Contact with Reality 2017-05-05 is knowledge discovered or just invented can we ever get outside ourselves to know how reality is in itself independent of us philosophical realism raises the question whether in our knowing we connect with an independent reality or only connect with our own mental constructs far from being a silly parlor game the question impacts our lives concretely and deeply modern western culture has been infected with antirealism and the doubt skepticism subjectivism relativism and atheism that attends it not to mention distrust and arbitrary mis use of reality premier scientist turned philosopher michael polanyi stepped aside from research to offer an innovative account of knowing that takes its cue from how discovery actually happens polanyi defied the antirealism of the twentieth century sounding a ringing note of hope in his repeated claim that in discovery we know we have made contact with reality because we have a sense of the possibility of indeterminate future manifestations and that sense marks contact with reality because it is the way reality is abundant generous and fraught with as yet unnameable possibilities this book examines that distinctive claim contrasting it to the wider philosophical discussions regarding realism and antirealism in the recent decades it shows why polanyi s outlook is superior and why that matters not just to scientific discoverers but to us all

Leadership and Politics 1989 in twelve essays influential scholars in political science explore the meaning of political leadership from the kaleidoscopic perspectives of the leaders institutions goals procedures problems and traditions involved the approaches as varied as the subject itself coalesce around the central question of how leaders interact with transform or are controlled by the organizations they lead

Esprit généreux, esprit pantagruélique 2008 these fifteen essays by former doctoral students now distinguished seiziemistes of francois rigolot meredith howland pyne professor of french literature at princeton university represent a tribute to his qualities as professor scholar and person who embodies both a montaignian esprit genereux and a rabelaisian pantagruelisme they pay homage to his renowned erudition and publications on all aspects of french renaissance literature his pedagogical skills his support of students and colleagues his leadership at princeton university and his inspirational personality the balanced mixture of creative imagination rigorous explication de texte and delightful personal rhetoric that characterizes professor rigolot s scholarly works still forms a source of inspiration for his students as is clear in this volume regrouping the major fields of interest in which the minds of magister and discipuli produced the most fruitful dialogues poetry the renaissance au feminin rabelais and montaigne spanning a wide variety of authors petrarch sceve ronsard cretin marguerite de navarre louise labe rabelais montaigne la boetie and pascal these studies for a tribute to the extraordinary breadth of professor rigolot s research interests

Under-Rewarded Efforts 2018-07-11 why has an economy that has done so many things right failed to grow fast under rewarded efforts traces mexico s disappointing growth to flawed microeconomic policies that have suppressed productivity growth and nullified the expected benefits of the country s reform efforts fast growth will not occur doing more of the same or focusing on issues that may be key bottlenecks to productivity growth elsewhere but not in mexico it will only result from inclusive institutions that effectively protect workers against risks redistribute towards those in need and simultaneously align entrepreneurs and workers incentives to raise productivity

From Poor Law to community care 1998-09-01 recent community care changes have raised fundamental issues about the changing role of the public voluntary and informal sectors in the provision of social care to older people they have also raised issues about the health and social care interface the extent to which services should be rationed and the respective roles of residential care and care at home from poor law to community care sets these debates in the context of the historical growth of welfare services from the outbreak of the second world war through to the establishment of social services departments in 1971 based on extensive research on primary sources such as the public records office and interviews with key actors the book considers the changing perceptions of the needs of elderly people the extent to which they have been a priority for resources and the possibilities for a policy which combines respect for elderly people with an avoidance of the exploitation of relatives this is an updated second edition of the development of welfare services for elderly people first published by croom helm 1985 it is essential reading for practitioners and policy makers interested in gerontology policy studies community care and postgraduate students studying and training in a range of health and social care related professions

The Fifth Crusade in Context 2016-10-14 the fifth crusade represented a cardinal event in early thirteenth century history occurring during what was probably the most intensive period of crusading in both europe and the holy land following the controversial outcome of the fourth crusade in 1204 and the decrees of the fourth lateran council in 1215 pope innocent iii s reform agenda was set to give momentum to a new crusading effort despite the untimely death of innocent iii in 1216 the elaborate organisation and firm crusading framework made it possible for pope honorius iii to launch and oversee the expedition the fifth crusade marked the last time that a medieval pope would succeed in mounting a full scale genuinely international crusade for the recovery of the holy land yet despite its significance it has largely been neglected in the historiography the crusade was much more than just a military campaign and the present book locates it in the contemporary context for the first time the fifth crusade in context is of crucial importance not only to

better understand the organization and execution of the expedition itself but also to appreciate its place in the longer history of crusading as well as the significance of its impact on the medieval world

Enlightenment in Dispute 2008-04-17 enlightenment in dispute is the first comprehensive study of the revival of chan buddhism in seventeenth century china focusing on the evolution of a series of controversies about chan enlightenment jiang wu describes the process by which chan reemerged as the most prominent buddhist establishment of the time he investigates the development of chan buddhism in the seventeenth century focusing on controversies involving issues such as correct practice and lines of lineage in this way he shows how the chan revival reshaped chinese buddhism in late imperial china situating these controversies alongside major events of the fateful ming qing transition wu shows how the rise and fall of chan buddhism was conditioned by social changes in the seventeenth century

The Abortion Debate in the World Arena 1999 using extensive interviews including discussions with heads of state and church and original research in kenya mexico and poland andrzej kulczycki examines how cultural history women s movements the catholic church and transnational influences have shaped abortion policies in those nations and beyond

Rhetorical Patterns that Have Emerged in the Debate Over the Shift to a "new Public Management" Policy Paradigm in Public Administration 1998 how can we harness the energy for change that lives in each of us in soul force nonprofit leaders reesheda graham washington and shawn casselberry offer seven pivots that unleash the creative energy within us toward courage community and change building on gandhi and martin luther king s concept of a power mightier than ourselves soul force moves us from barriers to bridge building self centeredness to solidarity consuming to creating and maintenance to movement packed with stories from the authors work with communities first association l ve café and mission year soul force invites readers on a journey from the societal shackles that bind to the spirit who frees from those working at the grassroots to those leading at the grass tips soul force offers a compelling and practical model for personal and collective transformation

Soul Force 2018-06-05 this food policy report reviews resilience processes activities and outcomes by examining a number of case studies of initiatives by nongovernmental organizations ngos to enhance resilience capacity and draws implications for policymakers and other stakeholders looking to strengthen resilience

RESILIENCE PROGRAMMING AMONG NONGOVERNMENTAL ORGANIZATIONS 2015-01-30 this edited volume represents the best of the scholarship presented at the 18th national communication association american forensic association conference on argumentation this biennial conference brings together a lively group of argumentation scholars from a range of disciplinary approaches and a variety of countries disturbing argument contains selected works that speak both to the disturbing prevalence of violence in the contemporary world and to the potential of argument itself to disturb the very relations of power that enable that violence scholars essays analyze a range of argument forms including body and visual argument interpersonal and group argument argument in electoral politics public argument argument in social protest scientific and technical argument and argument and debate pedagogy contributors study argument using a range of methodological approaches from social scientifically informed studies of interpersonal group and political argument to humanistic examinations of argument theory political discourse and social protest to creatively informed considerations of argument practices that truly disturb the boundaries of what we consider argument

Disturbing Argument 1997 work through the biases that hinder your ability to effectively communicate across race genders generations sexual orientation and political ideology filter shift describes the notion of unconscious filters how we create them how we perceive the world through them and how they control us the vast majority of us are persistently held back by our unconscious biases and misperceptions even with the best of intentions filter shift explores the unseen dynamics that get in the way providing a series of blueprints for success using a language that is easy to adapt and models that drive home concepts filter shift provides a foundation for understanding how our filters impact our interactions and thereby our ability to perform and interact with others in a positive way myrna marofsky author of the art of diversity training in the quest for increasing cultural competence for workplace effectiveness it is rare to find a skillful articulate coach like sara taylor donna rae sheffert leadership and management consultant

Shift 2016-12-13 the traditional educational landscape often struggles to keep pace with the rapid advancements in technology and the evolving needs of both students and educators this challenge has given rise to a crucial question how can we effectively harness the full potential of next generation educational technologies to shape a brighter future for education a solution to this very question can be found within the pages ofreshaping learning with next generation educational technologies this book delves deep into the convergence of artificial intelligence ai disruptive technologies and cutting edge educational practices revealing their transformative power through practical examples visionary insights and thought provoking analyses it provides a roadmap for educators researchers and professionals to navigate this changing educational landscape it s a call to action urging academia to seize the transformative potential of these groundbreaking technologies

Filter Shift 2024-05-06 this book takes stock of learning theories in the european union eu integration literature and assesses what insights the concept of learning has added to our understanding of the european integration processes given the european integration dynamics since 2000 including enlargement and new governance approaches and instruments learning and learning related theories have gained major eu significance the book addresses the less noticed micro level patterns of behavioural change that deserve more visibility in the eu s theoretical toolbox it focuses on the conditions under which eu actors in various decision making processes learn or do not learn in asking this question it raises issues about the eu s nature do the eu conditions that favour learning outweigh the eu conditions that inhibit learning is the eu system too complex for learning processes to have a discernible concrete impact to assess the degree that the eu system and its member states learn the authors selected for this volume are all explicitly comparative in their approach and have been encouraged to look at differences across political systems in doing so the authors study how eu member states eu institutions and other groups and organisations pursue learning across the multi level eu policy process this book was previously published as a special issue of journal of european public policy

Reshaping Learning with Next Generation Educational Technologies 1942 this book considers elicitive conflict transformation and its interrelation with humanistic psychology it discusses the transrational turn in the fields of diplomacy military development cooperation and political economy presenting a new model of conflict analysis with practical implications for peace work

Boeing Magazine 1928 examining the role of implicit unconscious thinking on reasoning decision making problem solving creativity and its neurocognitive basis for a genuinely psychological conception of rationality this volume contributes to a current debate within the psychology of thought that has wide implications for our ideas about creativity decision making and economic behavior the essays focus on the role of implicit unconscious thinking in creativity and problem solving the interaction of intuition and analytic thinking and the relationship between communicative heuristics and thought the analyses move beyond the conventional conception of mind informed by extra psychological theoretical models toward a genuinely psychological conception of rationality a rationality no longer limited to conscious explicit thought but able to exploit the intentional implicit level the contributors consider a new conception of human rationality that must cope with the uncertainty of the real world the implications of abandoning the normative model of classic logic and adopting a probabilistic approach instead the argumentative and linguistic aspects of reasoning and the role of implicit thought in reasoning creativity and its neurological base contributors maria bagassi linden j ball jean baratgin aron k barbey tilmann betsch eric billaut jean françois bonnefon pierre bonnier shira elqayam keith frankish gerd gigerenzer ken gilhooly denis hilton anna lang stefanie lindow laura macchi hugo mercier giuseppe mosconi ian r newman mike oaksford david over guy politzer johannes ritter steven a sloman edward j n stuppel ron sun nicole h therriault valerie a thompson emmanuel trouche raymond riccardo vialle

Learning and Governance in the EU Policy Making Process 2005 encyclopedia of evolutionary biology four volume set is the definitive go to reference in the field of evolutionary biology it provides a fully comprehensive review of the field in an easy to search structure under the collective leadership of fifteen distinguished section editors it is comprised of articles written by leading experts in the field providing a full review of the current status of each topic the articles are up to date and fully illustrated with in text references that allow readers to easily access primary literature while all entries are authoritative and valuable to those with advanced understanding of evolutionary biology they are also intended to be accessible to both advanced undergraduate and graduate students broad topics include the history of evolutionary biology population genetics quantitative genetics speciation life history evolution evolution of sex and mating systems evolutionary biogeography evolutionary developmental biology molecular and genome evolution coevolution phylogenetic methods microbial evolution diversification of plants and fungi diversification of animals and applied evolution presents fully comprehensive content allowing easy access to fundamental information and links to primary research contains concise articles by leading experts in the field that ensures current coverage of each topic provides ancillary learning tools like tables illustrations and multimedia features to assist with the comprehension process

The Perplexing Shift from Shortage to Surplus 2013-07-29 all you need to make the shift to stem a reality this resource makes the process of shifting to a comprehensive integrated stem school or district within reach invaluable case studies featuring stem pioneers model how successful stem centered learning takes place you ll find process specific best practices and strategies to help you understand create and lead the stem change process prepare the school community for stem integrate 21st century skills the arts and humanities includes step by step checklists and visual mapping guides use this groundbreaking resource to systematically implement stem instruction that prepares students for the global economy

Elicitive Conflict Transformation and the Transrational Shift in Peace Politics 2016-03-18 understand what s required to deliver top of

the line customer experiences as organizations around the world do their best to deliver meaningful effective and efficient customer experiences many are encountering difficulty translating their actions into progress these businesses find that despite a plethora of initiatives programs and plans inclusive and excellent customer service remains stubbornly out of reach in shift transform motion into progress in business chief strategy and marketing officers at merkle and dentsu offer business leaders a practical and coherent approach to creating the consistently exceptional customer experience that would set their business apart from the competition the authors link three key themes a clear vision with clear performance indicators an aligned team and a deep understanding of the marketplace and outline their importance in the quest for the ideal client experience they explain the importance of measuring progress through the eyes of the customer and ensuring that the measures that matter to customers are improving a necessary addition to the reading lists of innovation and business development professionals shift deserves a place on the bookshelves of managers executives and other business leaders attempting to set their organization apart from the competition

Cognitive Unconscious and Human Rationality 2016-04-14 the antebellum period has long been identified with the belated emergence of a truly national literature and yet as meredith l mcgill argues a mass market for books in this period was built and sustained through what we would call rampant literary piracy a national literature developed not despite but because of the systematic copying of foreign works restoring a political dimension to accounts of the economic grounds of antebellum literature mcgill unfolds the legal arguments and political struggles that produced an american culture of reprinting and held it in place for two crucial decades in this culture of reprinting the circulation of print outstripped authorial and editorial control mcgill examines the workings of literary culture within this market shifting her gaze from first and authorized editions to reprints and piracies from the form of the book to the intersection of book and periodical publishing and from a national literature to an internally divided and transatlantic literary marketplace through readings of the work of dickens poe and hawthorne mcgill seeks both to analyze how changes in the conditions of publication influenced literary form and to measure what was lost as literary markets became centralized and literary culture became stratified in the early 1850s american literature and the culture of reprinting 1834 1853 delineates a distinctive literary culture that was regional in articulation and transnational in scope while questioning the grounds of the startlingly recent but nonetheless powerful equation of the national interest with the extension of authors rights

what makes human consciousness unique john parrington draws on early russian ideas and the latest neuroscience to argue that humans went through a mind shift when we developed language and words and the shared cultural world they enabled altered our brains and have shaped them ever since

Encyclopedia of Evolutionary Biology 1978 this book is about that idea and how it can be used to develop consistency across shifts in residential and health settings it demonstrates that passing information productively from one shift to another is not about the information itself but about the context in which the passing takes place

The STEM Shift 2022-01-25 although the name pithecanthropus is now seldom used there are few who study the origin of our species who will fail to recognise the historical place of the usage and its association with eugene dubois during the last thirty or forty years australopithecus and its african context has tended to draw attention from the early work on our origins in java it is now increasingly common to hear the term pithecanthropine used only to indicate the asian or far eastern examples of homo erectus which although probably derived from african ancestry have some features that in the opinion of some experts may justify their being considered distinctive this discussion is not within the pages that follow which deal extensively with the work of eugene dubois he was an extraordinary man who did as much as any person since to put the great antiquity of our ancestors firmly in the public domain dubois became involved with the study of human origins from a medical and anatomical background as have many since the jealousies and professional pressures that we think of as a phenomenon of the post war years were clearly a major factor in deciding the future of his career

A Critical Review of the Literature on Shift-share as a Forecasting Technique 2013-10-11 topics in the book determinants of maternal and child health care service utilization among mothers of mount elgon constituency bungoma kenya factors influencing male involvement in safe motherhood among communities in kwale and kilifi in coastal kenya socio cultural characteristics on male involvement in safe motherhood among communities in kwale and kilifi in coastal kenya using novel nutritional assessment tool to assess the nutritional status of the elderly in mazenod the case of old age pension scheme in lesotho factors influencing low birth weight lbw among mother neonate pairs and associated health outcomes at coast general hospital mombasa county kenya factors influencing health workers performance in public health facilities in the devolved system of government a case of embakasi east sub county nairobi county

Shift 1974 new technologies are dramatically changing the face of education and the nature of childhood itself in shift to the future nicola yelland examines the ways in which these technologies are reshaping the social personal and educational experiences of

childhood and explores the curricular revisions such changes demand with a focus on the various information and communications technologies icts available to young students and the possibilities these icts offer for teaching and learning shift to the future provides inspiring examples of teachers who have innovatively incorporated new technologies into their classrooms to engage their students in contemporary times

American Literature and the Culture of Reprinting, 1834-1853 2021 no group of american minority voters shifted allegiance more dramatically in the 1930s than black americans did up until the new deal era blacks had shown their traditional loyalty to the party of lincoln by voting overwhelmingly the republican ticket by the end of f d roosevelt s first administration however they tremendously voted the democratic ticket the decades long wholesale attachment of blacks to the party of lincoln with its laudable efforts to support blacks emancipation proclamation and reconstruction was understandable and inevitable enough the anomaly was the massive shift by blacks to the democratic party traditionally identified with its long list of constant anti black and premeditated opposition to black liberation opposition to emancipation and reconstruction and with an ongoing record of all forms of racial discrimination segregation disfranchisement exclusion white primaries and white supremacy the transformation of the black vote from solidly republican to solidly democratic did not happen instantaneously but rather it developed over decades of maturing as a result of the amalgamated efforts of presidents and black leaders the move of black voters toward the democratic party was part of a nationwide trend that had occurred with the creation of the roosevelt coalition of 1936 this national shift would make the democrats the majority party for the next several decades including a very decisive margin of black voters in the balance of power

New Zealand Foreign Affairs Review 2018-05-30 this book first published in 2000 provides an overview of theories of the state found in international relations

Mind Shift 2012-12-06 double shift looks at the history of working mothers and explores issues such as improved childcare and the vexed question of maternity leave

Handing Over 2023-08-29 developments in technologies have evolved in a much wider use of technology throughout science government and business resulting in the expansion of geographic information systems gis is the academic study and practice of presenting geographical data through a system designed to capture store analyze and manage geographic information geographic information systems concepts methodologies tools and applications is a collection of knowledge on the latest advancements and research of geographic information systems this book aims to be useful for academics and practitioners involved in geographical data
