the election of president donald trump through his campaign of race baiting sexual harassment and blatant disregard for human decency lowered the moral bar of american public discourse julius bailey s latest book discusses the current state of hypocrisy and mistrust in the american political system especially as these affect ethnic minorities and low income groups in powerful and inspiring prose bailey writes with a voice well informed by current events empirical data and philosophical observation bailey looks at the causes and consequences of this new era and applies his passionate yet astute analysis to issues such as hate speech gerrymandering the use of the confederate flag and america s relationship with the gun in this book robert v wells presents an exhaustive survey of recently discovered census data covering 21 american colonies between 1623 and 1775 he thus provides the first full scale determination of basic demographic patterns in all parts of england s empire in america before 1776 following an examination of the adequacy of the censuses the author describes the population patterns of each colony for which a census is available he presents information on size and growth of population race age and sex composition degree of freedom household size and composition marital status military manpower and birth and death rates he concludes by describing important variations in demographic patterns from one part of the empire to another and the possible significance of those differences originally published in 1975 the princeton legacy library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905 built in 1853 in new york s bryant park and immediately pronounced the most beautiful structure in america the crystal palace was intended not simply to emulate but rival the famous victorian landmark in london s hyde park as with its english counterpart however its beauty was ephemeral it caught fire and on october 5 1858 great waves of lurid light overtook spectators and those rushing to save it within thirty minutes the beloved dome was nothing but a heap of smoldering debris in his latest book edwin g burrows winner of the 1999 pulitzer prize for history and co author of gotham a history of new york to 1898 offers a memorable and elegiac look at the crystal palace while it didn t match in dimension robert paxton s london original the scale of which was truly colossal the new york version became a beloved landmark almost from the instant of its creation centerpiece of the 1853 world s fair it was home to numerous exhibitions and became a showplace for displaying the growing industrial might of the nation walt whitman rhapsodized about it as earth s modern wonder history s seven outstripping its sudden loss provoked intense mourning matched only perhaps by the razing of the old penn station a century later and then gradually it slipped from memory the finest building in america will evoke the crystal palace s life and times replete with beautiful period images the first book length account of the building s short but glorious life burrows book aims to restore it in the minds and hearts of new yorkers and new york aficionados and fans everywhere the continuing relationship between america and the holy land has implications for american and jewish history which extend beyond the historical narrative and interpretation the devotion of americans of all faiths to the holy land extends into the spiritual realm and the holy land in turn penetrates american homes patterns of faith and education in this book davis illuminates the interconnection of americans and the holy land in historical perspective and delineates unique elements inherent in this relationship the role of zion in american spiritual history in the christian faith in jewish tradition and communal life and the impress of biblical place names on the map of america as well as american settlements and institutions in the state of israel the book concludes with an

annotated select bibliography of primary sources on america and the holy land more than 150 key social issues confronting the united states today are covered in this eight volume set from abortion and adoption to capital punishment and corporate crime from obesity and organized crime to sweatshops and xenophobia designed to introduce american civil litigation and process to a wide audience foreign ll m students beginning american law students undergraduates interested in law and foreign lawyers judges and law professors this succinct new paperback litigating in america civil procedure in context explains the institutional bases and legal meaning of our procedural system and captures american civil process at a time of change it presents american civil procedure from several vantage points the procedural doctrine that has evolved over time the practical implications of that doctrine the social context in which the doctrine grew is used and abused and the global context of how other systems may have made different choices it is an excellent supplement to any casebook american national trade bibliography child labor law strikes most americans as a fixture of the country s legal landscape involving issues settled in the distant past but these laws however self evidently sensible they might seem were the product of deeply divisive legal debates stretching over the past century and even now are subject to constitutional challenges child labor in america tells the story of that historic legal struggle the book offers the first full account of child labor law in america from the earliest state regulations to the most recent important supreme court decisions and the latest contemporary attacks on existing laws children had worked in america from the time the first settlers arrived on its shores but public attitudes about working children underwent dramatic changes along with the nation s economy and culture a close look at the origins of oppressive child labor clarifies these changing attitudes providing context for the hard won legal reforms that followed author john a fliter describes early attempts to regulate working children beginning with haphazard and flawed state level efforts in the 1840s and continuing in limited and ineffective ways as a consensus about the evils of child labor started to build in the progressive era the issue finally became a matter of national concern resulting in several laws four major supreme court decisions an unsuccessful child labor amendment and the landmark fair labor standards act of 1938 fliter offers a detailed overview of these events introducing key figures interest groups and government officials on both sides of the debates and incorporating the latest legal and political science research on child labor reform unprecedented in its scope and depth his work provides critical insight into the role child labor has played in the nation s social political and legal development business has received little attention in american religious history although it has profound implications for understanding the sustained popularity and ongoing transformation of religion in the united states this volume offers a wide ranging exploration of the business aspects of american religious organizations the authors analyze the financing production marketing and distribution of religious goods and services and the role of wealth and economic organization in sustaining and even shaping worship charity philanthropy institutional growth and missionary work treating religion and business holistically their essays show that american religious life has always been informed by business practices laying the groundwork for further investigation the authors show how american business has functioned as a domain for achieving religious goals indeed they find that religion has historically been more powerful when interwoven with business chapters on mormon enterprise jewish philanthropy hindu gurus native american casinos and the wedding of business wealth to conservative catholic social teaching demonstrate the range of new studies stimulated by the business turn in american religious history other chapters show how evangelicals joined neo liberal economic practice and right wing politics to religious fundamentalism to consolidate wealth and power and how they developed marketing campaigns and organizational strategies that transformed the american religious landscape included are essays exposing the moral compromises religious organizations have made to succeed as centers of wealth and influence and the religious beliefs that rationalize and justify these compromises still others examine the application of business practices as a means of sustaining religious institutions and expanding their reach and look at controversies over business practices within religious organizations

and the adjustments such organizations have made in response together the essays collected here offer new ways of conceptualizing the interdependence of religion and business in the united states establishing multiple paths for further study of their intertwined historical development in late medieval catholicism mourners employed an array of practices to maintain connection with the deceased most crucially the belief in purgatory a middle place between heaven and hell where souls could be helped by the actions of the living in the early sixteenth century the reformation abolished purgatory as its leaders did not want attention to the dead diminishing people s devotion to god but while the reformation was supposed to end communication between the living and dead it turns out the result was in fact more complicated than historians have realized in the three centuries after the reformation protestants imagined continuing relationships with the dead and the desire for these relations came to form an important and since neglected aspect of protestant belief and practice in speaking with the dead in early america historian erik r seeman undertakes a 300 year history of protestant communication with the dead seeman chronicles the story of protestants relationships with the deceased from elizabethan england to puritan new england and then on through the american enlightenment into the middle of the nineteenth century with the explosion of interest in spiritualism he brings together a wide range of sources to uncover the beliefs and practices of both ordinary people especially women and religious leaders this prodigious research reveals how sermons elegies and epitaphs portrayed the dead as speaking or being spoken to how ghost stories and gothic fiction depicted a permeable boundary between this world and the next and how parlor songs and funeral hymns encouraged singers to imagine communication with the dead speaking with the dead in early america thus boldly reinterprets protestantism as a religion in which the dead played a central role in the late nineteenth century the urban department store arose as a built artifact and as a social institution in the united states while the physical building type is the foundation of this comprehensive architectural study louisa iarocci reaches beyond the analysis of the bricks and mortar to reconsider how the spaces of selling were culturally produced spaces as well as the product of interrelated economic social technological and aesthetic forces the agenda of the book is three fold to address the lack of a comprehensive architectural study of the nineteenth century department store in the united states to expand the analysis of the commercial city as a built and represented entity and to continue recent scholarly efforts that seek to understand commercial space as a historically specific and a conceptually perceived construct the urban department store in america 1850 1930 acts as a corrective to a current imbalance in the historiography of this retailing institution that tends to privilege its role as an autonomous modern building type instead iarocci documents the development of the department store as an urban institution that grew out of the built space of the city and the lived spaces of its occupants a black jewish dialogue lifts a veil on these groups unspoken history shedding light on the challenges and promises facing american democracy from its inception to the present and modeling the honest conversation needed for blacks and jews to forge a new understanding advancing equity and achievement in america s diverse schools illustrates how educators students families and community partners can work in strategic ways to build on social cultural and ethnic diversity to advance educational equity and achievement by drawing on the latest data on demographic change constructions of culture and cultural difference and the politics of school reform in urban rural and suburban school communities this volume looks toward solutions and strategies for meaningful educational improvement contributors consider both the diversity of youth and families served in public schools and the culture of u s schooling highlighting the influence of policy and reform agendas students identities and agency experiences and approaches of diverse educators and the workings of effective school partnerships chapters also focus on those often overlooked in educational scholarship such as native americans students experiencing poverty and or homelessness muslim students students with special needs and students and educators who are lesbian gay bisexual transgender intersex or queer in all this edited collection stresses the need for high quality education that is inclusive culturally

responsive and unifying so all students can experience academic success this book is a meaningful resource for educators policymakers and community based leaders interested in doing such transformative work introduce students to civic values in america and teach them the importance of upholding values like equality and responsibility students will be encouraged to engage in civic discourse about events in us history and what it means to be a good citizen today colorful images supporting text a glossary table of contents and index all work together to engage readers and help them better understand the content this informative colorful book uses primary sources to captivate readers as they learn social studies topics first published in 1980 the dynamism within the american colonies in the fifty years or so before the outbreak of the crisis of the 1760s that was to lead to the revolution has never been in doubt the articles written included in this text suggest a number of ways in which the imperial factor was of real importance in colonial life and show that there was dynamism on the british side as well as in the colonies the cold war was fought in every corner of society including in the sport and entertainment industries recognizing the importance of culture in the battle for hearts and minds the united states like the soviet union attempted to win the favor of citizens in nonaligned states through the soft power of sport athletes became de facto ambassadors of us interests their wins and losses serving as emblems of broader efforts to shield american culture both at home and abroad against communism in defending the american way of life leading sport historians present new perspectives on high profile issues in this era of sport history alongside research drawn from previously untapped archival sources to highlight the ways that sports influenced and were influenced by cold war politics surveying the significance of sports in cold war america through lenses of race gender diplomacy cultural infiltration anti communist hysteria doping state intervention and more this collection illustrates how this conflict remains relevant to us sporting institutions organizations and ideologies today this important new collection brings together ten of alden vaughan s essays about race relations in the british colonies focusing on the variable role of cultural and racial perceptions on colonial policies for indians and african americans the essays include explorations of the origins of slavery and racism in virginia the causes of the puritans war against the pequots and the contest between natives and colonists to win the other s allegiance by persuasion or captivity less controversial but equally important to understanding the racial dynamics of early america are essays on early english paradigmatic views of native americans the changing anglo american perceptions of indian color and character and frontier violence in pre revolutionary pennsylvania published here for the first time are an extensive expos e of slaveholder ideology in seventeenth century barbados the second half of an essay on puritan judicial policies for indians a general introduction and headnotes to each essay all previously published pieces have been revised to reflect recent scholarship or to address recent debates challenging standard interpretations while probing previously ignored aspects of early american race relations this convenient and provocative collection by one of our most incisive commentators will be required reading for all scholars and students of early american history the tenth edition of keen s latin american civilization inaugurates a new era in the history of this classic anthology by dividing it into two volumes this second volume retains most of the modern period sources from the ninth edition but with some significant additions including a new set of images and a wide range of new sources that reflect the latest events and trends in contemporary latin america the 75 excerpts in volume two provide foundational and often riveting first hand accounts of life in modern latin america concise introductions for chapters and excerpts provide essential context for understanding the primary sources

examines the ways our conceptions of asian american food have been shaped chop suey sushi curry adobo kimchi the deep associations asians in the united states have with food have become ingrained in the american popular imagination so much so that contentious notions of ethnic authenticity and authority are marked by and argued around images and ideas of food eating asian america a food studies reader collects burgeoning new

scholarship in asian american studies that centers the study of foodways and culinary practices in our understanding of the racialized underpinnings of asian americanness it does so by bringing together twenty scholars from across the disciplinary spectrum to inaugurate a new turn in food studies the refusal to yield to a superficial multiculturalism that naively celebrates difference and reconciliation through the pleasures of food and eating by focusing on multi sided struggles across various spaces and times the contributors to this anthology bring into focus the potent forces of class racial ethnic sexual and gender inequalities that pervade and persist in the production of asian american culinary and alimentary practices ideas and images this is the first collection to consider the fraught itineraries of asian american immigrant histories and how they are inscribed in the production and dissemination of ideas about asian american foodways the antebellum period has long been identified with the belated emergence of a truly national literature and yet as meredith l mcgill argues a mass market for books in this period was built and sustained through what we would call rampant literary piracy a national literature developed not despite but because of the systematic copying of foreign works restoring a political dimension to accounts of the economic grounds of antebellum literature mcgill unfolds the legal arguments and political struggles that produced an american culture of reprinting and held it in place for two crucial decades in this culture of reprinting the circulation of print outstripped authorial and editorial control mcgill examines the workings of literary culture within this market shifting her gaze from first and authorized editions to reprints and piracies from the form of the book to the intersection of book and periodical publishing and from a national literature to an internally divided and transatlantic literary marketplace through readings of the work of dickens poe and hawthorne mcgill seeks both to analyze how changes in the conditions of publication influenced literary form and to measure what was lost as literary markets became centralized and literary culture became stratified in the early 1850s american literature and the culture of reprinting 1834 1853 delineates a distinctive literary culture that was regional in articulation and transnational in scope while questioning the grounds of the startlingly recent but nonetheless powerful equation of the national interest with the extension of authors rights this final volume of vernon louis parrington s pultzer prize winning study deals with the decay of romantic optimism it shows that the cause of decay is attributed to three sources stratifying of economics under the pressure of centralization the rise of mechanistic science and the emergence of a spirit of skepticism which with teachings of the sciences and lessons of intellectuals has resulted in the questioning of democratic ideals parrington presents the movement of liberalism from 1913 to 1917 and the reaction to it following world war i he notes that liberals announced that democratic hopes had not been fulfilled the constitution was not a democratic instrument nor was it intended to be and while americans had professed to create a democracy they had in fact created a plutocracy industrialization of america under the leadership of the middle class and the rise of critical attitudes towards the ideals and handiwork of that class are examined in great detail parrington s interpretation of the literature during this time focuses on four divisions of development the conquest of america by the middle class the challenge of that overlordship by democratic agrarianism the intellectual revolution brought about by science and the appropriation of science by the middle class and the rise of detached criticism by younger intellectuals a new introduction by bruce brown highlights parrington s life and explains the importance of this volume in the transatlantic world of the late eighteenth century easterly winds blew radical thought to america thomas paine had already arrived on these shores in 1774 and made his mark as a radical pamphleteer during the revolution in his wake followed more than 200 other radical exiles english dissenters whigs and painites scottish lads o parts and irish patriots who became influential newspaper writers and editors and helped change the nature of political discourse in a young nation michael durey has written the first full scale analysis of these radicals evaluating the long term influence their ideas have had on american political thought transatlantic radicals uncovers the roots of their radicalism in the old world and tells the story of how these men came to be exiled how they emigrated and how they participated in the

politics of their adopted country nearly all of these radicals looked to paine as their spiritual leader and to thomas jefferson as their political champion they held egalitarian anti federalist values and promoted an extreme form of participatory democracy that found a niche in the radical wing of jefferson s republican party their divided views on slavery however reveal that democratic republicanism was unable to cope with the realities of that institution as political activists during the 1790s they proved crucial to jefferson s 1800 presidential victory then after his views moderated and their influence waned many repatriated others drifted into anonymity and a few managed to find success in the new world although many of these men are known to us through other histories their influence as a group has never before been so closely examined durey persuasively demonstrates that the intellectual ferment in britain did indeed have tremendous influence on american politics his account of that influence sheds considerable light on transatlantic political history and differences in religious political and economic freedoms skillfully balancing a large cast of characters transatlantic radicals depicts the diversity of their experiences and shows how crucial these reluctant émigrés were to shaping our republic in its formative years today s political controversy over immigration highlights the plight of the working class in this country as perhaps no other issue has recently done the political status of immigrants exposes the power dynamics of the new working class which includes the former labor aristocracy women and people of color this new working class suffers exploitation in advanced industrial countries as the social cost of capitalism s success in a neoliberal and globalized political economy paradoxically as borders become more open they are also increasingly fortified subjecting many workers to the suspension of law in this book kathleen arnold analyzes the role of the state s prerogative power in creating and sustaining this condition of severe inequality for the most marginalized sectors of our population in the united states drawing on a wide range of theoretical literature from locke to marx and agamben whose notion of bare life features prominently in her construal of this as a biopolitical era she focuses attention especially on the values of asceticism derived from the protestant work ethic to explain how they function as ideological justification for the exercise of prerogative power by the state as a counter to this repressive set of values she develops the notion of authentic love borrowed from simone de beauvoir as a possible approach for dealing with the complex issues of exploitation in liberal democracy today the north american free trade agreement nafta is a milestone in the affairs of the continent and in international trade the first formal arrangement of any kind between canada the united states and mexico it is also the first trade pact including countries of such disproportionate power and levels of development for canada and mexico the agr the elite french zouaves with their distinctive colorful uniforms set an influential example for volunteer soldiers during the civil war and continued to inspire american military units for a century hundreds of militia companies adopted the flamboyant uniform to emulate the gallantry and martial tradition of the zouaves drawing on fifty years of research this volume provides a comprehensive state by state catalog of american zouave units richly illustrated with rare and previously unpublished photographs and drawings the author dispels many misconceptions and errors that have persisted over the last 150 years without the support of american women victory in the revolutionary war would not have been possible they followed the continental army handling a range of jobs that were usually performed by men on the orders of general washington some were hired as nurses for 2 per month and one full ration per day disease was rampant and nurse mortality was high a few served with artillery units or masqueraded as men to fight in the ranks the author focuses on the many key roles women filled in the struggle for independence from farming to making saltpeter to spying the phenomenon of studio goldsmithing when the history of art in the 1980s is written much of it will be etched in gold this is the time of the contemporary goldsmith an artist who chooses to work in precious metals rather than oils or marble the contemporary jeweler as artist has only recently become a recognized force with rare exceptions the whole field is little more than thirty years old but it is only within the past fifteen years that these jewelers have entered the jewelry mainstream the phenomenon of contemporary goldsmithing embraces an eclectic group of

artists each with a unique vision each taking a personal path to jewelry producing they have as little relationship to the typical mass produced jewelry as a champagne maker has to a bottler of orange soda they approach a piece of art not a piece of metal the work is personal and a perfect expression of the back to the land movement that spawned it many of these goldsmiths were looking not merely for a way to make a living but for a way to make a life that was worthy of living running a business while trying to remain a creative metalsmith at the same time is the ongoing challenge the jeweler artists have solved or resolved these often conflicting needs in slightly different ways and in a beautiful variety of techniques and styles their methods their growth and their work are discussed here understanding american politics provides a unique introduction to the contemporary political landscape of the united states by using as its core organizing feature the idea of american exceptionalism a concept that is at least as old as toqueville's study of american democracy the second edition of understanding american politics maintains the unique strengths of the first edition while offering improved coverage of political institutions a single omnibus chapter on institutions has been reorganized and split into three separate chapters on congress the presidency and the courts a new chapter on public opinion has also been included and the chapter on religion and politics has been completely rewritten with a deeper appreciation of religion's influential role the book has been revised throughout taking into account the dramatic changes that have emerged since the 2010 congressional elections and the 2012 presidential election the text also pays close attention to what is seen as the irreversible decline in america's global influence visit utpamericanpolitics.com for additional resources in america where mediations have always provided most people with their primary encounter with the holocaust television has helped transform watching into the morally charged act of witnessing the holocaust by tracing the course of holocaust television over the past half century while america watches reveals how americans have come to embrace this subject as a model for responding to other moral crises from domestic racial strife to ethnic cleansing operations in bosnia book jacket

Racism, Hypocrisy, and Bad Faith: A Moral Challenge to the America I Love 2020-03-31 the election of president donald trump through his campaign of race baiting sexual harassment and blatant disregard for human decency lowered the moral bar of american public discourse julius bailey s latest book discusses the current state of hypocrisy and mistrust in the american political system especially as these affect ethnic minorities and low income groups in powerful and inspiring prose bailey writes with a voice well informed by current events empirical data and philosophical observation bailey looks at the causes and consequences of this new era and applies his passionate yet astute analysis to issues such as hate speech gerrymandering the use of the confederate flag and america s relationship with the gun

Population of the British Colonies in America Before 1776 2015-03-08 in this book robert v wells presents an exhaustive survey of recently discovered census data covering 21 american colonies between 1623 and 1775 he thus provides the first full scale determination of basic demographic patterns in all parts of england s empire in america before 1776 following an examination of the adequacy of the censuses the author describes the population patterns of each colony for which a census is available he presents information on size and growth of population race age and sex composition degree of freedom household size and composition marital status military manpower and birth and death rates he concludes by describing important variations in demographic patterns from one part of the empire to another and the possible significance of those differences originally published in 1975 the princeton legacy library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905

The Finest Building in America 2018 built in 1853 in new york s bryant park and immediately pronounced the most beautiful structure in america the crystal palace was intended not simply to emulate but rival the famous victorian landmark in london s hyde park as with its english counterpart however its beauty was ephemeral it caught fire and on october 5 1858 great waves of lurid light overtook spectators and those rushing to save it within thirty minutes the beloved dome was nothing but a heap of smoldering debris in his latest book edwin g burrows winner of the 1999 pulitzer prize for history and co author of gotham a history of new york to 1898 offers a memorable and elegiac look at the crystal palace while it didn t match in dimension robert paxton s london original the scale of which was truly colossal the new york version became a beloved landmark almost from the instant of its creation centerpiece of the 1853 world s fair it was home to numerous exhibitions and became a showplace for displaying the growing industrial might of the nation walt whitman rhapsodized about it as earth s modern wonder history s seven outstripping its sudden loss provoked intense mourning matched only perhaps by the razing of the old penn station a century later and then gradually it slipped from memory the finest building in america will evoke the crystal palace s life and times replete with beautiful period images the first book length account of the building s short but glorious life burrows book aims to restore it in the minds and hearts of new yorkers and new york aficionados and fans everywhere

America and the Holy Land 1995-01-24 the continuing relationship between america and the holy land has implications for american and jewish history which extend beyond the historical narrative and interpretation the devotion of americans of all faiths to the holy land extends into the spiritual realm and the holy land in turn penetrates american homes patterns of faith and education in this book davis illuminates the interconnection of americans and the holy land in historical perspective and delineates unique elements inherent in this relationship the role of zion in american spiritual history in the christian faith in jewish tradition and communal life and the impress of biblical place names on the map of america as well as american settlements and institutions in the state of israel the book concludes with an annotated select

bibliography of primary sources on america and the holy land

Social Issues in America 2015-03-04 more than 150 key social issues confronting the united states today are covered in this eight volume set from abortion and adoption to capital punishment and corporate crime from obesity and organized crime to sweatshops and xenophobia

Litigating in America 2015-02-09 designed to introduce american civil litigation and process to a wide audience foreign ll m students beginning american law students undergraduates interested in law and foreign lawyers judges and law professors this succinct new paperback litigating in america civil procedure in context explains the institutional bases and legal meaning of our procedural system and captures american civil process at a time of change it presents american civil procedure from several vantage points the procedural doctrine that has evolved over time the practical implications of that doctrine the social context in which the doctrine grew is used and abused and the global context of how other systems may have made different choices it is an excellent supplement to any casebook

The American Catalogue 1891 american national trade bibliography

Child Labor in America 2018-05-23 child labor law strikes most americans as a fixture of the country s legal landscape involving issues settled in the distant past but these laws however self evidently sensible they might seem were the product of deeply divisive legal debates stretching over the past century and even now are subject to constitutional challenges child labor in america tells the story of that historic legal struggle the book offers the first full account of child labor law in america from the earliest state regulations to the most recent important supreme court decisions and the latest contemporary attacks on existing laws children had worked in america from the time the first settlers arrived on its shores but public attitudes about working children underwent dramatic changes along with the nation s economy and culture a close look at the origins of oppressive child labor clarifies these changing attitudes providing context for the hard won legal reforms that followed author john a fliter describes early attempts to regulate working children beginning with haphazard and flawed state level efforts in the 1840s and continuing in limited and ineffective ways as a consensus about the evils of child labor started to build in the progressive era the issue finally became a matter of national concern resulting in several laws four major supreme court decisions an unsuccessful child labor amendment and the landmark fair labor standards act of 1938 fliter offers a detailed overview of these events introducing key figures interest groups and government officials on both sides of the debates and incorporating the latest legal and political science research on child labor reform unprecedented in its scope and depth his work provides critical insight into the role child labor has played in the nation s social political and legal development

Religion and Mental Health 1980 business has received little attention in american religious history although it has profound implications for understanding the sustained popularity and ongoing transformation of religion in the united states this volume offers a wide ranging exploration of the business aspects of american religious organizations the authors analyze the financing production marketing and distribution of religious goods and services and the role of wealth and economic organization in sustaining and even shaping worship charity philanthropy institutional growth and missionary work treating religion and business holistically their essays show that american religious life has always been informed by business practices laying the groundwork for further investigation the authors show how american business has functioned as a domain for achieving religious goals indeed they find that religion has historically been more powerful when interwoven with business chapters on mormon enterprise jewish philanthropy hindu gurus native american casinos and the wedding of business wealth to conservative catholic social teaching demonstrate the range of new studies stimulated by the business turn in american religious history other chapters show how evangelicals joined neo liberal economic practice and right wing politics to religious fundamentalism to consolidate wealth and power and how they developed marketing campaigns and organizational strategies that transformed the american religious

landscape included are essays exposing the moral compromises religious organizations have made to succeed as centers of wealth and influence and the religious beliefs that rationalize and justify these compromises still others examine the application of business practices as a means of sustaining religious institutions and expanding their reach and look at controversies over business practices within religious organizations and the adjustments such organizations have made in response together the essays collected here offer new ways of conceptualizing the interdependence of religion and business in the united states establishing multiple paths for further study of their intertwined historical development

The Business Turn in American Religious History 2017-07-19 in late medieval catholicism mourners employed an array of practices to maintain connection with the deceased most crucially the belief in purgatory a middle place between heaven and hell where souls could be helped by the actions of the living in the early sixteenth century the reformation abolished purgatory as its leaders did not want attention to the dead diminishing people s devotion to god but while the reformation was supposed to end communication between the living and dead it turns out the result was in fact more complicated than historians have realized in the three centuries after the reformation protestants imagined continuing relationships with the dead and the desire for these relations came to form an important and since neglected aspect of protestant belief and practice in speaking with the dead in early america historian erik r seeman undertakes a 300 year history of protestant communication with the dead seeman chronicles the story of protestants relationships with the deceased from elizabethan england to puritan new england and then on through the american enlightenment into the middle of the nineteenth century with the explosion of interest in spiritualism he brings together a wide range of sources to uncover the beliefs and practices of both ordinary people especially women and religious leaders this prodigious research reveals how sermons elegies and epitaphs portrayed the dead as speaking or being spoken to how ghost stories and gothic fiction depicted a permeable boundary between this world and the next and how parlor songs and funeral hymns encouraged singers to imagine communication with the dead speaking with the dead in early america thus boldly reinterprets protestantism as a religion in which the dead played a central role

Speaking with the Dead in Early America 2019-10-04 in the late nineteenth century the urban department store arose as a built artifact and as a social institution in the united states while the physical building type is the foundation of this comprehensive architectural study louisa iarocci reaches beyond the analysis of the bricks and mortar to reconsider how the spaces of selling were culturally produced spaces as well as the product of interrelated economic social technological and aesthetic forces the agenda of the book is three fold to address the lack of a comprehensive architectural study of the nineteenth century department store in the united states to expand the analysis of the commercial city as a built and represented entity and to continue recent scholarly efforts that seek to understand commercial space as a historically specific and a conceptually perceived construct the urban department store in america 1850 1930 acts as a corrective to a current imbalance in the historiography of this retailing institution that tends to privilege its role as an autonomous modern building type instead iarocci documents the development of the department store as an urban institution that grew out of the built space of the city and the lived spaces of its occupants

"The Urban Department Store in America, 1850-1930 " 2017-07-05 a black jewish dialogue lifts a veil on these groups unspoken history shedding light on the challenges and promises facing american democracy from its inception to the present and modeling the honest conversation needed for blacks and jews to forge a new understanding

Blacks and Jews in America 2022 advancing equity and achievement in america s diverse schools illustrates how educators students families and community partners can work in strategic ways to build on social cultural and ethnic diversity to advance educational equity and

achievement by drawing on the latest data on demographic change constructions of culture and cultural difference and the politics of school reform in urban rural and suburban school communities this volume looks toward solutions and strategies for meaningful educational improvement contributors consider both the diversity of youth and families served in public schools and the culture of u s schooling highlighting the influence of policy and reform agendas students identities and agency experiences and approaches of diverse educators and the workings of effective school partnerships chapters also focus on those often overlooked in educational scholarship such as native americans students experiencing poverty and or homelessness muslim students students with special needs and students and educators who are lesbian gay bisexual transgender intersex or queer in all this edited collection stresses the need for high quality education that is inclusive culturally responsive and unifying so all students can experience academic success this book is a meaningful resource for educators policymakers and community based leaders interested in doing such transformative work

Advancing Equity and Achievement in America's Diverse Schools 2013-09-05 introduce students to civic values in america and teach them the importance of upholding values like equality and responsibility students will be encouraged to engage in civic discourse about events in us history and what it means to be a good citizen today colorful images supporting text a glossary table of contents and index all work together to engage readers and help them better understand the content this informative colorful book uses primary sources to captivate readers as they learn social studies topics

We the People: Civic Values in America 2014-07-25 first published in 1980 the dynamism within the american colonies in the fifty years or so before the outbreak of the crisis of the 1760s that was to lead to the revolution has never been in doubt the articles written included in this text suggest a number of ways in which the imperial factor was of real importance in colonial life and show that there was dynamism on the british side as well as in the colonies

The British Atlantic Empire Before the American Revolution 2005-07-08 the cold war was fought in every corner of society including in the sport and entertainment industries recognizing the importance of culture in the battle for hearts and minds the united states like the soviet union attempted to win the favor of citizens in nonaligned states through the soft power of sport athletes became de facto ambassadors of us interests their wins and losses serving as emblems of broader efforts to shield american culture both at home and abroad against communism in defending the american way of life leading sport historians present new perspectives on high profile issues in this era of sport history alongside research drawn from previously untapped archival sources to highlight the ways that sports influenced and were influenced by cold war politics surveying the significance of sports in cold war america through lenses of race gender diplomacy cultural infiltration anti communist hysteria doping state intervention and more this collection illustrates how this conflict remains relevant to us sporting institutions organizations and ideologies today

Defending the American Way of Life 2018-12-01 this important new collection brings together ten of alden vaughan s essays about race relations in the british colonies focusing on the variable role of cultural and racial perceptions on colonial policies for indians and african americans the essays include explorations of the origins of slavery and racism in virginia the causes of the puritans war against the pequots and the contest between natives and colonists to win the other s allegiance by persuasion or captivity less controversial but equally important to understanding the racial dynamics of early america are essays on early english paradigmatic views of native americans the changing anglo american perceptions of indian color and character and frontier violence in pre revolutionary pennsylvania published here for the first time are an extensive expos e of slaveholder ideology in seventeenth century barbados the second half of an essay on puritan judicial policies for indians a general introduction and headnotes to each essay all previously published pieces have been revised to reflect

recent scholarship or to address recent debates challenging standard interpretations while probing previously ignored aspects of early american race relations this convenient and provocative collection by one our most incisive commentators will be required reading for all scholars and students of early american history

Roots of American Racism 1995 the tenth edition of keen s latin american civilization inaugurates a new era in the history of this classic anthology by dividing it into two volumes this second volume retains most of the modern period sources from the ninth edition but with some significant additions including a new set of images and a wide range of new sources that reflect the latest events and trends in contemporary latin america the 75 excerpts in volume two provide foundational and often riveting first hand accounts of life in modern latin america concise introductions for chapters and excerpts provide essential context for understanding the primary sources

University Extension 1891

Keen's Latin American Civilization, Volume 2 2015-07-07 examines the ways our conceptions of asian american food have been shaped chop suey sushi curry adobo kimchi the deep associations asians in the united states have with food have become ingrained in the american popular imagination so much so that contentious notions of ethnic authenticity and authority are marked by and argued around images and ideas of food eating asian america a food studies reader collects burgeoning new scholarship in asian american studies that centers the study of foodways and culinary practices in our understanding of the racialized underpinnings of asian Americanness it does so by bringing together twenty scholars from across the disciplinary spectrum to inaugurate a new turn in food studies the refusal to yield to a superficial multiculturalism that naively celebrates difference and reconciliation through the pleasures of food and eating by focusing on multi sited struggles across various spaces and times the contributors to this anthology bring into focus the potent forces of class racial ethnic sexual and gender inequalities that pervade and persist in the production of asian american culinary and alimentary practices ideas and images this is the first collection to consider the fraught itineraries of asian american immigrant histories and how they are inscribed in the production and dissemination of ideas about asian american foodways

O. Henry's American Scenes 2005-07-01 the antebellum period has long been identified with the belated emergence of a truly national literature and yet as meredith l mcgill argues a mass market for books in this period was built and sustained through what we would call rampant literary piracy a national literature developed not despite but because of the systematic copying of foreign works restoring a political dimension to accounts of the economic grounds of antebellum literature mcgill unfolds the legal arguments and political struggles that produced an american culture of reprinting and held it in place for two crucial decades in this culture of reprinting the circulation of print outstripped authorial and editorial control mcgill examines the workings of literary culture within this market shifting her gaze from first and authorized editions to reprints and piracies from the form of the book to the intersection of book and periodical publishing and from a national literature to an internally divided and transatlantic literary marketplace through readings of the work of dickens poe and hawthorne mcgill seeks both to analyze how changes in the conditions of publication influenced literary form and to measure what was lost as literary markets became centralized and literary culture became stratified in the early 1850s american literature and the culture of reprinting 1834 1853 delineates a distinctive literary culture that was regional in articulation and transnational in scope while questioning the grounds of the startlingly recent but nonetheless powerful equation of the national interest with the extension of authors rights

Universalism in America 1886 this final volume of vernon louis parrington s pultzer prize winning study deals with the decay of romantic optimism it shows that the cause of decay is attributed to three sources stratifying of economics under the pressure of centralization the rise

of mechanistic science and the emergence of a spirit of skepticism which with teachings of the sciences and lessons of intellectuals has resulted in the questioning of democratic ideals parrington presents the movement of liberalism from 1913 to 1917 and the reaction to it following world war i he notes that liberals announced that democratic hopes had not been fulfilled the constitution was not a democratic instrument nor was it intended to be and while americans had professed to create a democracy they had in fact created a plutocracy industrialization of america under the leadership of the middle class and the rise of critical attitudes towards the ideals and handiwork of that class are examined in great detail parrington s interpretation of the literature during this time focuses on four divisions of development the conquest of america by the middle class the challenge of that overlordship by democratic agrarianism the intellectual revolution brought about by science and the appropriation of science by the middle class and the rise of detached criticism by younger intellectuals a new introduction by bruce brown highlights parrington s life and explains the importance of this volume

Eating Asian America 2013-09-23 in the transatlantic world of the late eighteenth century easterly winds blew radical thought to america thomas paine had already arrived on these shores in 1774 and made his mark as a radical pamphleteer during the revolution in his wake followed more than 200 other radical exiles english dissenters whigs and painites scottish lads o parts and irish patriots who became influential newspaper writers and editors and helped change the nature of political discourse in a young nation michael durey has written the first full scale analysis of these radicals evaluating the long term influence their ideas have had on american political thought transatlantic radicals uncovers the roots of their radicalism in the old world and tells the story of how these men came to be exiled how they emigrated and how they participated in the politics of their adopted country nearly all of these radicals looked to paine as their spiritual leader and to thomas jefferson as their political champion they held egalitarian anti federalist values and promoted an extreme form of participatory democracy that found a niche in the radical wing of jefferson s republican party their divided views on slavery however reveal that democratic republicanism was unable to cope with the realities of that institution as political activists during the 1790s they proved crucial to jefferson s 1800 presidential victory then after his views moderated and their influence waned many repatriated others drifted into anonymity and a few managed to find success in the new world although many of these men are known to us through other histories their influence as a group has never before been so closely examined durey persuasively demonstrates that the intellectual ferment in britain did indeed have tremendous influence on american politics his account of that influence sheds considerable light on transatlantic political history and differences in religious political and economic freedoms skillfully balancing a large cast of characters transatlantic radicals depicts the diversity of their experiences and shows how crucial these reluctant émigrés were to shaping our republic in its formative years

Report of the Assistant Director and of the Curators of the U.S. National Museum 1897 today s political controversy over immigration highlights the plight of the working class in this country as perhaps no other issue has recently done the political status of immigrants exposes the power dynamics of the new working class which includes the former labor aristocracy women and people of color this new working class suffers exploitation in advanced industrial countries as the social cost of capitalism s success in a neoliberal and globalized political economy paradoxically as borders become more open they are also increasingly fortified subjecting many workers to the suspension of law in this book kathleen arnold analyzes the role of the state s prerogative power in creating and sustaining this condition of severe inequality for the most marginalized sectors of our population in the united states drawing on a wide range of theoretical literature from locke to marx and agamben whose notion of bare life features prominently in her construal of this as a biopolitical era she focuses attention especially on the values of asceticism derived from the protestant work ethic to explain how they function as ideological justification for the exercise of prerogative power by the state as a counter to this repressive set of values she develops the notion of

authentic love borrowed from simone de beauvoir as a possible approach for dealing with the complex issues of exploitation in liberal democracy today

American Literature and the Culture of Reprinting, 1834-1853 2013-10-11 the north american free trade agreement nafta is a milestone in the affairs of the continent and in international trade the first formal arrangement of any kind between canada the united states and mexico it is also the first trade pact including countries of such disproportionate power and levels of development for canada and mexico the agr

The Beginnings of Critical Realism in America 2017-09-29 the elite french zouaves with their distinctive colorful uniforms set an influential example for volunteer soldiers during the civil war and continued to inspire american military units for a century hundreds of militia companies adopted the flamboyant uniform to emulate the gallantry and martial tradition of the zouaves drawing on fifty years of research this volume provides a comprehensive state by state catalog of american zouave units richly illustrated with rare and previously unpublished photographs and drawings the author dispels many misconceptions and errors that have persisted over the last 150 years

Transatlantic Radicals and the Early American Republic 1997 without the support of american women victory in the revolutionary war would not have been possible they followed the continental army handling a range of jobs that were usually performed by men on the orders of general washington some were hired as nurses for 2 per month and one full ration per day disease was rampant and nurse mortality was high a few served with artillery units or masqueraded as men to fight in the ranks the author focuses on the many key roles women filled in the struggle for independence from farming to making saltpeter to spying

America's New Working Class 2015-08-26 the phenomenon of studio goldsmithing when the history of art in the 1980s is written much of it will be etched in gold this is the time of the contemporary goldsmith an artist who chooses to work in precious metals rather than oils or marble the contemporary jeweler as artist has only recently become a recognized force with rare exceptions the whole field is little more than thirty years old but it is only within the past fifteen years that these jewelers have entered the jewelry mainstream the phenomenon of contemporary goldsmithing embraces an eclectic group of artists each with a unique vision each taking a personal path to jewelry producing they have as little relationship to the typical mass produced jewelry as a champagne maker has to a bottler of orange soda they approach a piece of art not a piece of metal the work is personal and a perfect expression of the back to the land movement that spawned it many of these goldsmiths were looking not merely for a way to make a living but for a way to make a life that was worthy of living running a business while trying to remain a creative metalsmith at the same time is the ongoing challenge the jeweler artists have solved or resolved these often conflicting needs in slightly different ways and in a beautiful variety of techniques and styles their methods their growth and their work are discussed here

Panoplist, and Missionary Magazine 1893 understanding american politics provides a unique introduction to the contemporary political landscape of the united states by using as its core organizing feature the idea of american exceptionalism a concept that is at least as old as toqcueville s study of american democracy the second edition of understanding american politics maintains the unique strengths of the first edition while offering improved coverage of political institutions a single omnibus chapter on institutions has been reorganized and split into three separate chapters on congress the presidency and the courts a new chapter on public opinion has also been included and the chapter on religion and politics has been completely rewritten with a deeper appreciation of religion s influential role the book has been revised throughout taking into account the dramatic changes that have emerged since the 2010 congressional elections and the 2012 presidential election the text also pays close attention to what is seen as the irreversible decline in america s global influence visit utpamericanpolitics.com for additional resources

Toward A North American Community? 2019-06-17 in america where mediations have always provided most people with their primary encounter with the holocaust television has helped transform watching into the morally charged act of witnessing the holocaust by tracing the course of holocaust television over the past half century while america watches reveals how americans have come to embrace this subject as a model for responding to other moral crises from domestic racial strife to ethnic cleansing operations in bosnia book jacket
