in granite and grace michael cohen reflects on a lifetime of climbing walking and pondering the granite in yosemite national park at tuolumne meadows this high country region of yosemite is dominated by a young beautifully glaciated geological formation known as the tuolumne intrusive suite it does not include familiar yosemite icons like half dome yet geologists describe this granitic realm at over 8 000 feet as an iconic american landscape drawing together the humanistic and scientific significance of the wild landscapes he traverses michael uncovers relationships between people and places and meaning and substance rendering this text part memoir but also considerably more on the rock encounters by hand and foot open up a dialogue between the heart of a philosopher and the mind of a geologist michael adds a literary softness to this hard landscape blending excursions with exposition and literature with science it is through his graceful representations that the geological becomes metaphorical while the science turns mythological this high country where in 1889 john muir and robert underwood johnson planned what would become yosemite national park is significant for cultural as well as

natural reasons discoursing on everything from camus's myths of sisyphus to the poems of gary snyder michael adds depth to an already splendid landscape premier early geologists such as françois matthes shaped the language of yosemite's landscape even though yosemite has changed over half a century the rock has not as michael explores the beauty and grace of his familiar towering vistas he demonstrates why of the many aspects of the world to which one might get attached the most secure is granite
