Mission Praise 1990-12 theology shaped by society argues that the sociology of knowledge can make an important contribution to theology part i argues that theology can be seen as a socially constructed reality that is sometimes dangerously related to power but at other times that is a positively engaged discipline taking the risk of being shaped by particular societies and cultures from this second perspective theology is seen properly as a thoroughly relational discipline as itself a social system part ii examines mission shaped by society and maps this in practical terms by examining recent and surprising religious trends in york part iii shows how music can imaginatively shape theology and reveal unexpected resonances over the last 30 years a number of theologians have been using aspects of sociology alongside the more traditional resources of philosophy in turn sociologists with an interest in theology have also contributed to an interaction between theology and sociology the time is right to revisit the dialogue between theologians and sociologists in his new trilogy on sociological theology robin gill makes a renewed contribution to the mapping of three abiding ways of relating theology and sociology with the

Mission Praise 1999-09-09 women have made an amazing creative and prolific contribution to hymnody through the centuries of christian worship excluded from liturgical commissions and denied other opportunities for involvement in the worship of the churches women were able to express and influence spirituality in the writing of hymns this influence spreads across the whole range of hymn writing including writing for children which was at one time seen as women s natural place but also the introduction of new voices through translations engagement in social campaigns such as temperance and the abolition of slavery mission and evangelism and the general development of worshipping life however with the exception of the nineteenth century the voices of women have been largely silenced or marginalized the hymn explosion of the 1960s onward almost completely ignored women s writing and there has only recently been something of a recovery there is much more to our song than people think this book opens up women s writing from the beginnings of christianity through the middle ages the development of printing and the rise of popular hymnody to the present day living hymn writers add their voices in a series of biographical stories which complete the overarching story of our song
