empire gods and monsters love loyalty honour and betrayal from the acclaimed author of godblind the stone and the shadow is a series of twelve volumes it is the fable of stone who finds himself in the quest for several answers at a time that demands more insight than he can engender like many others he thought his quest would end when he did find his answers strangely that was when the quest really began his journey continues as he meets several magical personalities that accompany him as he stumbles across complicated hurdles and unexpected rewards in a strange land where the laws of physics act peculiarly at every step stone s chief mentor in this maze of exhilarating experiences is a youthful angelic being by the name of star who steers him wisely and wittily through a potentially disturbing string of incidences as they inch closer to the titillating goal of their quest the story of this quest is dedicated to the wisdom and peace that lies within each one of us the extraordinary story of a boy called wart ignored by everyone except his tutor merlin who goes on to become king arthur this first full account of amelia stone quinton 1833 1926 and the organization she cofounded the women s national indian association wnia offers a nuanced insight into the intersection of gender race religion and politics in our shared history author valerie sherer mathes shows how quinton like helen hunt jackson was a true force for reform and progress who was nonetheless constrained by the assimilationist convictions of her time the wnia which quinton cofounded with mary lucinda bonney in 1879 was organized expressly to press for a more just protective and fostering indian policy but also to promote the assimilation of the indian through christianization and civilization charismatic and indefatigable quinton garnered support for the wnia s work by creating strong working relationships with leaders of the main reform groups successive commissioners of indian affairs secretaries of the interior and prominent congressmen the wnia s powerful network of friends formed a hybrid organization religious in its missionary society origins but also political using its powers to petition and actively address public opinion mathes follows the organization as it evolved from its initial focus on evangelizing indian women and promoting victorian society s ideals of true womanhood through its return to its missionary roots establishing over sixty missionary stations supporting physicians and teachers and building houses chapels schools and hospitals with reference to quinton s voluminous writings including her letters speeches and newspaper articles as well as to wnia literature mathes draws a complex picture of an organization

that at times ignored traditional indian practices and denied individual agency even as it provided dispossessed and impoverished people with health care and adequate housing and at the center of this picture we find quinton a woman and reformer of her time in 1866 alexander dunlop a free black living in williamsburg virginia did three unusual things he had an audience with the president of the united states testified in front of the joint congressional committee on reconstruction and he purchased a tombstone for his wife lucy ann dunlop purchases of this sort were rarities among virginia s free black community and this particular gravestone is made more significant by dunlop s choice of words his political advocacy and the racialized rhetoric of the period carved by a pair of richmond based carvers who like many other southern monument makers contributed to celebrating and mythologizing the lost cause in the wake of the civil war lucy ann s tombstone is a powerful statement of dunlop s belief in the worth of all men and his hopes for the future buried in 1925 by the white members of a church congregation and again in the 1960s by the colonial williamsburg foundation the tombstone was excavated in 2003 analysis conservation and long term interpretation were undertaken by the foundation in partnership with the community of the first baptist church a historically black church within which alexander dunlop was a leader stories in stone memorialization the creation of history and the role of preservation examines the story of the tombstone through a blend of object biography and micro historical approaches and contrasts it with other memory projects like the remembrance of the civil war dead data from a regional survey of nineteenth century cemeteries historical accounts literary sources and the visual arts are woven together to explore the agentive relationships between monuments their commissioners their creators and their viewers and the ways in which memory is created and contested and how this impacts the history we learn and preserve the third magical fairy novel in the philippa fisher series from bestselling emily windsnap author liz kessler ian sheperd british archaeology this is a wonderful book and is a must for anyone remotely interested in things megalithic paul walsh archaeology ireland the study of stone circles has long played a major role in british and irish archaeology and for scotland most attention has been focused on the large monuments of orkney and the western isles several decades of fieldwork have shown how these major structures are likely to be of early date and recognised that that smaller settings of monoliths had a more extended history many of the structures in northern britain were reused during the later bronze age the iron age and the early medieval period a series of problems demand further investigation including when were the last stone circles built how did they differ from earlier constructions how were they related to henge monuments especially those of bronze age date how frequently were these places reused and did this secondary activity change the character of those sites this major new assessment first presents the results of fieldwork undertaken at the scottish recumbent stone circle of hillhead the stone circles of waulkmill and croftmoraig the stone circle and henge at hill of tuach at kintore and the small ring cairn at laikenbuie in inverness shire part 2 brings together the results of these five projects and puts forward a chronology for the construction and primary use of stone circles particularly the chalcolithic and bronze age examples it considers the reuse of stone circles long after they were built and discusses four neighbouring stone circles in aberdeenshire which display both similarities and contrasts in their architecture use of raw materials associated artefacts and structural sequences finally a reassessment and reinterpretation of croftmoraig and its sequence is presented the new interpretation drawing attention to ways of thinking about these monuments which have still to fulfil their potential a beautiful outcast woman in a passionate epic of prehistoric america the sequel to the mammoth stone the legend of the powers of the mammoth stone continues with the torrid ostracizing of maya the shaman and keeper of the stone an intensely dramatic and highly erotic story set in the prehistoric american southwest when settlers from continental europe the men of burh fall upon and massacre a nomadic tribe of stone age hunters in southern britain tagart the sole survivor devises an ingenious method of revenge reprint of the original first published in 1874 constructed in 1297 1300 for king edward i the coronation chair ranks amongst the most remarkable and precious treasures to have survived from the middle ages it incorporated in its seat a block of sandstone which the king seized at scone following his victory over the scots in 1296 for centuries scottish kings had been

inaugurated on this symbolic stone of scone to which a copious mythology had also become attached edward i presented the chair as a holy relic to the shrine of st edward the confessor in westminster abbey and most english monarchs since the fourteenth century have been crowned in it the last being hm queen elizabeth ii in 1953 the chair and the stone have had eventful histories in addition to physical alterations they suffered abuse in the eighteenth century suffragettes attached a bomb to them in 1914 they were hidden underground during the second world war and both were damaged by the gang that sacrilegiously broke into westminster abbey and stole the stone in 1950 it was recovered and restored to the chair but since 1996 the stone has been exhibited on loan in edinburgh castle now somewhat battered through age the chair was once highly ornate being embellished with gilding painting and coloured glass yet despite its profound historical significance until now it has never been the subject of detailed archaeological recording moreover the remaining fragile decoration was in need of urgent conservation which was carried out in 2010 12 accompanied by the first holistic study of the chair and stone in 2013 the chair was redisplayed to celebrate the diamond jubilee of the coronation of hm the queen the latest investigations have revealed and documented the complex history of the chair it has been modified on several occasions and the stone has been reshaped and much altered since it left scone this volume assembles for the first time the complementary evidence derived from history archaeology and conservation and presents a factual account of the coronation chair and the stone of scone not as separate artefacts but as the entity that they have been for seven centuries their combined significance to the british monarchy and state and to the history and archaeology of the english and scottish nations is greater than the sum of their parts also published here for the first time is the second coronation chair made for queen mary ii in 1689 finally accounts are given of the various full size replica chairs in britain and canada along with a selection of the many models in metal and ceramic which have been made during the last two centuries
