Equity Finance 2e V2 Cb 2019-01-23 a roadmap for success the strategies to
use and pitfalls to avoid

EBOOK: Developmental Psychology, 2e 2017-09-21 international financial
reporting standards ifrs are now mandatory in many parts of the world
including europe australia and china in addition many countries are in the
process of ifrs adoption lastly foreign registrants in us companies no longer
have to undertake a costly us ifrs reconciliation therefore it is clear that
investors analysts and valuers need to understand financial statements
produced under ifrs to feed in to their valuations and broader investment
decisions written by practitioners for practitioners the book addresses
valuation from the viewpoint of the analyst the investor and the corporate
acquirer it starts with valuation theory what is to be discounted and at what
discount rate it explains the connection between standard methodologies based
on free cash flow and on return on capital and it emphasizes that whichever
method is used accurate interpretation of accounting information is critical
to the production of sensible valuations the authors argue that forecasts of
cash flows imply views on profits and balance sheets and that non cash items
contain useful information about future cash flows so profits matter the book
then addresses the implications for analysis and valuation of key aspects of
ifrs including pensions stock options derivatives provisions leases the text
also sets out which countries use gaap as well as the key differences between

ifrs and us gaap treatments of these issues in addition to their implications for analysis a detailed case study is used to provide a step by step valuation of an industrial company using both free cash flow and economic profit methodologies the authors then address a range of common valuation problems including cyclical or immature companies as well as the specialist accounting and modelling knowledge required for regulated utilities resource extraction companies banks insurance and real estate companies accounting for mergers and disposals is first explained and then illustrated with a detailed potential acquisition using real companies
