blackmagic forum view topic add opencolorio v2 as a color

Nov 28 2023

i would like to clarify that i am aware of the opencolorio effects that can be added to color nodes but i am specifically talking about adding ocio as a color science option just like davinci yrgb davinci yrgb color managed acescc and acescct there are a few things to work out input transforms input color spaces

how to build an aces pipeline between davinci resolve and

Oct 28 2023

select aces 1 2 again and select utility srgb texture from the dropdown for input space set the output space to aces aces2065 1 now our logo will be in the same aces space as our footage underneath selecting the input and output spaces for the opencolorio plugin in after effects

unreal to davinci resolve aces color matching

Sep 26 2023

i ve tried two different approaches in davinci converting the exr files through color management in project settings then changing aces input transform on the individual file in the media pool i ve tried both aces 1 2 github version and aces 1 3 ue built in version approach 2

houdini to davinci resolve fusion workflow paper krane

Aug 26 2023

luckily for us the ocio config is doing the major lifting for us simply create a karma lop navigate to the image output and inside of the filters tab you will see an ocio color filter add an ocio filter and set it to the beauty channel c render and you should be good to go

how to do exr multilayer compositing from blender to reddit

Jul 25 2023

in whatever install path you have blender there s a config ocio located in the install datafiles colormangement easiest way to get a 1 1 look between resolve and blender is to use the ocio colorspace occ node and load that file that gives you the alternative to use any of the color spaces that blender uses natively
