during my time in college i delved into the book coffee tea or me authored by donald bain which recounted the thrilling narratives of two airline stewardesses it was a truly enjoyable read prompting me to reflect on my own exceptional experiences and analyze them to the best of my abilities in simpler terms management involves overseeing a process during this journey an individual can either excel as a proficient manager leveraging their skills or unintentionally cause harm due to their limitations this book is designed to shed light on a set of crucial skills that contribute to exceptional managerial abilities in doing so it purposefully avoids complex management jargon emphasizing that being a successful manager depends on a few fundamental and easily accessible qualities many individuals naturally possess these innate traits and some recognize their importance thereby adding value to their organization conversely others neglect them placing a burden on their company in the process within the pages of this book a dedicated effort has been made to clarify the essential aspects of management each of these domains is exemplified through real life case studies all based on my personal experiences however to safeguard confidentiality and protect the privacy of individuals involved names and locations have been modified
