one of the vital issues in contemporary christian theology is the problem of a renewed understanding of god s eternity and its relation to time this is not merely a peripheral doctrinal issue but lies at the heart of our understanding of god and humanity and contributes to our entire worldview this study focuses on a long standing debate between two competing views on god s eternity one focused on god s absolute timelessness in classical theism and the other on god s temporal everlastingness in contemporary panentheism in contrast to both of these well worn options this book presents an alternative trinitarian analogical understanding of god s eternity and its relation to time especially through a critical reflection on karl barth s and hans urs von balthasar s engagement of the issue this analogical approach based on the dynamic and dramatic concepts of god s being in relation and of the triune god s communicative action in eternity and time has the potential to resolve the debate between absolute timeless eternity and temporal everlasting duration
