the swiss theologian adolf keller was the leading ecumenist on the european continent between the two world wars in this book the historian marianne jehle wildberger delineates his life and its achievements based on research in forty archives in europe and the united states a picture

emerges that shows a wonderful man who was a personal friend of Karl Barth, C. G. Jung, Thomas Mann and Albert Schweitzer and thus who was influenced by the spiritual tendencies of the twentieth century. Keller cooperated closely with the National Council of Churches, his central bureau of relief in Geneva. Interchurch aid was supported by American churches. His lectures at Princeton Theological Seminary on religion and revolution, 1933, in which he was one of the first commentators to denounce National Socialism in Germany, set a new standard of political discussion and are unsurpassed. Marianne Jehle Wildberg's book is an important contribution to twentieth century church history and to the history of the twentieth century in general.
