a modern and current examination of reconstruction that explains how the south in the aftermath of defeat in a total war was still able to exhaust the will of the powerful north using asymmetric warfare the end of the civil war may have marked the end of the official fighting but the congressional strategy to remake the south during reconstruction led to a new period of warfare asymmetric warfare in which the defeated confederacy became the southern resistance despite all the power at its disposal the north failed to change the south after nearly 11 years of effort and instead accepted a political social equilibrium dictated by the south this book presents reconstruction through an unconventional lens to explain the process of transition from war to warfare and finally to equilibrium represented by the emergence of the new south author keith d dickson explains how reconstruction created a false equilibrium in the immediate aftermath of the civil war and was reversed by congressional action that imposed a new social and political order by resistance of these actions through asymmetric warfare the white south was able to establish a new equilibrium one dictated by the south that opened the path to the new south providing insights from an author who is both a respected academic military historian as well as a former practitioner of unconventional warfare as a special forces officer the book covers the historical period 1865 1877 casting the reconstruction period as an example of protracted asymmetric warfare this asymmetric warfare was conducted in phases against the republican state governments as both the u s congress and the grant administration abandoned the lofty goals for reconstruction a bitterly contested presidential election provided the opportunity to establish conditions favorable to the

white south that would in turn lead to a political social equilibrium that allowed reconciliation to begin

unlike the memoir of a famous person my story lives with the millions of baby boomers who passed me a joint and a beer in college and again at the corporate picnic before the woodstock weekend in 1969 i graduated from college and married the mother of our love child began training for a computer programming career and a few months later got a high number in the draft lottery my use of recreational drugs escalated from fun getting high to a craving that trumped my love for drinking beer i secured a project manager job at the corporate offices of a world wide company which is where i entered a fast lane that became a free fall to the bottom of my life my days began by smoking dope to medicate my alcohol ravaged insides so i could tolerate the gridlock of morning rush hour traffic business days included getting high at noon while on the way to seedy strip joints for a

lunch of drinking the true measure of my self destruction lay hidden on the dark side of my life where substances and out of control people influenced me into doing things i knew were wrong on dec 17 2001 my doctor showed me the results of my physical to explain that if i continued to drink i would die sooner rather than later his prognosis scared me so i poured out my alcohol and used an old aa schedule to attend the first of some 1800 meetings my story is full of experiences from my days at the bottom of life through the first years in recovery to a day in sobriety my book combines short stories of life with vivid descriptions of actual situations that allow the reader to see this life threatening disease from all angles there are messages for the friends and family of an addict so they can see that secrecy and enabling are part of the madness when you have finished my memoir some of the mystery that surrounds alcoholism and drug addiction will be answered why people hit deep bottoms fear based decisions motive driven behavior and how the disease twists the mind of the alcoholic drug addict although my past is a mixture of shame and guilt i ll tell you who i was what i did and the lessons i had to learn more than once since dec 17 2001 i have not found a problem or instance that i thought drinking and using would improve i do not preach the virtues of sobriety i merely open my story for the reader to take what they need
