing problem of poverty

**When to Rob a Bank** 2016-03-01 written solely for the undergraduate audience industrial organization theory and practice which features early coverage of antitrust punctuates its modern introduction to industrial organization with relevant empirical data and case studies to show students how to apply theoretical tools

**The Mother of All Booklists** 2014-12-24 guns don t kill people people kill people when guns are outlawed only outlaws will have guns an armed society is a polite society who hasn t heard these engaging assertions time and time again burned into the national consciousness by years of targeted disciplined messaging by the national rifle association and others they are just a few of the bumper sticker slogans that have defined the gun control debate in america long ridiculed by gun control advocates they are the first words that come to mind for most americans when the gun issue is discussed this is the first book both to acknowledge the profound and deadly impact of the gun lobby s bumper sticker logic on the gun control debate and to systematically expose the misguided thinking at the core of the pro gun slogans indeed the author contends that the gun lobby s remarkable success in blocking passage of lifesaving gun laws is the result in large part of its relentless and effective use of these simple and resonant messages their persuasive power has been a largely ignored influence on the current politics of gun control in which the gun lobby wields unprecedented power in the republican party while many democratic party leaders see the policy benefits of stronger gun laws as not worth the political risk of standing

up to the nra the book contends that the current political stalemate over guns will never be broken until the pro gun slogans are exposed as the cleverly disguised fallacies that they are
