

the presidents really were ever wonder if our electoral system will evolve or remain the same who s your favorite president this accessible uniquely formatted picture book from pj and jamie creek covers it all find out everything you want to know about the united states presidency who the presidents were how we vote whose votes count the most in this book completely comprised of infographics

with growth stalling joblessness at crisis levels and governance unravelling most south africans cannot fathom why the anc does not embark on meaningful reform the answer lies in what is seldom raised the ruling party s unwavering determination to take the country by incremental steps from capitalism to socialism this transformation is being implemented via a moscow inspired national democratic revolution ndr dating back many decades despite the soviet union s collapse in 1991 the anc sacp alliance still sees the ndr as offering the most direct route to socialism in south africa and hence as its bedrock strategy the ndr has been implemented in many different spheres since 1994 by way of example ndr interventions have already made millions of people unemployable and the mining sector largely uninvestable they now aim at land expropriation without compensation ewc and the effective nationalisation of private healthcare and pensions the ndr is the key to understanding anc rule over some 30 years yet most south africans have been kept in the dark on it this book aims to fill that gap written in clear and simple language it provides an indispensable primer on the ndr and its role in the countdown to socialism in south africa

in south africa two unmistakable features describe post apartheid politics the first is the formal framework of liberal democracy including regular elections multiple political parties and a range of progressive social rights the second is the politics of the extraordinary which includes a political discourse that relies on threats and the use of violence the crude re racialization of numerous conflicts and protests over various popular grievances in this highly original work thiven reddy shows how conventional approaches to understanding democratization have failed to capture the complexities of south africa s post apartheid transition rather as a product of imperial expansion the south african state capitalism and citizen identities have been uniquely shaped by a particular mode of domination namely settler colonialism south africa settler colonialism and the failures of liberal democracy is an important work that sheds light on the nature of modernity democracy and the complex politics of contemporary south africa
