The Oxford Handbook of Structural Transformation **1979**

arguing that economic policies in argentina brazil and mexico favor markets over institutions and the international economy over the domestic to the detriment of the workforce in those countries this publication presents extensive evidence in support of placing employment concerns at the center of economic and social policies the authors discuss the challenges the three countries face in creating employment as well as the evolution of the labor market since 1990 in terms of the quantity and quality of jobs they then explore the impact of five policy areas on employment creation macroeconomic policy trade liberalization foreign direct investment labor market regulations and policies and social dialogue their concluding recommendations offer concrete steps for balancing market forces and policy intervention in the interest of employment growth in a sound economy

Sustainable Development Goal Nine and African Development 2006

in the early years of the recent central american crisis analysts often predicted a rapid dramatic resolution whether by revolutionary victory or through military intervention by the

united states the 1980s however have witnessed an intensification of conflicts with increasing u s involvement rather than standing at the brink of a sharp turning point central america is at an interim point in an evolving historical process this text provides an assessment of this process and of its immediate and long term implications for the region and for u s latin american relations it focuses on the complex and contradictory effects of the reagan administration s efforts to influence the central american debate within the united states and to reestablish u s hegemony in the region itself the first part of the book examines the development of various aspects of u s policy toward central america in particular contributors discuss the interaction between the executive and legislative branches in shaping u s strategy the implications for constitutional democracy of presidential control over foreign policymaking the treatment of central american refugees the counterinsurgency strategy of low intensity warfare and the effects of u s policy on regional peace initiatives put forward by mexico and other latin american countries in the second part contributors analyze external pressures on central american countries and regional dynamics they begin with a discussion of the economic crisis aggravated by conflicts in the region and regional integration other topics include the ambiguous position of the catholic church guatemala s hidden war demonstration elections the changing balance of forces in el salvador and the obstacles nicaragua faces in constructing a new economic development model nora hamilton is associate professor of political science and linda fuller is assistant professor of sociology at the university of southern california jeffrey a frie

The Operation and Effect of the Possessions Corporation System of Taxation 2019-04-11

the authors show how a common approach that emphasizes the three way interaction among increasing returns transportation costs and the movement of productive factors can be applied to a wide range of issues in urban regional and international economics since 1990 there has been a renaissance of theoretical and empirical work on the spatial aspects of the economy that is where economic activity occurs and why using new tools in particular modeling techniques developed to analyze industrial organization international trade and economic growth this new economic geography has emerged as one of the most exciting areas of contemporary economics the authors show how seemingly disparate models reflect a few basic themes and in so doing they develop a common grammar for discussing a variety of issues they show how a common approach that emphasizes the three way interaction among increasing returns transportation costs and the movement of productive factors can be applied to a wide range of issues in urban regional and international economics this book is the first to provide a sound and unified explanation of the existence of large economic agglomerations at various spatial scales

Meeting the Employment Challenge 1986

this sourcebook appraises these instruments and considers their nature and objectives their potential benefits and challenges and the approaches used to implement them it also examines the practices that have led to both successful and unsuccessful outcomes the publication provides a comprehensive review of the potential of these tools to enhance value addition deliver jobs increase exports and provide markets for new and existing producers in the targeted territories it notes however that implementation of these tools poses a number of challenges for example planners and practitioners sometimes use them interchangeably thus ignoring the specificities of the investments policies and processes required and their expected outcomes the sourcebook concludes that these tools have potential for catalytic impact but planners need to make sound choices that respect demonstrated principles and follow good practices for effective design and implementation

Crisis In Central America 2001-07-27

this book links principles to settings and shows how theory complements policy and vice versa it links theory to policies and application and will enable students to understand and recognise balance in policy analysis and preparation

New Dimensions in Rural Policy 2018-08-09

some of the finest essays in the social sciences written by one of the twentieth century s most influential and provocative thinkers the essential hirschman brings together some of the finest essays in the social sciences written by one of the twentieth century s most influential and provocative thinkers albert o hirschman was a master essayist one who possessed the rare ability to blend the precision of economics with the elegance of literary imagination in an age in which our academic disciplines require ever greater specialization and narrowness it is rare to encounter an intellectual who can transform how we think about inequality by writing about traffic or who can slip in a quote from flaubert to reveal something surprising about taxes the essays gathered here span an astonishing range of topics and perspectives including industrialization in latin america imagining reform as more than repair the relationship between imagination and leadership routine thinking and the marketplace and the ways our arguments affect democratic life throughout we find humor unforgettable metaphors brilliant analysis and elegance of style that give hirschman such a singular voice featuring an introduction by jeremy adelman that places each of these essays in context as well as an insightful afterword by emma rothschild and amartya sen the essential hirschman is the ideal introduction to hirschman for a new generation of readers and a must have collection for anyone seeking his most important writings in one book

The Spatial Economy 2001

Territorial tools for agro-industry development 2009-01-01

this festschrift in honour of professor yair aharoni a pioneer in the field of international business looks at several of these new trends in fdi what they will mean for firms and governments and the opportunities created by these developments to enrich or extend extant theory

Microeconomic Policy 2015-04-27

no detailed description available for regional policies in nigeria india and brazil

Economics of Agro-based Industries 1990

this book covers nine countries of asean and the east asian area including major asian countries and compares their respective policies to attract foreign direct investments fdi through comparative study of fdi promotion policies this book will give policy makers in the area of fdi promotion an overview and comparison of the fdi policies of other countries in

addition researchers at graduate post graduate or professional level will gain from the econometric methodology and detailed definitions of various spillover effects horizontal and vertical which will be beneficial to their research in addition to fdi policy comparison this book focuses on the various spillover effects of fdi it separates it into categories own productivity effects intra industry spillover effects and inter industry spillover effects forward and backward linkage effects while most other studies have only taken econometric tests on own productivity and intra industry spillovers a key advantage to this book is that it also covers the separate effects of inter industry linkages through policy comparison and econometric tests on various spillover effects on economic growth employment and exports this book will give policy makers and researchers an innovative and constructive guide to fdi

The Essential Hirschman 2020-02-03

in an age in which it is increasingly necessary for nations to consider their competitiveness and at a time when the world economy is facing recession this book explores the possible trajectory of asean arguably one of the most dynamic areas in the world as a regional economic and political bloc this important and timely study focuses on the role of foreign direct investment in advancing the performance of asean and the competitiveness of its firms whereas other studies typically focus solely on the role of trade the expert contributors an interdisciplinary assembly of economists lawyers and political scientists present a comprehensive view of asean s experiences over the past decade addressing the

industrial competitiveness of asean and analysing the role of mnes against the background of the challenges of integration they illustrate that regional integration will only be a success if asean s linkages are broadened with global partners through negotiations of free trade agreements the book concludes that although much still remains to be done and many promises are still to be unveiled asean s coming of age is an historic milestone competitiveness of the asean countries will appeal to a broad readership including students academics and researchers with an interest in asian studies international business international economics and international law

Inter-industry Linkages in the Nigerian Economy, 1973-1977 1981

this is a comprehensive and detailed account of the economic history of puerto rico from the period of spanish colonial domination to the present interweaving findings of the new puerto rican historiography with those of earlier historical studies and using the most recent theoretical concepts to interpret them james dietz examines the complex manner in which productive and class relations within puerto rico have interacted with changes in its place in the world economy besides including aggregate data on puerto rico s economy the author offers valuable information on workers living conditions and women workers plus new interpretations of development since operation bootstrap his evaluation of the island s export oriented economy has implications for many other developing countries
