spanning from the west african coast to the canadian prairies and south to louisiana the caribbean and guiana france s atlantic empire was one of the largest political entities in the western hemisphere yet despite france s status as a nation at the forefront of architecture and the structures and designs from this period that still remain its colonial building program has never been considered on a hemispheric scale drawing from hundreds of plans drawings photographic field surveys and extensive archival sources architecture and urbanism in the french atlantic empire focuses on the french

state s and the catholic church s ideals and motivations for their urban and architectural projects in the americas in vibrant detail gauvin alexander bailey recreates a world that has been largely destroyed by wars natural disasters and fires from cap françois now cap haïtien which once boasted palaces in the styles of louis xv and formal gardens patterned after versailles to failed utopian cities like kourou in guiana vividly illustrated with examples of grand buildings churches and gardens as well as simple houses and cottages this volume also brings to life the architects who built these structures not only french military engineers and white civilian builders but also the free people of colour and slaves who contributed so much to the tropical colonies taking readers on a historical tour through the striking landmarks of the french colonial landscape architecture and urbanism in the french atlantic empire presents a sweeping panorama of an entire hemisphere of architecture and its legacy

over the past years studies have begun not only to identify the factors that impeded the full participation of women artists in french cultural life such as women s limited access to professional art education but also to bring to light the considerable artistic accomplishments of women occluded by historians for over a century a similar effort at historical revision has been under way for french women writers works of fiction that enjoyed many editions in the nineteenth century receded from our field of vision for almost a century before being rediscovered and reissued during the last decades of the twentieth century such efforts have resulted in scholarship that has helped revise the history of both artistic and literary expression in nineteenth century france similarly many women in nineteenth century france had their art criticism published both in journal reviews and in book form often for decades in a number of the most influential venues of their day however it is perplexing that they remain almost totally invisible in histories of french culture women art critics in nineteenth century france vanishing acts is the first sustained effort to bring these prolific and

influential critics out from the shadows although each of the chapters in this volume results from an interdisciplinary approach the fact that they are written by scholars in art history and in literature means that there will be inevitable differences in approach and methodology thus we study the women s reception of specific artworks and aesthetic movements discuss intersections of aesthetics and politics in their essays and the literary styles and rhetorical strategies of individual critics explore the social conditions that allowed or impeded their successes and suggest reasons for their all but disappearance in the twentieth century in bringing to light for twenty first century readers the vanished writings of heretofore unrecognized or underrecognized women art critics the authors hope to contribute to the ongoing revision of women s role in cultural history the multifaceted approaches to word image studies modeled in this book and the many avenues for further research it identifies will inspire scholars in a number of disciplines to continue the work of reinscribing women in the history of cultural life

flora tristan is best known as a nineteenth century french social critic and reformer her writings can be seen as a precursor to marxism and feminism flora tristan life stories by susan grogan investigates the life of flora tristan through an exploration of the way she represented herself in her own writings the author also examines the portrayal of flora tristan in paintings and literature rather than adopting a chronological approach the author surveys the personae of flora tristan through thematic chapters on her roles as author socialist traveller and mother of the workers she places flora

tristan in the context of contemporary debates and ideas adding to our understanding of the times in which flora tristan lived flora tristan life stories argues that flora tristan s self representations were attempts to claim a role of authority and significance not open to women in the nineteenth century this authoritative study also engages with attempts to re evaluate the writing of biography and to explore the meaning of an individual life in historical context
