this comprehensive textbook by the editor of law and the internet seeks to provide students practitioners and businesses with an up to date and accessible account of the key issues in internet law and policy from a european and uk perspective the internet has advanced in the last 20 years from an esoteric interest to a vital and unavoidable part of modern work rest and play as such an account of how the internet and its users are regulated is vital for everyone concerned with the modern information society this book also addresses the fact that internet regulation is not just a matter of law but increasingly intermixed with technology economics and politics policy developments are closely analysed as an intrinsic part of modern governance law policy and the internet focuses on two key areas e commerce including the role and responsibilities of online intermediaries such as google facebook and uber and privacy data protection and online crime in particular there is detailed up to date coverage of the crucially important general data protection regulation which came into force in may 2018 a significant contribution to the field and a welcome addition to the growing literature on international environmental law and an important reference for every scholar lawyer and layperson interested in the field this is the fifth volume in a series on research in law and policy studies it is divided into eight sections on constitutional rights questionable criminal wrongdoing economic regulation jury decision making imprisonment and execution women and children legal services and legal philosophy laws exist to incentivize us to act in a certain manner in accordance with the policies that our community has deemed right for us and when we disagree with those laws we must re examine our policies and thus our beliefs and ideas to decide whether our community has changed this is a book about law and public policy about the ideas and the rules we build to implement those rules while similar books have looked at public policy and public administration in an effort to explain how the government works and others have considered the foundations of the legal system to understand the rulemaking institutions this book takes a different approach in this ground breaking new textbook author kevin fandl develops a complete picture of society from idea to action by examining laws through the lens of policy and vice versa this holistic approach gives readers a chance to see not only why certain rules exist but how those rules evolved over time and the events that inspired them it offers readers an opportunity not only to see but also to participate in the process of forming the structures that shape our society this textbook is divided into two sections the first section provides readers with the tools that they will need to digest the policies and laws that surround them these tools include a historical deep dive into the foundations of the governance structure in the united states and beyond an important examination of civics and a reminder of the importance of engaging in the policymaking process a careful breakdown of the institutions that form the backbone of the law and policy making institutions in the united states and finally critical thinking including practical tools to find reliable sources for news research and other types of information the second section of the text is comprised of subject matter analyses these subject based chapters written by experts on the topic at hand begin with a historical perspective followed by a careful examination of the key policies and laws that inform that field each chapter highlights key vocabulary provides practical vignettes to add context to the writing explores a unique global component to compare perspectives from communities worldwide and includes a number of discussion questions and recommended readings for further examination this textbook is tailored specifically for undergraduate and graduate students of public policy to introduce them to the role of law and legal institutions as facilitators and constraints on public policy exploring those laws in a range of relevant policy contexts with the help of short case studies international human rights problems of law policy and practice seventh edition by hurst hannum s james anaya dinah shelton and rosa celorio human rights and international humanitarian law and international criminal law updated examination of the domestic enforcement of international human rights law this is a book for an extraordinary time about a pandemic for which there is no modern precedent it is an edited collection of original essays on asia s legal and policy responses to the covid 19 pandemic which in a matter of months swept around the globe infecting millions it transformed daily life in almost every corner of the planet lockdowns of cities and entire countries physical distancing and quarantines travel restrictions and border controls movement tracking technology mandatory closures of all but essential services economic devastation and mass unemployment and government assistance programs on record breaking scales yet a pandemic on this scale under contemporary conditions of globalization has left governments and their advisors scrambling to improvise solutions often themselves unprecedented in modern times such as the initial lockdown of wuhan this collection of essays analyzes law and policy responses across asia identifying cross cutting themes and challenges it taps the collective knowledge of an interdisciplinary team of sixty one researchers both in the service of policy development and with the goal of establishing a scholarly baseline for research after the storm has passed the collection begins with an epidemiological overview and survey of the law and policy themes the jurisdiction specific case studies and cross cutting thematic essays cover five topics first wave containment measures emergency powers technology science and expertise politics religion and governance and economy climate and sustainability chapter 20 cambodia public health economic and political dimensions by ratana ly vandanaet hing kimsan soy is available for free written by two leading specialists in mental health law this book provides a detailed overview of the law and the socio legal historical sociological and cultural issues that surround it mental health law at its heart involves the forcible confinement and medication of some of society s most vulnerable people with reference to recent cases and new legislation peter bartlett and ralph sandland analyze the legal structure and functions of the mental health system the problems inherent in characterizing mental health law and the social and human rights issues of those who suffer from mental illness the legal issues described contain implied premises as to what it is to be a citizen what the role of the state is for the vulnerable and what the relative roles of law and medicine are in the regulation of control and deviance mental health law is an area of considerable legal and social complexity and the authors challenge readers to question the system and the policies that have been developed online resource centre updates links awarded by book authority one of the best public health books of all time essentials of health policy and law fourth edition explores the essential policy and legal issues impacting and flowing out of the healthcare and public health systems and the way health policies and laws are formulated concise and straightforward this textbook is an introduction to the seminal issues in u s health policy and law with a particular focus on national health reform under the affordable care act aca all ten of the living former u s state department legal advisers from the carter administration to that of george w bush examine the role international law played during the major crises on their watch this book offers fresh approaches to a variety of social and political issues that have become highly polarized and resistant to compromise by examining them through a population based public health perspective the topics included are some of the most contentious abortion and reproductive rights end of life issues including the right to die and the treatment of pain the connection between racism and poor health outcomes for african americans the right of same sex couples to marry the toll of gun violence and how to reduce it domestic violence and how the criminal justice model fails to deal with it effectively and how tort compensation and punitive damages can further public health goals people at every point along the political spectrum will find the book enlightening and informative written by eight authors all of whom have cross disciplinary expertise this book shifts the focus away from the point of view of rights politics or morality and examines the effect of laws and policies from the perspective of public health and welfare this is the first collection to examine the legal dynamics of deinstitutionalisation it considers the extent to which some contemporary laws policies and practices affecting people with disabilities are moving towards the promised end point of enhanced social and political participation in the community while others may instead reinstate continue or legitimate historical practices associated with this population s institutionalisation bringing together 20 contributors from the uk canada australia spain and indonesia the book speaks to overarching themes of segregation and inequality interlocking forms of oppression and rights based advancements in law policy and practice ultimately this collection brings forth the possibilities limits and contradictions in the roles of law and policy in processes of institutionalisation and deinstitutionalisation and directs us

towards a more nuanced and sustained scholarly and political engagement with these issues this volume proposes a new way of understanding the policymaking process in the united states by examining the complex interactions among the three branches of government executive legislative and judicial collectively across the chapters a central theme emerges that the u s constitution has created a policymaking process characterized by ongoing interaction among competing institutions with overlapping responsibilities and different constituencies one in which no branch plays a single static part at different times and under various conditions all governing institutions have a distinct role in making policy as well as in enforcing and legitimizing it this concept overthrows the classic theories of the separation of powers and of policymaking and implementation specifically the principal agent theory in which congress and the presidency are the principals who create laws and the bureaucracy and the courts are the agents who implement the laws if they are constitutional the book opens by introducing the concept of adversarial legalism which proposes that the american mindset of frequent legal challenges to legislation by political opponents and special interests creates a policymaking process different from and more complicated than other parliamentary democracies the chapters then examine in depth the dynamics among the branches primarily at the national level but also considering state and local policymaking originally conceived of as a textbook because no book exists that looks at the interplay of all three branches it should also have significant impact on scholarship about national lawmaking national politics and constitutional law intro conclusion and dodd s review all give good summaries this volume contains relevant and pressing issues in the law policy and the practice of art and cultural heritage protection the role of formal and informal institutional forces in changing three areas of u s public policy privacy rights civil rights and climate policy there is no finality to the public policy process although it s often assumed that once a law is enacted it is implemented faithfully even policies believed to be stable can change or drift in unexpected directions the fourth amendment for example guarantees americans privacy rights but the 9 11 terrorist attacks set off one of the worst cases of government sponsored espionage policy changes instituted by the national security agency led to widespread warrantless surveillance a drift in public policy that led to lawsuits challenging the constitutionality of wiretapping the american people much of the research in recent decades ignores the impact of large scale slow moving secular forces in political social and economic environments on public policy in policy drift norma riccucci sheds light on how institutional forces collectively contributed to major change in three key areas of u s policy privacy rights civil rights and climate policy without any new policy explicitly being written formal levers of change u s supreme court decisions inaction by congress presidential executive orders stimulated by social political or economic forces organized permutations which ultimately shaped and defined contemporary public policy invariably implementations of new policies are embedded within a political landscape this book explores patient safety themes in developed developing and transitioning countries a foundation premise is the concept of reverse innovation as mutual learning from the chapters challenges traditional assumptions about the construction and location of knowledge this edited collection can be seen to facilitate global learning this book will hopefully form a bridge for those countries seeking to enhance their patient safety policies contributors to this book challenge many supposed generalisations about human societies including consideration of how medical care is mediated within those societies and how patient safety is assured or compromised by introducing major theories from the developing world in the book readers are encouraged to reflect on their impact on the patient safety and the health quality debate the development of practical patient safety policies for wider use is also encouraged the volume presents a ground breaking perspective by exploring fundamental issues relating to patient safety through different academic disciplines it develops the possibility of a new patient safety and health quality synthesis and discourse relevant to all concerned with patient safety and health quality in a global context critics of the world trade organization argue that its binding dispute settlement process imposes a neoliberal agenda on its member states with little to no input from their citizenry or governments if this is the case why would any nation agree to participate in international trade law and domestic policy jacqueline krikorian explores this question by examining the impact of the wto s dispute settlement mechanism on domestic policies in the united states and canada she demonstrates that the wto s ability to influence domestic arrangements has been constrained by three factors judicial deference institutional arrangements and strategic decision making by political elites in ottawa and washington in this groundbreaking assessment of whether supranational courts are now setting the legislative agenda of sovereign nations krikorian brings the insights of law and politics scholarship to bear on a subject matter traditionally addressed by international relations scholars by doing so she shows that the classic division between these two fields of study in the discipline of political science though suitable in the postwar era is outdated in the context of a globalized world it is the merit of this book to present the human rights council in terms of its mandates roles and organization while seeking to remind the membership and the international community at large that the council must be anchored in the modern human rights law of the charter of which the author gives a superb presentation the book then proceeds to make the case that human rights are part of international constitutional law and this is exceedingly important at a time when universal values have come under stress from various quarters including from terrorist formations the argument of the book is essentially that the modern human rights law of the charter and the human rights provisions of international constitutional law must take precedence for everyone everywhere the initial idea for this book germinated when the editors organised a conference panel on the interface of law and public policy in 2017 several papers in this book were first presented during the third international conference of public policy held between 28 30 june 2017 at lee kuan yew school of public policy singapore ecip preface excerpt from english poor law policy the principle of prevention the mosul factor in the problem of destitution the sphere of voluntary agencies in the prevention of destitution thank you for being an important part of keeping this knowledge alive and relevant the novel coronavirus sars cov 2 which causes the disease known as covid 19 has infected people in 212 countries so far and on every continent except antarctica vast changes to our home lives social interactions government functioning and relations between countries have swept the world in a few months and are difficult to hold in one s mind at one time that is why a collaborative effort such as this edited multidisciplinary collection is needed this book confronts the vulnerabilities and interconnectedness made visible by the pandemic and its consequences along with the legal ethical and policy responses these include vulnerabilities for people who have been harmed or will be harmed by the virus directly and those harmed by measures taken to slow its relentless march vulnerabilities exposed in our institutions governance and legal structures and vulnerabilities in other countries and at the global level where persistent injustices harm us all hopefully covid 19 will forces us to deeply reflect on how we govern and our policy priorities to focus preparedness precaution and recovery to include all not just some published in english with some chapters in french the chapters in this book explore the patient safety managerial structures that exist in countries where there are developed patient safety infrastructures and cultures the legal structures of these countries are explored and related to major in country patient safety issues in order to draw comparisons and conclusions on patient safety state pensions are the largest item in the uk social security budget costing 96 7 billion in 2017 18 in the same year 45 6 million people were members of uk occupational pension schemes out of a total population of 66 4 million and the total amount saved into workplace schemes in 2018 was 90 4 billion a consequence of the pensions sector s large size has been that pensions law and social security law have become increasingly specialised areas of practice yet despite their social and economic importance and the fascinating legal issues they generate pensions have not been the subject of sustained academic attention this book starts to fill this gap by initiating a dialogue between practitioners and scholars working on pensions law and policy groups who have much to learn from one another this book analyses the law and policy of migration in the european union eu and its relationship to understandings of the eu as an international human rights actor this volume describes the central issues animating the dynamic u s taiwan china relationship and the salient international and domestic legal issues shaping u s policy in the asia pacific region lung chu chen gives particular attention taiwan s status under international law and the role of the u s taiwan relations act tra in the formulation and execution of u s policy toward taiwan this book explains compares and evaluates the social and legal functions of adoption within a range of selected jurisdictions and on an international basis it updates and extends the second edition published by springer in 2009 from a standpoint of the development of adoption in england wales and the changes currently taking place there it considers the process as it has evolved in other countries it identifies themes of commonality and difference in the experience of adoption in a common law context as compared and contrasted with that of other countries it looks at adoption in france sweden and other civil law countries as well as japan and elsewhere in asia including a focus on islamic adoption it examines the experience of indigenous people in new zealand and australia contrasting the highly regulated legal process of modern western society with the traditional practice of indigenous communities such as the maori a new chapter studies adoption in china the book uses the international conventions and associated ecthr case law to benchmark developments in national law policy and practice and to facilitate a cross cultural comparative analysis changes in family structures demographics social attitudes and economic policies over the last sixty years have had a large impact on family lives and correspondingly on family law the second edition of this handbook draws upon recent developments to provide a comprehensive and up to date global perspective on the policy challenges facing family law and policy round the world the chapters apply legal sociological demographic and social work research to explore the most significant issues that have been commanding the attention of family law policy makers in recent years featuring contributions from a range of renowned global experts the book draws on multiple jurisdictions and offers comparative analysis across a range of countries the book addresses a range of issues including the role of the state in supporting families and protecting the vulnerable children s rights and parental authority sexual orientation same sex unions and gender in family law the status of marriage and other forms of adult relationships it also focuses on divorce and separation and their consequences the relationship between civil law and the law of minority groups refugees migrants and movement of family members between jurisdictions along with assisted conception surrogacy and adoption this advanced level reference work will be essential reading for students researchers and scholars of family law and social policy as well as policy makers in the field care is central to life and yet is all too often undervalued taken for granted and hidden from view this collection of fourteen substantive and highly innovative essays along with its insightful introduction seeks to explore the different dimensions of care that shape social legal and political contexts it addresses these dimensions in four key ways first the contributions expand contemporary theoretical understandings of the value of care by reflecting upon established conceptual approaches such as the ethics of care and developing new ways of using and understanding this concept second the chapters draw on a wide range of methods from doctrinal scholarship through ethnographic empirical and biographical research methodologies third the book

enlarges the usual subjects of care research by expanding its analysis beyond the more typical focus on familial interconnection to include professional care contexts care by strangers and care for and about animals finally the collection draws on contributions from academics working in europe and australia across law anthropology gender studies politics psychology and sociology by highlighting the points of connection and tension between these diverse international and disciplinary perspectives this book outlines a new and nuanced approach to care exploring contemporary understandings of care across law the social sciences and humanities a sourcebook for students and practitioners who are interested in international business transactions and want to gain familiarity with the law and practice of international trade law policies and ethics each chapter deals with an important aspect of international trade and business this text investigates the ethical and political justifications for the international legal regime protecting the environment and analyses in detail the myriad challenges these justifications can face a critical overview of european union energy law and policy this book takes a law in context approach as it examines the development of eu energy law from the 1950s to the present day it discusses the development of eu energy law the application of general eu law into energy the regulation of eu energy markets international aspects of eu energy law and policy sustainability and energy regulation presenting an up to date overview of eu energy law and policy and a critical analysis of its sub areas the book extends the discussion from electricity and natural gas markets to other areas of energy including oil this holistic approach to the subject is then placed within the broader context of the international geopolitical sphere which eu energy law and policy operates as the author considers the impact of regional and international energy policies and markets on the eu markets and the overall eu policy he also draws on the wider context and takes into account non legal factors such as the impact of unconventional the rise of the brics and the arab spring the book frames eu energy law as a topic that can provoke intellectual political and professional discussion about the slowly moving train of economic regulation under the typical pressures and contradictions of countries and the european union in the global economy this innovative and popular casebook focuses on teaching antitrust through the best legal precedents available it emphasizes current judicial opinions and includes dissents where relevant to help students grasp the issues the notes reflect a balanced approach to the competing ideologies of left right and center confronting their defects and presenting their strengths professors who are strongly committed to a particular ideology should find plenty of material to criticize or alternatively to illustrate their view the ninth edition of the casebook is being published on the 40th anniversary of the publication of the inaugural edition of this leading antitrust casebook specific updates for this edition include updates on the cyclical nature of antitrust endorsement theories and trends with a focus on the biden administration including a return to a progressive neo brandeis antimonopoly approach concerning increased economic power and its effect on concentration in the marketplace affecting consumers and workers and leading to inequality in society and ultimately democracy developments in the per se rule for price fixing including labor cartels anti poaching agreements and the possibility of criminal prosecution treatment of the amg capital management case narrowing the ability of the ftc to award monetary relief and axon enterprises which permitted courts to consider the status and protections of the ftc s administrative law judges discussing amendments to venue legislation that make it more difficult for actions brought by multiple state attorneys general to be transferred and consolidated the celestin and blenheim decisions limiting the reach of the act of state doctrine and expanding the scope of foreign sovereign immunity discussion of the steve s case permitting a private plaintiff to obtain structural relief in a merger case discussion of the termination of the paramount consent decree which had imposed restrictions on distribution in the motion picture industry excerpt and discussion of supreme court s national collegiate athletic association v alston opinion discussion of no poach agreements as a form of market division new note on antitrust and worker noncompete agreements as well as the ftc s assertion of rule making authority to ban most such agreements discussion of the tying and exclusive dealing claims in the epic games v apple case as well as other platform dominance cases new note on the criminal prosecution of illegal monopolies

this is the first collection to examine the legal dynamics of deinstitutionalisation it considers the extent to which some contemporary laws policies and practices affecting people with disabilities are moving towards the promised end point of enhanced social and political participation in the community while others may instead reinstate continue or legitimate historical practices associated with this population s institutionalisation bringing together 20 contributors from the uk canada australia spain and indonesia the book speaks to overarching themes of segregation and inequality interlocking forms of oppression and rights based advancements in law policy and practice ultimately this collection brings forth the possibilities limits and contradictions in the roles of law and policy in processes of institutionalisation and deinstitutionalisation and directs us towards a more nuanced and sustained scholarly and political engagement with these issues

Essentials of Health Policy and Law 2019-03-18

this volume proposes a new way of understanding the policymaking process in the united states by examining the complex interactions among the three branches of government executive legislative and judicial collectively across the chapters a central theme emerges that the u s constitution has created a policymaking process characterized by ongoing interaction among competing institutions with overlapping responsibilities and different constituencies one in which no branch plays a single static part at different times and under various conditions all governing institutions have a distinct role in making policy as well as in enforcing and legitimizing it this concept overthrows the classic theories of the separation of powers and of policymaking and implementation specifically the principal agent theory in which congress and the presidency are the principals who create laws and the bureaucracy and the courts are the agents who implement the laws if they are constitutional the book opens by introducing the concept of adversarial legalism which proposes that the american mindset of frequent legal challenges to legislation by political opponents and special interests creates a policymaking process different from and more complicated than other parliamentary democracies the chapters then examine in depth the dynamics among the branches primarily at the national level but also considering state and local policymaking originally conceived of as a textbook because no book exists that looks at the interplay of all three branches it should also have significant impact on scholarship about national lawmaking national politics and constitutional law intro conclusion and dodd s review all give good summaries

Reconsidering Law and Policy Debates 2014-05-01

the role of formal and informal institutional forces in changing three areas of u s public policy privacy rights civil rights and climate policy there is no finality to the public policy process although it s often assumed that once a law is enacted it is implemented faithfully even policies believed to be stable can change or drift in unexpected directions the fourth amendment for example guarantees americans privacy rights but the 9 11 terrorist attacks set off one of the worst cases of government sponsored espionage policy changes instituted by the national security agency led to widespread warrantless surveillance a drift in public policy that led to lawsuits challenging the constitutionality of wiretapping the american people much of the research in recent decades ignores the impact of large scale slow moving secular forces in political social and economic environments on public policy in policy drift norma riccucci sheds light on how institutional forces collectively contributed to major change in three key areas of u s policy privacy rights civil rights and climate policy without any new policy explicitly being written formal levers of change u s supreme court decisions inaction by congress presidential executive orders stimulated by social political or economic forces organized permutations which ultimately shaped and defined contemporary public policy invariably implementations of new policies are embedded within a political landscape

this book explores patient safety themes in developed developing and transitioning countries a foundation premise is the concept of reverse innovation as mutual learning from the chapters challenges traditional assumptions about the construction and location of knowledge this edited collection can be seen to facilitate global learning this book will hopefully form a bridge for those countries seeking to enhance their patient safety policies contributors to this book challenge many supposed generalisations about human societies including consideration of how medical care is mediated within those societies and how patient safety is assured or compromised by introducing major theories from the developing world in the book readers are encouraged to reflect on their impact on the patient safety and the health quality debate the development of practical patient safety policies for wider use is also encouraged the volume presents a ground breaking perspective by exploring fundamental issues relating to patient safety through different academic disciplines it develops the possibility of a new patient safety and health quality synthesis and discourse relevant to all concerned with patient safety and health quality in a global context

The Legacies of Institutionalism 2020

critics of the world trade organization argue that its binding dispute settlement process imposes a neoliberal agenda on its member states with little to no input from their citizenry or governments if this is the case why would any nation agree to participate in international trade law and domestic policy jacqueline krikorian explores this question by examining the impact of the wto s dispute settlement mechanism on domestic policies in the united states and canada she demonstrates that the wto s ability to influence domestic arrangements has been constrained by three factors judicial deference institutional arrangements and strategic decision making by political elites in ottawa and washington in this groundbreaking assessment of whether supranational courts are now setting the legislative agenda of sovereign nations krikorian brings the insights of law and politics scholarship to bear on a subject matter traditionally addressed by international relations scholars by doing so she shows that the classic division between these two fields of study in the discipline of political science though suitable in the postwar era is outdated in the context of a globalized world

Making Policy, Making Law 2004

it is the merit of this book to present the human rights council in terms of its mandates roles and organization while seeking to remind the membership and the international community at large that the council must be anchored in the modern human rights law of the charter of which the author gives a superb presentation the book then proceeds to make the case that human rights are part of international constitutional law and this is exceedingly important at a time when universal values have come under stress from various quarters including from terrorist formations the argument of the book is essentially that the modern human rights law of the charter and the human rights provisions of international constitutional law must take precedence for everyone everywhere
