Growing up in the Rockies

2011-07-05

my heart drifts back to the rocky mountains as i sit and look out the window i see the snow that once brought such joy to my heart i remember the days when i would have been known as a snow bunny i think of my poor mother and how difficult it was for her to keep me indoors for i was a mountain girl i climbed the mountains i chased the animals i found all of gods creatures beautiful i was my fathers child he roamed the wilderness and i learned from him i loved to live life and i was very very happy it makes me very sad when i think of children who have not experienced such happiness for i was one of the lucky ones that is why i wish to share my life with you i hope that in this day and age of single parents that maybe someone who reads this can get hope from the true meaning of family i had a family that surrounded me with love and i never understood the meaning of poverty even though we were very poor i always felt like our life was normal and that was how the whole world was it would not be till my adult years that i would find this not to be true and to experience the pain of a life that i had never known it is hard for me to know where to begin as i remember back on the life that i loved and miss so much

however i wish to share the memories that made me who i am today

while 9 11 and its aftermath created a traumatic turning point for most of the writers in this book it is telling that none of their essays begin with that moment these young people were living probing and shifting their muslim identities long before 9 11 i ve heard it said that the second generation never asks the first about its story but nearly all the essays in this book include long intimate portrayals of muslim family life often going back generations these young muslims are constantly negotiating the differences between families for whom faith and culture were matters of honor and north america s youth culture with its emphasis on questioning exploring and inventing one s own destiny from the introduction by eboo patel ingrowing up muslim andrew garrod and robert kilkenny present fourteen personal essays by college students of the muslim faith who are themselves immigrants or are the children of immigrants to the united states in their essays the students grapple with matters of ethnicity religious prejudice and misunderstanding and what is termed islamophobia the fact of 9 11 and subsequent surveillance and suspicion of islamic americans particularly those hailing from the middle east and the asian subcontinent have had a profound effect on these students their families and their communities of origin

Families We Keep

why lgbtq adults don t end troubled ties with parents and why perhaps they should families we keep is a surprising look at the life long bonds between lgbtq adults and their parents alongside the importance of chosen families in the queer community rin reczek and emma bosley smith found that very few lgbtq people choose to become estranged from their parents even if those parent refuse to support their gender identity sexuality or both drawing on interviews with over seventy five lgbtq people and their parents reczek and bosley smith explore the powerful ties that bind families together for better or worse they show us why many feel obliged to maintain even troubled and sometimes outright toxic relationships with their parents they argue that this relationship persists because what we think of as the natural and inevitable connection between parents and adult children is actually created and sustained by the sociocultural power of compulsory kinship after revealing what holds even the most troubled intergenerational ties together families we keep gives us permission to break free of those family bonds that are not in our best interests reczek and bosley smith challenge our deep rooted conviction that family and specifically our relationships with our parents should be maintained at any cost families we keep shines a light on the shifting importance of family in america and how lgbtq people navigate its complexities as adults
