comprehensive overview of the trends indicators and history of market timing this handbook offers easy to understand coverage of the most simple and reliable tendencies of the financial markets very few careers can offer you the freedom flexibility and income that day trading does as a day trader you can live and work anywhere in the world you can decide when to work and when not to work you only answer to yourself that is the life of the successful day trader many people aspire to it but very few succeed day trading is not gambling or an online poker game to be successful at day trading you need the right tools and you need to be motivated to work hard and to persevere at the beginning of my trading career a pharmaceutical company announced some positive results for one of its drugs and its stock jumped from 1 to over 55 in just two days two days i was a beginner at the time i was the amateur i purchased 1

000 shares at 4 and sold them at over 10 on my very first beginner trade i made 6 000 in a matter of minutes it was pure luck i honestly had no idea what i was doing within a few weeks i had lost that entire 6 000 by making mistakes in other trades i was lucky my first stupid trade was my lucky one other people are not so lucky for many their first mistake is their last trade because in just a few minutes in one simple trade they lose all of the money they had worked so hard for with their account at zero they walk away from day trading as a new day trader you should never lose sight of the fact that you are competing with professional traders on wall street and other experienced traders around the world who are very serious highly equipped with advanced education and tools and most importantly committed to making money day trading is not gambling it is not a hobby you must approach day trading very very seriously as such i wake up early go for a run take a shower get dressed eat breakfast and fire up my trading station before the markets open in new york i am awake i am alert i am motivated when i sit down and start working on the list of stocks i will watch that day this morning routine has tremendously helped my mental preparation for coming into the market whatever your routine is starting the morning in a similar fashion will pay invaluable dividends rolling out of bed and throwing water on your face 15 minutes before the opening bell just does not give you sufficient time to be prepared for the market s opening sitting at your computer in your pajamas or underwear does not put you in the right mindset to attack the market i know i ve experienced all of these scenarios in how to day trade for a living i will show you how you too can take control over your life and have success in day trading on the stock market i love teaching it s my passion in this book i use simple and easy to understand words to explain the strategies and concepts you need to know to launch yourself into day trading on the stock market this book is definitely not a difficult technical hard to understand complicated and complex guide to the stock market it s concise it s practical it s written for everyone you can learn how to beat wall street at its own game and as a purchaser of my book you will also receive a membership in my community of day traders at vancouver traders com you can monitor my screen in real time watch me trade the strategies explained in his book and ask questions of me and other traders in our private chat room i invite you to join me in the world of day trading i m a real person who you can connect with i m not just a photograph here on the amazon site i love what i do you can follow my blog post under author updates on my author page on amazon it s honest you ll see i lose some days you can read the reviews of my book i know you will learn much about day trading and the stock market from studying my book you can join at no cost and with no obligation my community of day traders at vancouver traders com you can ask us questions practical hands on knowledge that s how to day trade for a living describes the basics of marketing products or services including organizing a promotional plan designing ads selecting media handling publicity managing a sales force and conducting market research note this is a humor book about stock investing the advice although unbelievably sage and accurate is for entertainment purposes only introduction do you continually lose money in the stock market my name is mr obvious and i wrote this book to help you i have studied financial markets and professional traders for multiple minutes at a time there is one thing that all the great traders and investors have in common one thing that links people like jesse livermore and warren buffett this one thing is the key to being successful in the market and is explained in detail in this book you are going to need this book does thinking about the money you ve lost cause you to have any problems with your bladder including frequent or urgent urination if so aside from a scheduled visit to your doctor you are going to need this book there are tons of books out there about trading and investing and let s face it reading them all would be a lot of work i have carefully analyzed and studied most of those books in fact i even read a couple of them all the way through what i have found is that there is one lesson that is the same in all investing and trading books one crucial piece of advice that you will need to fully understand to be able to make money in the market i explain this essential financial building block in this book step by step i laid it out so well that i even surprised myself if you also want to be surprised then you are going to need this book i almost didn t want to publish this information because it s going to completely revolutionize the face of individual investing my friends and family persisted that i follow through because they knew that it would help so many people but i must warn you the words included in this book are powerful the equivalent of a financial miracle and following them will lead to untold riches if you want to attain unprecedented wealth then you are going to need this book just don t get too greedy it isn t

very becoming my professional advice is that you purchase two copies for yourself and a copy for each one of your family members replace those copies with additional copies once your original copies are read get creased or if the cover is bent in any way i would also recommend purchasing a copy for all of your friends and even people that you don't know that well not only will they love you for it but they'll respect the hell out of you for it once you receive your first copy of the book i would recommend sleeping with it underneath your pillow to let the words and wisdom seep in to your subconscious i am working on a spoken word edition of the book but due to the volume of material it may take several years to complete in the meantime feel free to read it out loud where ever you are at work on the bus or even in a public bathroom you could also buy a copy just to place on your bookshelf or in your office to make it look like you actual read financial books and know what you're talking about when you start to spout off with your work buddies about some stock you heard on the news but are trying to act like you came up with the whole idea yourself nice try by the way but without this book i think they're on to you to sum it up you need this book don't wait another minute to buy it if you do you'll regret it and i'll lose some respect for you currently 45 million americans invest in stock they lose money in today's volatile trading cycles and pay broker fees for the privilege more and more investors are ready for a way to keep investing cut costs and take control of their own portfolio decisions they are joining the growing number of home investors opening direct stock purchase dsp accounts or dividend reinvestment plans drips at the hundreds of major note this is a humor book about stock investing the advice although unbelievably sage and accurate is for entertainment purposes only introduction do you continually lose money in the stock market my name is mr obvious and i wrote this book to help you i have studied financial markets and professional traders for multiple minutes at a time there is one thing that all the great traders and investors have in common one thing that links people like jesse livermore and warren buffett this one thing is the key to being successful in the market and is explained in detail in this book you are going to need this book does thinking about the money you ve lost cause you to have any problems with your bladder including frequent or urgent urination if so aside from a scheduled visit to your doctor you are going to need this book there are tons of books out there about trading and investing and let s face it reading them all would be a lot of work i have carefully analyzed and studied most of those books in

fact i even read a couple of them all the way through what i have found is that there is one lesson that is the same in all investing and trading books one crucial piece of advice that you will need to fully understand to be able to make money in the market i explain this essential financial building block in this book step by step i laid it out so well that i even surprised myself if you also want to be surprised then you are going to need this book i almost didn't want to publish this information because it's going to completely revolutionize the face of individual investing my friends and family persisted that i follow through because they knew that it would help so many people but i must warn you the words included in this book are powerful the equivalent of a financial miracle and following them will lead to untold riches if you want to attain unprecedented wealth then you are going to need this book just don't get too greedy it isn't very becoming my professional advice is that you purchase two copies for yourself and a copy for each one of your family members replace those copies with additional copies once your original copies are read get creased or if the cover is bent in any way i would also recommend purchasing a copy for all of your friends and even people that you don't know that well not only will they love you for it but they'll respect the hell out of you for it once you receive your first copy of the book i would recommend sleeping with it underneath your pillow to let the words and wisdom seep in to your subconscious i am working on a spoken word edition of the book but due to the volume of material it may take several years to complete in the meantime feel free to read it out loud where ever you are at work on the bus or even in a public bathroom you could also buy a copy just to place on your bookshelf or in your office to make it look like you actually read financial books and know what you're talking about when you start to spout off with your work buddies about some stock you heard on the news but are trying to act like you came up with the whole idea yourself nice try by the way but without this book i think they're on to you to sum it up you need this book don't wait another minute to buy it if you do you'll regret it and i'll lose some respect for you
