

worst annual economic growth performance in 2020 since the fall of the saddam regime but with every crisis comes an opportunity to reform iraq can embark on a long but much needed path toward structural transformation one that could leave its economy less dependent on oil and more driven by private sector activity such a path can no longer be avoided as has been illustrated by the widespread protests since october 2019 this report highlights what iraq can do to sustain future growth it also shows why iraq has not yet managed to achieve high levels of diversified growth alongside peace stability and a better standard of living for its people iraq s high levels of fragility and conflict reinforced by high oil dependency hinder the country s prospects for economic reform and growth despite iraq s existing sociopolitical and economic environment three encouraging messages emerge from this report first there is a peace dividend in iraq iraq s per capita gdp was about one fifth lower in 2018 than it would have been if not for the conflict beginning in 2014 thus maintaining peace can by itself be a strong driver of growth second iraq has latent export potential for a variety of goods that if tapped could diversify the country s economy raise living standards and boost economic resilience third iraqi agriculture could be revived to serve as a pillar of a more diversified and private sector led economy

there have been major advancements in the pharmacologic treatment of eye diseases over the past decade with newly discovered disease targets and novel approaches to deliver therapeutic compounds to the eye patients are seeing improved outcomes not only are there better treatments for diseases where treatments existed we now have effective therapy for previously untreatable and blinding eye disorders this volume will cover the pharmacologic treatment of eye diseases from the front of the eye including eyelids conjunctiva and cornea all the way back to the retina and optic nerve the first section of the volume reviews general principles of ocular pharmacology pharmacokinetics pharmaceutical sciences and drug delivery in addition the volume provides an up to date guide to the pharmacologic approach to the key eye diseases that threaten sight or ocular function vols for 1963 include as pt 2 of the jan issue medical subject headings
