in this engrossing the new yorker vivid and intensively researched volume esteemed napoleon scholar david chandler outlines the military strategy that led the famous french emperor to his greatest victories and to his ultimate downfall napoleonic war was nothing if not complex an ever shifting kaleidoscope of moves and intentions which by themselves went a long way towards baffling and dazing his conventionally minded opponents into that state of disconcerting moral disequilibrium which so often resulted in their catastrophic defeat the campaigns of napoleon is a masterful analysis and insightful critique of napoleon s art of war as he himself developed and perfected it in the major military campaigns of his career napoleon disavowed any suggestion that he worked from formula je n ai jamais eu un plan d opérations but military historian david chandler demonstrates this was at best only a half truth to be sure every operation napoleon conducted contained unique improvisatory features but there were from the first to the last certain basic principles of strategic maneuver and battlefield planning that he almost invariably put into practice to clarify these underlying methods as well as the style of napoleon s fabulous intellect chandler examines in detail each campaign mounted and personally conducted by napoleon analyzing the strategies employed revealing wherever possible the probable sources of his subject s military ideas writing clearly and vividly chandler turns dozens of persons besides napoleon from mere wooden soldiers into three dimensional characters the boston globe and this definitive work is a fine book for the historian the student and the intelligent reader the new york review of books

renowned for its accuracy brevity and readability this book has long been the gold standard of concise histories of the napoleonic wars now in an updated and revised edition it is unique in its portrayal of one of the world s great generals as a scambler who never had a plan strategic or tactical that did not break down or change of necessity in the field distinguished historian owen connelly argues that

napoleon was the master of the broken play so confident of his ability to improvise cover his own mistakes and capitalize on those of the enemy that he repeatedly plunged his armies into uncertain seemingly desperate situations only to emerge victorious as he blundered to glory beginning with a sketch of napoleon s early life the book progresses to his command of artillery at toulon and the whiff of grapeshot in paris that netted him control of the army of italy where his incredible performance catapulted him to fame the author vividly traces napoleon s campaigns as a general of the french revolution and emperor of the french knowledgeably analyzing each battle s successes and failures the author depicts napoleon s art of war as a system of engaging the enemy waiting for him to make a mistake improvising a plan on the spot and winning far from detracting from bonaparte s reputation his blunders rather made him a great general a natural who depended on his intuition and ability to read battlefields and his enemy to win exploring this neglected aspect of napoleon s battlefield genius connelly at the same time offers stirring and complete accounts of all the napoleonic campaigns

the waterloo campaign short as it was was epic in its scope encompassing as it did the downfall of the great napoleon the one and only clash between bonaparte and wellington and the inauguration of a century give or take short localised wars of general european peace and waterloo has left plenty of material for historians to argue over why did wellington not aid his prussian ally blucher at ligny why did marshal ney do nothing on the morning of quatre bras why was napoleon so uncharacteristically lethargic on the eve of waterloo what happened to marshal grouchy deputed to keep off the prussians on the day of waterloo these and many other strategic matters are fully considered by henry houssay in this second volume of his two volume classic history of napoleon s penultimate 1814 france and ultimate campaigns illustrated by finely drawn battle maps this is one that will keep napoleonic addicts arguing for a long time yet

following the destruction of napoleon s huge armies of 1812 in the wintry wastes of european russia his hegemony of europe was teetering on the abyss he set about re establishing his dominance with his vast abilities of organisation combing depots and previous drafts and deserters for further manpower and juggling his resources from the draining war in spain to create a new grande armée his enemies were not idle the russians pushed the remaining french units back from successive river lines into eastern prussia freeing that power from the yoke of french dominance the prussians in their turn activated reservists and reformed their army from the restrictions of the treaty following the disasters of 1806 the austrians in the south itched to revenge themselves against the french and stood waiting for an opportune time to intervene napoleon carried out his campaigning in the manner of old attempting to use the superior mobility of the french to bring the main enemy army to battle and destroy them therefore ensuring peace however hamstrung by his lack of cavalry he might beat his opponents but could not destroy them his subordinate generals who could not match him for strategy or his ability to get the best out of the raw troops were beaten when away from their master as the net closes on napoleon he finds himself at leipzig at the battle of nations and so to fight the defining battle of his first reign the special campaigns series was written in the early years of the turn of the twentieth century to provide detailed assessments of the historic campaigns of the past for the benefit of the officers of the british army they were all written by surviving or recently retired officers of the army who shared their wealth of experience and insight to a new generation each officer having had a specialist area of expertise colonel maude was an authority on the campaigns of napoleon and wrote three volumes for the series author colonel frederic natusch maude c b late r e 1854 1933
