Textbook of Supply Chain Management 2010 the world of logistics has considerably changed due to globalization modern information technology and especially increasing ecological awareness large supply chain management scm systems are developing to global logistic networks this book reflects major trends of the recent decade in scm and additionally presents ideas and visions for logistic networks of the 21st century among the various aspects of scm emphasis is placed on reverse logistics closing the loop of a supply chain by integrating waste materials into logistic management decisions

Supply Chain Management and Advanced Planning 2005-12-06 corporate social responsibility has for long been on the agenda in the business world and recently it has also become a political agenda in the european union focusing on international supply chains and their control based on

studies of law in several european jurisdictions this book aims to advance the discussion on the application and enforcement of csr drawing parallels to us and canadian law the book explores to what extent private law tools can be used as an enforcement device and it ultimately asks if what we are witnessing is the formation of a new area of law employing the interplay of contract and tort a law of production liability as a corollary of the concept of product liability

Supply Chain Management for Humanitarians 2016-08-03 this handbook is a compilation of comprehensive reference sources that provide state of the art findings on both theoretical and applied research on sustainable fashion supply chain management it contains three parts organized under the headings of reviews and discussions analytical research and empirical research featuring peer reviewed papers contributed by researchers from asia europe and the us this book is the first to focus on sustainable supply chain management in the fashion industry and is therefore a pioneering text on this topic in the fashion industry disposable fashion under the fast fashion concept has become a trend in this trend fashion supply chains must be highly responsive to market changes and able to produce fashion products in very small quantities to satisfy changing consumer needs as a result new styles will appear in the market within a very short time and fashion brands such as zara can reduce the whole process cycle from conceptual design to a final ready to sell well produced and packaged product on the retail sales floor within a few weeks from the supply chain s perspective the fast fashion concept helps to match supply and demand and lowers inventory moreover since many fast fashion companies e g zara h m and topshop adopt a local sourcing approach and obtain supply from local manufacturers to cut lead time the corresponding carbon footprint is much reduced thus this local sourcing scheme under fast fashion would enhance the level of environmental friendliness compared with the more traditional offshore sourcing furthermore since the fashion supply chain is

notorious for generating high volumes of pollutants involving hazardous materials in the production processes and producing products by companies with low social responsibility new management principles and theories especially those that take into account consumer behaviours and preferences need to be developed to address many of these issues in order to achieve the goal of sustainable fashion supply chain management the topics covered include reverse logistics of us carpet recycling green brand strategies in the fashion industry impacts of social media on consumers disposals of apparel fashion supply chain network competition with eco labelling reverse logistics as a sustainable supply chain practice for the fashion industry apparel manufacturers path to world class corporate social responsibility sustainable supply chain management in the slow fashion industry mass market second hand clothing retail operations in hong kong constraints and drivers of growth in the ethical fashion sector the case of france and effects of used garment collection programmes in fast fashion brands
