Pediatric Anesthesia, An Issue of Anesthesiology Clinics, E-Book

2020-09-01

in contemporary society public services struggle to maintain a high quality of service if the authority responsible for the service delivery experiences resource deficit and increased uncertainties and vulnerabilities this thesis explores how information and communication technology ict can enable new types of network collaborations co production between government municipalities and citizens for a more effective crisis and emergency response this is explored in the light of digitalization and taking an end user perspective the thesis s first objective is to describe the transformation toward ict enabled co production the second objective is to identify opportunities and challenges involved in ict enabled co production the thesis s method includes two case studies supported by various theories and approaches network collaboration including co production sociotechnical systems and end user involvement the data collection is conducted using semi structured interviews focus groups user participation techniques and document reviews the intended audience is practitioners local government and national agencies and researchers within crisis and emergency response information systems is and public administration research disciplines and domains e g co production the description of the transformation toward ict enabled coproduction in crisis and emergency response is a result in its

own right here the citizen volunteers become involved in the actual delivery of the response despite non specific competence and non organizational affiliation in relation to the transformation toward co production the thesis concludes that digitalization facilitates end user involvement in the ict development process and increases their influence if open systems as mobile technologies are used end users can adapt the technology on their own and add technologies without the support of the formal developer or local government the thesis also identifies opportunities and challenges of ict enabled co production examples of opportunities include citizen volunteers having a high degree of engagement being an effective complement to professional responders and increasing perceived safety in the community this informal structure of co production enabled by ict minimizes the need for local governments to spend resources on managing collaboration examples of challenges include the lack of organizational affiliation of volunteers e g integration of citizen volunteers i e end users with non organizational affiliation in the technology of the ict system and aspects of formal and social control regulation and moral and privacy issues the thesis contributions include enriched knowledge of essential aspects to consider when developing ict enabled co production with an end user perspective and an understanding of the transformation of the application domain over time and the implications of ict enabled coproduction this makes it easier to comprehend and develop contemporary and future co productions the thesis is perceived

to have high originality and value since it studies time periods in which local government technology and crisis and emergency response have undergone dramatic changes and explores one of the first swedish empirical initiatives involving citizen volunteers as responders avhandlingen undersöker hur informations och kommunikationsteknik ikt kan möjliggöra nya typer av nätverkssamverkan co production mellan offentliga aktörer kommuner i detta fall och frivilliga civila medborgare för att på så sätt få en mer effektiv hantering av kriser och olyckor detta görs med bakgrund av minskade resurser i offentlig service ökad digitalisering och med fokus på slutanvändare som inte tillhör en formell organisation avhandlingen beskriver förändringen till ikt möjliggjord co production där frivilliga medborgare larms ut trots avsaknad av specifik kompetens för uppdraget och organisatorisk tillhörighet avhandlingen identifierar även möjligheter och utmaningar när kommuner co producerar med frivilliga medborgare möjligheter inkluderar t ex högt engagemang från frivilliga medborgare och att de är ett effektivt komplement till de professionella aktörerna utmaningar innefattar t ex svårigheter med ikt integration av slutanvändare utan organisatorisk tillhörighet samt legala och etiska oklarheter avhandlingen bidrar med kunskap om viktiga aspekter att beakta när ikt möjliggjord co production utvecklas för att på så sätt underlätta förståelse och utveckling av framtida co productions avhandlingen har hög originalitet och värde då den undersöker två tidsperioder där

lokal offentlig sektor digital teknik och hantering av kriser och olyckor har genomgått dramatiska förändringar samt undersöker ett av de första svenska initiativen där civila medborgare larmas ut som första insatspersoner
