the breakdown of the family has moved in recent years to the forefront of national consciousness all manner of social ills from poor academic performance to teenage drug use and gang crime have been attributed to high divorce rates and the collapse of the traditional two parent family targets of particularly harsh criticism are parents who lose all contact with their children after a divorce so called deadbeat dads are denounced in political speeches and ridiculed on billboard advertisements mothers who lose touch with their children are stigmatized as emotionally unstable or lacking maternal instincts everyone seems to understand the importance of children being raised by two parent families and the damage that can occur when one parent loses contact completely what is significantly less clear is why this loss of contact occurs and what can be done to prevent it in out of touch geoffrey greif explores these issues with clarity compassion insight and an evenhandedness rarely encountered in an arena far more susceptible to acrimonious debate than sympathetic understanding setting out to find the reality beneath the catchall categorization of out of touch parents as deadbeats substance abusers child mistreaters

or criminals greif focuses on those parents who tried and for a vast array of reasons failed to maintain contact with their children it is their voices in a discussion dominated up till now by the custodial parent that we most need to hear greif argues if we are to uncover ways to avoid such failures in the future rather than offering dry statistics and abstract generalizations greif lets us hear these voices directly in 26 in depth interviews with estranged parents and with children caught in the crossfire of painful divorces extending over a period of two to ten years these interviews and greif s perceptive analyses of them reveal the whole spectrum of logistical emotional and legal difficulties that keep parents and children apart from the ordinary problems of visitation rights and child support to the more complex and troubling issues bitter court battles accusations of sexual abuse domestic violence children rejecting a parent child kidnapping and many others out of touch vividly and often heartbreakingly presents all the ways that fathers and mothers even with the best intentions can lose contact with their children but the book does more than tell the stories of failed relationships its concluding chapter offers a series of specific and extremely helpful suggestions for families parents children grandparents who find

themselves in danger of complete estrangement greif outlines how families can employ support systems communication skills mediation and many other strategies to overcome the most difficult obstacles that occur after a divorce it is here that the lessons gleaned from the broken relationships of the past become invaluable advice for the future informed by fresh perspectives moving personal accounts and a clear sighted approach to a tangled issue out of touch is a timely and deeply important book about both the forces that drive parents and children apart and the understanding that can keep them together

is the world an illusion is our universe a hologram this is a magical world all there is is you you are the magnificent reflection of all that is in the world of existence and three dimensions let us wake up from this illusion we have to realize we will leave this body one day we have to realize all of our possessions will be left behind as we depart for our next new adventure this is not a book of divine informative revelation these words do not come from heaven these writings knowledge arose in the heart through universal intuition and were written from oneself to oneself without the interference of the author s personal thoughts ego what you call i is your identity bonding yourself with your identity creates the i am ego personality this identity of yours is not actually you it is an illusory state of what you are not in reality you are not your ego identity the external

world and its social parameters play a big role in forming this ego identity you do not own anything no name no form or any image that you can call i you have not constructed or created these you do not own anything you think you can control or possess when you identify yourself with these things the things that you are not or do not own you are creating a self imposed prison for yourself and living inside of it in other words you create your ego personality in this case we have to ask the following question who am i really are you really all that you claim to own names forms and images are you only made up of body and mind when you identify with these beliefs and those of the collective world consciousness you get lost and break away from your true reality when you claim ownership of these names forms and images you create your ego personality whenever you say i am this or that you are identifying with that thing which you now claim as your own and you unify yourself with that thing if you do not identify with anything if you do not claim ownership of anything the i ceases to exist removing the i dissolving it is the ultimate freedom we seek the walls of the self imposed prison of ego personality you possessively created will fall away here in this liberated state of being the necessity for choice or decision falls away too you act just as is

needed in each moment of life as it arises in the now thoughts of should i have done this or that will disappear the mind is like software running on a computer the virus that corrupts the software is the ego it is this ego personality that creates erroneous beliefs and then claims ownership of them only when this virus is removed by an antivirus program mind reveals itself in its full capacity with this cleaning up process human minds become increasingly liberated and expansively intelligent in this book knowledge of advanced life is being released into the public publishing domain for the first time this life can be described with concepts of absolute human birth of absolute humanity experiencing non existence and beyond non existence we believe through our life experience that the only way to change our individual and collective point of view is to know non existence the will behind the writing and publishing of this knowledge in the book arose in servitude

born in Leeds in December 1948 after schooling elsewhere he was admitted a solicitor in 1974 and returned to his native city in 1980 where he set up and ran his own legal practice this is his true story of the workings of our legal establishment today book extract they say that life is what you make of it others say that is not so it is much more what happens to you in its events over which you have no control such determine the path of your life and you can only respond to them as best one can the account which follows is of life in England today subjected to its lawyers rules it is not fiction I wish it were any event to which I was not a party is based upon reasoned assumptions from known facts had these events not happened to me I would have said this could not happen yet it could happen to you how would you cope if wrong should befall you or your family you would seek redress in accordance with the law you would put your trust in it and in the lawyers you would look to that word justice a concept which ordinary people see as right and truth sometimes retribution sometimes compensation to do that you would look to our judges our trustees of justice to hear the evidence fairly then judge and order as a democracy we elect those entrusted to govern each five years at least we have the right to change that government the legislature and

executive if it fails us lets us down or does not answer our needs they know that however the third part of democratic life is the judiciary our judges are not elected and self regulate as such they know they are not accountable to us the system has evolved this way over centuries it is one of the few jobs for life appointed from within their own answerable only to its self regulation and covered by a powerful omerta any system whereby those who control it are unanswerable is open to abuse deceit and cover up at the public s expense it can ruin anyone s life and we are powerless

though the wonders of ancient roman culture continue to attract interest across the disciplines it is difficult to find a lively accessible collection of the full range of the era s literature in english the oxford anthology of roman literature provides a general introduction to the literature of the roman empire at its zenith between the second century bc and the second century ad two features of this extraordinarily fertile period in literary achievement as evidenced by this anthology are immediately and repeatedly clear how similar the romans view of the world was to our own and perhaps even more obviously how different it was most of the authors included in the anthology wrote in latin but as the anthology moves forward in time relevant greek texts that reflect the cultural diversity of roman literary life are also included something no other such anthology has done in the past roman literature was wonderfully creative and diverse and the texts in this volume were chosen from a broad range of genres drama epic philosophy satire lyric poetry love poetry by its very nature an anthology can abbreviate and thus obscure the most attractive features of even a masterpiece so the two editors have not

only selected texts that capture the essence of the respective authors but also have included accompanying introductions and afterwords that will guide the reader in pursuing further reading the presentations of the selections are enlivened with illustrations that locate the works within the contexts of the world in which they were written and enjoyed the student and general reader will come away from this learned yet entertaining anthology with a fuller appreciation of the place occupied by literature in the roman world

the hopkins touch offers the first portrait in over two decades of the most powerful man in roosevelt s administration david roll shows how harry hopkins an iowa born social worker who had been an integral part of the new deal s implementation became the linchpin in fdr s and america s relationships with churchill and stalin and spoke with an authority second only to the president s gaunt nearly spectral and malnourished following an operation to remove part of his stomach the

newly widowed hopkins accepted the president s invitation to move into the white house in 1940 and remained roosevelt s closest advisor speechwriter sounding board and friend nearly to the end between 1940 and 1945 with incomparable skill and indefatigable determination hopkins organized the lend lease program and steered the president to prepare the public for war with germany he became fdr s problem solver and fixer helping to smooth over crises such as when the british refused to allow an invasion of europe in 1943 enraging stalin who felt that the soviet union was carrying the military effort against the nazis lacking an official title or a clear executive branch portfolio hopkins could take the political risks his boss could not and proved crucial to maintaining personal relations among the big three beloved by some such as churchill who believed that hopkins always went to the root of the matter and trusted by most including the paranoid stalin there were nevertheless those who resented the influence of the white house rasputin based on newly available sources the hopkins touch is an absorbing substantial new work that offers a fresh perspective on the world war ii era and the allied leaders through the life of the man who kept them on point until the war was won
